HOW TO USE THIS GUIDE

This guide contains information you need to legally fish throughout Oregon.

NOTE – Regulations may change on short notice during the year or season. If you want the latest on regulations or other fishing information, you may call the Oregon Department of Fish and Wildlife at 503-947-6001 for up-to-date recorded information. Or visit us at our Internet site: www.dfw.state.or.us.

Oregon has three types of regulations for all fishing waters:

- General Regulations – include information on licenses, tags/harvest cards, permits, catch and possession limits, definitions, gear and bait restrictions, and harvest methods and hours.
- Zone Regulations – apply to entire geographical areas. There are nine zones in Oregon.
- Special Regulations – apply to specific bodies of water or portions of water within a zone. If a body of water or specific references to species, catch limits, length limits, seasons, or other specifications are not made in the Special Regulations for the zone, then zone regulations apply.

Before you fish any body of water, always:

1. Check the special regulations first.
2. If a body of water is not listed in the special regulations for the zone, check the zone regulations.
3. Regardless of where you fish, be certain to review the general regulations.

Let's try an example. You want to go fishing at Crescent Lake in Central Oregon.

1. First, determine the zone where Crescent Lake is located. You locate the lake on the Central Zone map on page 55.
2. Next, determine if there are any special fishing regulations for Crescent Lake.
 - You find Crescent Lake listed on page 58.
 - Crescent Lake has a trout daily catch limit that may include only one lake trout that must be at least 30 inches in length.
 - You then turn back to page 57 and review the zone regulations for the Central Zone.
 - By reading the zone regulations, you learn you may catch and keep only five trout per day with a minimum size limit of 8 inches, of which only one may be over 20 inches.
 - Thus, if you catch and keep one lake trout that is at least 30 inches in length, you may still catch four other trout in Crescent Lake that are 20 inches or less.
3. Can you fish Crescent Lake year round?
 - On page 57, you note that the season column states lakes in the Central Zone are open to fishing for trout all year.
4. What do you need to legally catch a trout in Crescent Lake?
 - You note that there are no other restrictions listed in the special or zone regulations.

- So you turn to pages 9-14 to review the general regulations.

5. In the general regulations you learn that:

- You need an angling license,
- You may not use live fish to catch fish in Crescent Lake, and
- You may only use one fishing rod.

Continue to thoroughly read the general regulations for other information regarding harvest methods and hours. Regulations highlighted in blue simply means the regulations changed from last year.

We wish you an enjoyable and successful fishing adventure!

Be A Sport!

Leave spawning fish alone.

Release "dark" fish unharmed.

Avoid disturbing fish redds

and give nature a chance to

create self-sustaining popula-

tions of fish in your streams.

Future generations of anglers

will be glad you did!

ANGLERS: WE NEED YOUR HELP

Every four years the Oregon Department of Fish and Wildlife conducts a public process to review angling regulations.

The process is as follows:

December 1, 2003 – February 29, 2004, ODFW will accept angling regulation proposals from interested members of the public. To receive a package of materials, visit the ODFW web site at www.dfw.state.or.us or write us at Angling Regulations, 3406 Cherry Avenue NE, Salem, OR 97303.

Public meetings will be held 7 - 10 p.m. on the following dates to discuss proposed angling regulations:

Location	Date	Location	Date
LaGrande	May 10, 2004	Springfield	May 18, 2004
Bend	May 11, 2004	Newport	May 19, 2004
Klamath Falls	May 12, 2004	Tillamook	May 20, 2004
Central Point	May 13, 2004	Salem	May 24, 2004
Roseburg	May 17, 2004		

For meeting locations, check your local newspaper the week before the meeting date or call your local ODFW office.

The Fish and Wildlife Commission will meet in August 2004 to discuss the proposed regulations and in September 2004 they will adopt the 2005 regulations. All Commission meetings are open to the public and testimony is welcome and encouraged. New regulations will take effect January 1, 2005.

OTHER INFORMATION:

Boats and Motors - Only those boating regulations restricting sport fishing are listed in this booklet. General boating regulations are available from the Oregon State Marine Board, 435 Commercial Street NE, Salem, OR 97301, telephone 503-378-8587, and Marine Board agents.

Guides and Packers - Information on guides and packers can be obtained from Oregon State Marine Board, 435 Commercial Street NE, Salem, OR 97301, telephone 503-373-1405 ex. 225.

Travel Information - Oregon Tourism Telephone 1-800-547-7842.

GENERAL (STATEWIDE) REGULATIONS

Instructions:

1. Read the **Special Regulations** for the zone in which you will be fishing. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the section entitled **Regulations for this zone** for the zone in which you will be fishing.
3. Always read the following **General Regulations**, which apply to all zones, for information about licenses; tags/harvest cards, and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Licenses, Tags and Permits:

1. State and federal laws require a Social Security Number to obtain most hunting and fishing licenses.
2. All persons 14 years or older must have in possession a valid Oregon angling license to take any fish for personal use, except:
 - During "Free Fishing" Weekend" (June 12-13, 2004) when no licenses or tags are required;
 - When taking smelt, or bullfrogs;
 - Oregon resident landowners and members of their immediate family may take fish on land they own and reside upon;
 - When angling in the Pacific Ocean within 3 miles of shore between Cape Falcon, Oregon and Leadbetter Point, Washington either a resident Washington license or an Oregon license is valid. Persons other than Washington residents must have a valid Oregon license to land fish in Oregon which were caught in the ocean.
3. All persons 14 years or older must have in possession a valid Oregon shellfish license to take any shellfish for personal use, except:
 - During "Free Fishing Weekend" (June 12-13, 2004) when no license or tags are required;
 - When taking crayfish or freshwater clams.
 - Oregon resident landowners and members of their immediate family may take shellfish on land they own and reside upon.
4. All anglers, regardless of age, need in possession a valid Combined Angling Tag to angle for salmon, steelhead, sturgeon or Pacific halibut. Anglers may purchase only one Combined Angling Tag (authorizing harvest of 20 salmon or steelhead) per year. Any salmon or steelhead may be recorded on the Combined Angling Tag.
5. Anglers may purchase multiple Hatchery Harvest Tags to record adipose or otherwise fin-clipped salmon or adipose fin-clipped steelhead harvested, in lieu of recording those fish on the Combined Angling Tag. Only adipose or otherwise fin-clipped salmon or adipose fin-clipped steelhead may be recorded on the Hatchery Harvest Tag.

Licenses, Tags and Permits - Fish	Fee	Qualifications
Resident Annual Licenses:		
Angling License*	\$24.75	• See definition of "resident", p. 11. • Oregon driver's license or state nondriver's ID card, or three other pieces of ID, one of which must show name and current address indicating six month's residency in Oregon, must be presented to purchase a resident license.
Combination Angling/Hunting License*	\$43.75	
Juvenile Angling License* (14 through 17 years of age)	\$6.75	• Must be at least 70 years of age and have lived in Oregon for more than 5 years and for at least 6 consecutive months immediately before buying a license. • Available from license agents.
Senior Citizen Combination Angling/Hunting License*	\$21.50	
Senior Citizen Angling License*	\$12.00	• Includes combination angling/hunting license; salmon/steelhead, sturgeon, Pacific halibut, spring turkey, cougar, fall black bear, elk and deer tags; upland bird and waterfowl validations.
Sports Pac License	\$130.00	
Duplicate License or Tag	\$6.50	
Resident Permanent Licenses:		
Resident Disabled War Veteran Angling and Hunting License	Free	• Available only at ODFW offices. • Must have resided in Oregon for at least 6 consecutive months immediately before applying for a license and provide written certification of at least 25 percent disability from Veterans Affairs or a branch of the Armed Forces.
Resident Pioneer Angling and Hunting Permanent License	Free	• Available only at ODFW offices. • Must be at least 65 years of age and have lived in Oregon for at least 50 years and for at least 6 consecutive months immediately before applying for a license.
Nonresident Annual License:		
Angling License*	\$61.50	• No residency requirements. • There are no juvenile nonresident angling licenses.
Daily Licenses:		
1-Day Angling License*	\$12.00	• Salmon, Steelhead, Sturgeon and Pacific Halibut Tag (Combined Angling Tag) is included with daily licenses, and all fish must be recorded on the tag. • The same fees apply to residents and nonresidents.
2-Day Angling License*	\$22.50	
3-Day Angling License*	\$33.00	
4-Day Angling License*	\$43.50	
7-Day Angling License*	\$43.75	• Nonresidents only.
Tags:		
Combined Angling Tag* (Adult) (Annual Tag to fish for salmon, steelhead, sturgeon and Pacific halibut.)	\$21.50	• Adult: 18 years and older. Juvenile: Under 18 years of age. • The same fee applies to both residents and non-residents. • Anglers may purchase only one Combined Angling Tag per year. • It is unlawful to alter entries on tags or licenses and to possess an altered tag or license.
Combined Angling Tag* (Juvenile) (Annual Tag to fish for salmon, steelhead, sturgeon and Pacific halibut.)	\$6.50	
		• Entries must be recorded in ball point pen. No erasures allowed. • Adult salmon or steelhead, legal size sturgeon and Pacific halibut must immediately upon removal from the water, be recorded on the appropriate Angling or Harvest Tag in the chronological order caught, except during Free Fishing Weekend (June 12-13, 2004) when no licenses or tags are required. • The angler who landed the fish must record the fish on his or her tag irrespective of who hooked the fish. • See pages 18 and 19 for instructions and codes.

*To obtain mail order license and/or tag see page 98.

GENERAL (STATEWIDE) REGULATIONS

Licenses, Tags and Permits - Fish	Fee	Qualifications
Hatchery Harvest Tag (Annual Tag to record hatchery <i>salmon</i> or hatchery <i>steelhead</i>)	\$12.00	- Angler must purchase appropriate Combined Angling Tag, which, along with all purchased Hatchery Harvest Tags, must be in possession and presented when requested while angling. - Each Hatchery Harvest Tag purchased authorizes the harvest of a combined total of 10 adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i>. - No limit on the number of Hatchery Harvest Tags an angler may purchase per year. - Only adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> may be recorded on the Hatchery Harvest Tags. - Entries must be recorded in ball point pen. No erasures allowed.
Permanent Disabilities Permit Permit holders must still acquire the appropriate license and tags.	Free	- Issued by ODFW Salem (see page 99 for application). - Written certification from a licensed physician that the applicant meets one of the following criteria: - Is permanently unable to walk without the use of, or assistance from, a brace, cane, crutch, prosthetic device, wheelchair, scooter or walker; or - Is restricted by lung disease to the extent that the person's forced expiratory volume for one second, when measured by a spirometer, is less than 35 percent predicted, or arterial oxygen tension is less than 55 mm/Hg on room air at rest; or - Has a cardiac condition to the extent that the person's functional limitations are classified in severity as Class III or Class IV, according to standards established by the American Heart Association; or - Has a permanent, physical impairment that prevents the person from holding a fishing rod in hand; or - Has a central visual acuity that permanently does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field is no greater than 20 degrees; or - Written proof that the last official certification of record by the United States Department of Veterans Affairs or any branch of the Armed Forces of the United States shows the person to be at least 65 percent disabled (ORS496.018). - Holders of a Permanent Disabilities Permit; a Permanent Wheelchair Angling License or a Permanent Blind Angler License (issued prior to 2000); or a Walking Disability Permit (issued prior to 1988) may angle from an anchored craft in waters where angling from a floating device is prohibited by ODFW. This allowance does not supersede safety or security regulations enacted by other agencies.
Licenses and Permits - Shellfish	Fee	Qualifications
Resident Annual Shellfish License	\$6.50	Same as Annual Angling License (p. 9)
Nonresident Annual Shellfish License	\$16.50	No residency requirements.
Nonresident 3-day Shellfish License	\$9.00	No residency requirements.
Disabled Clam Digger Permit - A person may assist a disabled clam digger, provided: - Both diggers have their own containers for clams; and - The disabled clam digger is within 100 feet of the assistant while the assistant is digging; and - The disabled clam digger has one of the permits or licenses listed in possession on the clam beds; and - The person assisting the clam digger holding one of the permits or licenses listed has a copy of said permit or license in possession on the clam beds.	Free	- Issued by ODFW Newport, Charleston or Astoria offices. - Written certification from a licensed physician that the applicant meets one of the following criteria: - Severely limited mobility because of paralysis or loss of use of some or all of a person's legs or arms; - Loss of vision or substantial loss of visual acuity or visual field beyond correction; or - Unable to walk without an assistive device or unable to walk more than 200 feet. - The doctor's certification must state whether the condition is permanent or temporary and, if temporary, the date when assistance would no longer be required. - A Disabled Veterans License, a Permanent Disabilities Permit, Wheelchair Angler License, or a Blind Angler License, issued by ODFW, may be used instead of the Disabled Clam Digger Permit. - A <i>shellfish</i> license is required in addition to this permit.
Abalone Harvest Permit	Free	Issued by ODFW Newport, Charleston or Astoria offices.

Catch and Possession Limits:

- Daily Limit:** Maximum number of fish or *shellfish* which may be legally caught and reduced to possession in one day. An angler may take daily limits of several types of fish per day. Daily catch limits apply to all waters and across zone boundaries.
- Annual Limit:** Applies to *abalone*, *Pacific halibut*, *salmon steelhead* and *sturgeon* only. The annual catch limits are: *abalone* 5; *sturgeon* 5; *Pacific halibut* 6; and 20 for *salmon* and *steelhead*, in any combination, when recorded on the Combined Angling Tag. Adipose or otherwise fin-clipped *salmon* or adipose fin-clipped *steelhead* legally recorded on a Hatchery Harvest Tag do not count toward this annual limit.

(Catch and Possession Limits continued next page)

GENERAL (STATEWIDE) REGULATIONS

Catch and Possession Limits (continued):

Possession Limit:	Maximum number or amount of a type of fish or <i>shellfish</i> that a person may lawfully possess (fresh, frozen, canned, smoked or otherwise processed) in the field or forest, or in transit to the place of permanent residence. The possession limit is: 2 daily limits for all species, including jack <i>salmon</i> except 1 daily limit for <i>abalone</i> , 1 daily limit on the vessel or two daily limits on land for <i>Pacific halibut</i> , and no possession limit for adult <i>salmon</i> , <i>steelhead</i> , or <i>sturgeon</i> . Anglers are restricted to 1 daily catch limit and 1 annual catch limit from the Columbia River, even if licensed in Oregon and Washington.
Size Limit:	It is unlawful to take or have in possession any fish or <i>shellfish</i> that are smaller than the minimum size or larger than the maximum size limits. All undersized, oversized, prohibited species or unwanted fish or <i>shellfish</i> taken must be released immediately unharmed and should not be removed from the water.

Definitions:

Adipose	A hatchery <i>salmon</i> , <i>steelhead</i> or <i>trout</i> with a clipped adipose fin and having a healed scar at the location of the fin. The adipose fin is the small fatty fin on <i>salmon</i> , <i>steelhead</i> , and <i>trout</i> located between the dorsal fin and the tail (see p. 67).
Fin-Clipped Fish:	
Aggregate:	The total sum or number; as in 15 fish in aggregate.
Angling:	To take or attempt to take fish for personal use by hook and line.
Artificial Fly:	A fly is a hook, dressed with conventional fly tying materials. The affixed materials may be natural or synthetic. Tied in conjunction with other materials, the following items may be part of the fly: wire (lead or other metal) used for weighting the fly, dumbbell eyes or beads (metal, glass or plastic). A fly is not a hook to which sinkers, molded weights, spinners, spoons or similar attractors are attached.
Bait:	Any item used to attract fish which is not an artificial fly or a lure. Molded soft plastic or rubber imitation worms, eggs, or other imitation baits are considered bait. Scent is not considered bait.
Barbless Hook:	A hook manufactured without barbs or a hook with the point barb removed or bent down to the shank.
Chumming:	Depositing in the water any substance, not attached to a hook, which may attract fish.
Fin Clip:	A healed scar where a fish fin has been clipped .
Fly Angling:	Angling with a fly rod, fly reel, (no spinning or fixed spool reel(s), floating or sinking fly line, leader, any type of backing line, and an artificial fly. In waters restricted to "Fly Angling Only", no additional weights or attractors shall be attached to the hook, leader, or line, and no metal core lines may be used.
Game Fish:	Are defined as follows: <i>Trout</i> , <i>salmon</i> when taken by angling, <i>steelhead</i> , <i>largemouth bass</i> , <i>smallmouth bass</i> , <i>bluegill</i> , <i>crappie</i> , other <i>sunfish</i> , <i>catfish</i> , <i>walleye</i> , <i>yellow perch</i> , <i>hybrid bass</i> (white x striped cross), <i>whitefish</i> , <i>sturgeon</i> and <i>shad</i> when taken by angling, <i>mullet</i> , <i>grayling</i> and <i>striped bass</i> .
Lake:	The slack water portion of all lakes, ponds and reservoirs; excluding beaver ponds and tide-gate sloughs.
Length:	The length of any fish (except <i>halibut</i>) is the shortest distance measured in a straight line between the tip of the tail and the tip of the snout while the fish is lying on its side on a flat surface with its tail in a normal position (see sketch, p. 14). The length of a <i>Pacific halibut</i> is measured in a straight line from the tip of the lower jaw with the mouth closed to the extreme end of the middle of the tail (see sketch, p. 14)
Lure:	An artificial device, complete with hooks, intended to attract and entice fish; excluding molded soft plastic or rubber imitation baits and artificial flies. Corkies, spin-n-glos, go-glos, birdy drifters, lead-head jigs, etc., are considered lures. Molded soft plastic or rubber imitation worms, eggs, or other imitation baits are considered bait.
Metal Core Line:	Line which when bent sharply and then released remains bent.
Nongame Fish:	Are defined as all fish except those which are defined as Game Fish. See species listed as Nongame in the Harvest Methods, Hours and Restrictions table on page 13.
Offshore Pelagic Species:	Includes all species of <i>tuna</i> and <i>mackerel</i> (family Scombridae), <i>swordfish</i> , all species of <i>bill fish</i> (family Istiophoridae), all species of the family <i>jacks</i> (family Carangidae), <i>opah</i> , <i>dorado</i> , <i>Pacific pomfret</i> , and all species of <i>sharks</i> .
Resident:	A person who has resided in Oregon for at least 6 consecutive months immediately prior to the date of making application for a license, tag or permit. Resident license and tags may also be purchased by: - Members of the Armed Forces of the United States who: - Are permanently assigned to active duty in this state, and their spouse and dependent children. - Reside in this state while assigned to duty at any base, station, shore establishment or other facility in this state. - Reside in this state while serving as members of the crew of a ship that has an Oregon port or shore establishment as its home port or permanent station. - Reside in a foreign country and establish Oregon residency by filing Oregon state income taxes no later than 12 months before leaving active duty. - Armed Forces includes Army, Navy, Air Force, Marine Corps and Coast Guard, or their reserve components; the National Guard or Oregon National Guard - Aliens attending school in Oregon under a foreign student exchange program.
Salmon:	Includes 5 species: <i>chinook</i> , <i>coho</i> , <i>chum</i> , <i>sockeye</i> and <i>pink</i> . Adult salmon are <i>coho</i> over 20 inches in length and any other <i>salmon</i> species over 24 inches in length, except in the ocean where all legal size <i>salmon</i> are considered to be adults. Jack salmon are <i>coho</i> between 15 and 20 inches in length and any other <i>salmon</i> species between 15 and 24 inches in length when in freshwater or bays. Jack salmon are not a species of <i>salmon</i> , but a life-history stage of various species of <i>salmon</i> that return to freshwater and become sexually mature after only a short period in the ocean. Thus, there are jack <i>coho</i> and jack <i>chinook salmon</i> , for example.

Shellfish:	<i>Abalone, clams, crabs, crayfish, mussels, oysters, piddocks, scallops, shrimp</i> and other marine invertebrates with shells.
Snagging:	Hooking or attempting to hook fish other than in the mouth.
Steelhead:	Sea-run <i>rainbow trout</i> over 20 inches in length except in the Rogue and Applegate rivers where <i>rainbow trout</i> over 16 inches in length are defined as <i>steelhead</i> .
Stream:	The free-flowing portion of all rivers and creeks, including beaver ponds and tide-gated sloughs.
Strike Indicator:	A hookless, unscented floating device attached to the line or leader for the purpose of signaling a strike at the fly. The point of attachment must be at least 18 inches from the fly. Strike indicators are not considered an "attachment" or an "attractor" and are therefore permitted in fly angling and artificial fly waters, except the North Umpqua.
Sunfish:	Largemouth and <i>smallmouth bass, bluegill, crappie, green sunfish, redear sunfish, Sacramento perch, pumpkinseed, warmouth</i> and all hybrids of these species.
Take:	To kill, reduce to possession or control.
Tidewaters:	Stream or estuary waters affected by daily ebb and flow of tides.
Tributary:	A stream flowing into a larger stream or a lake.
Trout:	All <i>rainbow</i> (except <i>steelhead</i>); <i>cutthroat; brook; brown; bull;</i> golden and lake <i>trout;</i> Atlantic <i>salmon;</i> <i>kokanee;</i> other landlocked <i>salmon;</i> and <i>salmon</i> under 15 inches in length, except <i>coho salmon</i> , which are always considered <i>salmon</i> regardless of size.

Gear, Bait and General Restrictions:

Use of Fish for Bait

1. It is unlawful to transport live fish between bodies of water.
2. Live fish may not be used or held for use as bait, except live nongame fish may be used in the ocean, bays and tidewaters when taken from the waterbody in which they will be used.
3. Dead fish, preserved fish, or parts of fish, *shellfish* and fish eggs may be used as bait.

General Restrictions

The following activities are unlawful:

1. Use of more than 1 rod or 1 line when angling for any fish; **except any number of rods or lines are allowed outside of three miles from shore when angling for offshore pelagic species and only if no species other than offshore pelagic species have been retained.** Rods or lines must be closely attended.
2. Use of gurdies, winches or reels affixed to a boat to land fish (rod or line must be held in hand) except when used for retrieving crab rings or pots.
3. Sale or purchase of fish or *shellfish*, or parts thereof, which have been taken for personal use. Except the skeletal remains of ocean food fish may be sold; and eggs from ocean-caught *salmon* may be sold to a licensed wholesale fish or bait dealer.
4. Catching all or part of another person's catch limit, except as provided for by a Disabled Clam Digger Permit. See page 10.
5. Trespassing on a fishway, weir or fish trap; and angling within 200 feet above and 200 feet below a weir or the entrance or exit of a fishway or fish trap either public or private.
6. Taking or attempting to take fish from state or federal hatchery facilities.
7. Removal, alteration or possession of ODFW signs.
8. Angling through a human-made ice hole larger than 12 inches diameter or length.
9. Transporting live fish or live eggs from one waterbody to another or into the state without a permit from ODFW.
10. Wasting fish, *shellfish* or marine intertidal invertebrates.
11. Angling on private land without permission.
12. Denying ODFW employees, peace officer or landowner opportunity to inspect license, catch **and gear.**
13. Taking or attempting to take any fish by means of chumming, or knowingly angle with the aid of chum, **except chumming is allowed when fishing for offshore pelagic species outside of three miles from shore and only if no species other than offshore pelagic species have been retained.**
14. Continuing to angle for the same type of fish after taking and retaining a catch or possession limit. Exceptions are provided for in bass fishing tournament regulations, and anglers may continue to angle for *sturgeon* provided all subsequent fish are released.
15. Dispose of dead animal (fish) carcasses, or parts thereof, in Oregon waters.
16. Unlawful to attach a tag or physically mark any fish in Oregon waters without a scientific taking permit except that adipose or otherwise fin-clipped fish may be tagged as part of angling tournament activities authorized under Department tournament permits. Contact ODFW in Salem for an application.
17. Take a fish which has had a radio tag inserted (a fish with an antenna trailing from its mouth or body) except radio-tagged fish may be retained, when otherwise legal, (consistent with all other existing regulations and applicable laws) in the mainstem Columbia River and its tributaries.
18. Unless authorized by a specific permit issued by the Oregon Fish and Wildlife Commission, no person may angle for or possess any of the following species of fish: Goose Lake lamprey; Pacific lamprey; **River lamprey, Western brook lamprey, Miller Lake lamprey, Klamath lamprey, Pit-Klamath lamprey, Klamath Basin lamprey,** Goose Lake tui chub; Warner Basin tui chub; Alvord chub; Catlow tui chub; Oregon lakes tui chub; Sheldon tui chub; Summer Lake Basin tui chub; Borax Lake chub; Oregon tui chub of Hutton Spring; Oregon chub (Willamette Basin); California roach; Millicoma dace; Foskett Springs speckled dace; Lahonton redbreasted shiner; Goose Lake sucker; Tahoe sucker; Lost River sucker; short nose sucker (*mullet*) of Klamath County; Jenny Creek sucker; Warner sucker; Malheur mottled sculpin; margined sculpin; pit sculpin; grass carp; caribe or pirhana; walking catfish; Snake River Spring/Summer *Chinook Salmon*; Snake River Fall *Chinook Salmon*; Columbia River *Coho Salmon*. Note: fish listed under state or federal endangered species acts may be harvested under "incidental take permits," which are considered annually. Check regulations to see under what circumstances these fish may be taken.
19. **Snag or attempt to snag gamefish.**
20. **Take, possess, or remove from streams *salmon* and *steelhead* carcasses or parts thereof not legally taken.**

Text highlighted in blue is new or changed from 2003

GENERAL (STATEWIDE) REGULATIONS

Hook and Weight Regulations

- No more than 2 hooks may be used while angling for *Pacific halibut* and no more than 3 hooks may be used while angling for other species. A double or treble point hook is classed as one hook.
- Measure hooks from point to shank, see sketch at right.
- When angling for *sturgeon*, use of multiple-point hooks is prohibited in all waters. In the mainstem Columbia and Snake rivers, barbed hooks are also prohibited.
- When angling for *salmon* or *steelhead*, (except in the ocean or as listed under for specific bodies of water) the following regulations apply:
 - Single-point hooks larger than 1-inch and multiple-point hooks larger than 9/16 inch are prohibited.
 - All weight, if not part of a conventional lure, must be attached above the hooks. When using single-point hooks larger than 5/8-inch or multiple-point hooks, the attachment of the weight must be 18 inches or more above uppermost hook.
- Barbless hooks are strongly advised unless specifically required.

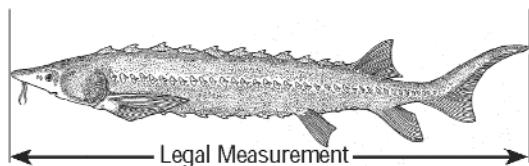

Harvest Methods, Hours and Restrictions:

Fish, shellfish or marine invertebrates may be taken only by the method or gear and during hours listed below.

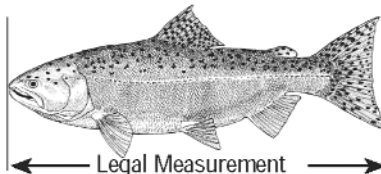

Species	Harvest Method	Restrictions
Game Fish: Salmon, Shad, Steelhead, Sturgeon, Trout, Whitefish, Largemouth Bass, Smallmouth Bass, Hybrid Bass, Striped Bass, Bluegill, Catfish, Crappie, Sunfish, Yellow Perch, Walleye and Mullet	Angling only	Unlawful to: - Angle for or take <i>salmon</i>, shad, <i>steelhead</i>, <i>sturgeon</i>, <i>trout</i> or <i>whitefish</i> except in daylight hours (one hour before sunrise until one hour after sunset). - Attempt to snag, spear, gaff, net, trap, club, shoot or ensnare any game fish. A net may be used to land legally hooked fish. - Take game fish hooked other than in the mouth. - Remove eggs from any <i>salmon</i>, <i>steelhead</i> or <i>sturgeon</i> without retaining the carcass while in the field. - Possess in the field game fish dressed or mutilated so that size, species or fin clip cannot be determined. - Angle for <i>sturgeon</i> with lures in waters closed to <i>salmon</i> or <i>steelhead</i> angling. - Gaff or penetrate <i>sturgeon</i> in any way while landing or releasing it. - Remove oversize <i>sturgeon</i> totally or in part from the water. - Take or possess suckers (<i>mullet</i>) in Klamath County. - Continue to angle for jack <i>salmon</i> after retaining a limit of adult <i>salmon</i> or <i>steelhead</i>.
Nongame Fish and Shellfish - Freshwater: Bullfrogs	Angling, Hand, Bow and Arrow, Spear, Gig, Spear Gun, Dip Net	No angling license is required to take <i>bullfrogs</i> .
Crayfish and Freshwater Clams	Angling, Hand, Baited Lines, Net, Rings and Traps	No <i>shellfish</i> license is required to take <i>crayfish</i> or <i>freshwater clams</i> . Note: Unlawful to take or possess <i>Zebra mussels</i> or <i>Asian clams</i> .
Pacific Lamprey	Hand or hand-powered tools	- May be taken at Willamette Falls only. - Must have in possession a Personal Use Permit and a Possession Permit issued from the ODFW Northwest Region Office in Clackamas when harvesting <i>lamprey</i>. - Must have a Possession Permit to possess <i>lamprey</i>. Possession Permit does not authorize harvest of <i>lamprey</i>. - Season, Harvest Hours and Possession Limits established by the Oregon Fish and Wildlife Commission are printed on Personal Use Permit. - Lamprey Harvest Permit with completed catch information must be turned in to the Northwest Region Office within 30 days of the end of season. Failure to report annual catch may jeopardize your ability to obtain a Lamprey Harvest Permit in the future.
Smelt	Dip Net only	- Each smelt dipper must have their own container. - Unlawful to have more than one daily limit of smelt in possession while in the dipping area. No license required to take smelt.
Suckers, Northern Pikeminnow, Carp, Chub, Sculpin, and other Nongame Freshwater Fish	Angling, Hand, Bow and Arrow, Crossbow, Spear, Spear Gun, Gaff and Snag Hook	Unlawful to take or attempt to take <i>suckers</i> (<i>mullet</i>) in Klamath County and Lake County.
Nongame Fish - Marine: Herring, Anchovy, Sardines and Smelt	Angling, Dip Net, Cast Net and Herring Jig with any number of hooks	Other Marine Regulations are listed in Marine Zone (page 91).
Lingcod, Rockfish, Cabezon, Greenling, Flounder, Sole, Perch and other Nongame Marine Fish	Angling, Hand, Bow and Arrow, Spear, Spear Gun, Gaff Hook, Snag Hook and Herring Jig	Unlawful to mutilate any <i>marine fish</i> so that size or species cannot be determined prior to landing or to transport mutilated fish across state water.
Pacific Halibut	Single Line, no more than 2 hooks; Spears	
Marine Shellfish and Other Marine Invertebrates:	See Marine Zone	See Marine Zone (page 91), and License Requirements (p.14).

Transfer of Fish and Shellfish to Another Person

Fish and shellfish (whole or parts, including fish eggs) which have been taken for personal use and then given or shipped to another person must be accompanied by the following information or you may complete the Fish and Wildlife Transfer Record below:

1. Kind and number of fish or shellfish;
2. Date caught;
3. Name, address, angling license or shellfish license number and Combined Harvest or Hatchery Harvest tag number (if applicable) of the person who caught them.

The above information must also be provided to the wholesale fish or bait dealer when eggs from ocean-caught salmon are sold.

FISH & WILDLIFE TRANSFER RECORD

Person transferring wildlife:

OREGON FISH ADVISORIES

Fish are a nutritious, low-fat source of protein. However, fish in some Oregon waters have contaminants that may be harmful to you and your family's health. Please consult the recommendations below for fish consumption guidelines. For more information call the Oregon Department of Human Services at 503-731-4012 or visit their website at www.healthoregon.org/fishadv. Please note; not all of Oregon's waters have been sampled for contaminants in fish.

WATER BODY	CONTAMINANT	CONSUMPTION RECOMMENDATION
Antelope Reservoir (SE Zone)	Very high mercury levels All species	VERY HIGH MERCURY LEVELS - Women of childbearing age, children under 6, and people with liver and kidney damage should avoid eating fish from these waters. - Healthy adults should eat no more than one 8 ounce meal per month.
Columbia Slough (Willamette Zone)	PCB levels Carp, Crappie	
Cooper Creek Reservoir (Willamette Zone)	High mercury levels All species	HIGH MERCURY LEVELS - Children under 6 should eat no more than one 4 ounce meal every two months. - Women of childbearing age should eat no more than one 8 ounce meal every month. - Healthy adults should eat no more than one 8 ounce meal every two weeks.
Cottage Grove Reservoir (Willamette Zone)	Very high mercury levels All species	
Dorena Reservoir (Willamette Zone)	Moderate mercury levels All species	MODERATE MERCURY LEVELS - Children under 6 should eat no more than one 4 ounce meal every month. - Women of childbearing age should eat no more than one 8 ounce meal every two weeks. - Healthy adults should eat no more than one 8 ounce meal every week.
East Lake (Central Zone) Do not eat brown trout 16" or larger	High mercury levels All species	
Galesville Reservoir (SW Zone)	High mercury levels All species	PCBs, DIOXINS & PESTICIDES All persons should reduce or avoid eating fatty parts of fish. Exposure can be reduced by removing the skin and all fat, eggs and internal organs. See diagram below.
Jordan Creek (SE Zone)	Very high mercury levels All species	
Lower Columbia River (Columbia River Zone)	PCBs, dioxins, & pesticides All resident species	
Owyhee Reservoir (SE Zone)	Very high mercury levels All species	
Owyhee River upstream of the reservoir to Three Forks (SE Zone)	High mercury levels All species	
Plat Reservoir (SW Zone)	Moderate mercury levels All species	
Snake River, including Brownlee Reservoir (Snake River Zone)	Moderate mercury levels All species	
Willamette River and Coast Fork Willamette to Cottage Grove Reservoir	High mercury levels and PCBs, dioxins & pesticides All resident species	

CRAYFISH AND CLAM ADVISORIES

- Crayfish and clams harvested above (east of) **Bonneville Dam** to the mouth of Ruckel Creek should not be eaten.
- Crayfish harvested within 1000 feet of the property lines of the former McCormick & Baxter site located south of the Burlington Northern Railroad bridge in **Portland Harbor** should not be eaten.

Fish Restoration and Enhancement Program

Protecting Oregon's Investment

Since 1990, the R&E Program has invested revenue provided by license fee surcharges into fish restoration and enhancement projects statewide.

The result: On-the-ground projects that benefit Oregon's fish resources.

For more information regarding the program or to apply for an R&E Grant, please call 503-947-6232 or visit the ODFW website

www.dfw.state.or.us.

Instructions for Completing Salmon, Steelhead, Sturgeon, and Pacific Halibut Harvest Tag

Salmon, Steelhead, Sturgeon & Halibut Anglers:

Upon landing and keeping an adult salmon (see regulations), steelhead, legal size sturgeon, or halibut, the angler must **IMMEDIATELY** enter the codes for the species caught, ocean port or stream and the month and day of catch. Record fish in consecutive order. Use only 1 line per fish. **STURGEON and HALIBUT ANGLERS must** record the fish length in inches. **Entries must be recorded in ball point pen.**

NO ERASURES ALLOWED

Example of a coded entry: While fishing on the N Fk. Umpqua on Jan. 25, a Chinook then an unmarked Steelhead are taken.

Species	Location	Length inches	Mo.	Day
1	103	36	1	25
W	103	28	1	25

CODES

- 1 Chinook (king or black mouth) - has black lower gumline
- 2 Coho (silver) has white lower gumline
- 3 Other Salmon - pink (humpy) Chum (dog) or Sockeye
- 4 Jack Salmon
- W** Unmarked Steelhead
- 6 Finmarked Steelhead
- 7 White Sturgeon - gray with uniform pale belly
- 8 Green Sturgeon - olive green with dark stripe on belly
- 9 Pacific Halibut

OREGON ZONES

Take me fishing.

FREE FISHING WEEKEND • JUNE 12 & 13, 2004

It's a wonderful opportunity for families to have fun, create new memories and spend time together. Celebrate with us and discover just how much fun fishing can be. Contact us at 503-947-6002 for details.

NORTHWEST ZONE

Description:

The Northwest Zone is all waters north of the Umpqua River to the Columbia River that drain directly to the Pacific Ocean, but not including the Umpqua River drainage; and tributaries of the Columbia River entering downstream of the City of St. Helens. Portions of Columbia River tributaries upstream of the railroad bridge (near the mouth) are included in the Northwest Zone and those portions of the tributaries below the railroad bridge (near the mouth) are included in the Columbia River Zone (pages 82-90). Regulations for *marine fish*, *marine shellfish* and *marine invertebrates* are listed under the Marine Zone (pages 91-97).

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for this zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules, or call 503-947-6001 24 hours a day.

Regulations for this zone:

1. Angling for all species in streams above tidewater is restricted to artificial flies and lures only May 22-Aug. 31. See exceptions for use of bait in Siletz, Nestucca, Trask, Wilson, Lewis and Clark, Youngs and Klaskanine rivers, Big and Gnat creeks, and Three Rivers.
2. Use of bait allowed in bays and tidewaters year round.
3. In all streams open to angling for *steelhead*, anglers may harvest 2 adipose fin-clipped *rainbow trout* (16-20 inches in length) per day, two daily limits in possession. Anglers must possess a Combined Angling Tag, but need not record *trout*.
4. Anglers may not continue to angle for *jack salmon* or *trout* after retaining a limit of adult *salmon* or *steelhead*.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	Lakes: 5 per day, 2 daily limits in possession. Streams: (including tidewaters and bays): • Neskowin Creek and north, Catch and release only. • Salmon River and south, 2 per day, 2 daily limits in possession.	• 8-inch minimum length. • Only 1 <i>trout</i> over 20 inches in length may be taken per day. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> in streams. • <i>Salmon</i> under 15 inches are considered <i>trout</i>, except <i>coho salmon</i>, which are always considered <i>salmon</i> regardless of size. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: (including tidewaters and bays): Open May 22-Oct. 31
Salmon and Steelhead	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year. 5 jack <i>salmon</i> per day, 2 daily jack limits in possession.	• See exceptions to the <i>chinook salmon</i> catch limit under Nehalem, Nestucca and Tillamook bays and tributaries. • Closed to <i>coho</i> and chum <i>salmon</i> (including jacks) angling unless noted under Special Regulations. • NOTE: Changes to <i>salmon</i> regulations for the ocean, bays, coastal rivers and the Columbia River system (page 85) are printed in May and are available at ODFW offices or from license agents. Check for new regulations before you fish. • See Special Regulations in NW Zone to determine where harvest of any <i>chinook salmon</i> is allowed. Harvest of nonadipose fin-clipped <i>steelhead</i> and nonadipose fin-clipped <i>coho salmon</i> is prohibited in the NW Zone. There is no annual limit on adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • Angling restricted to artificial flies and lures in streams above tidewater May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Closed in all waters unless noted by species under Special Regulations .
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession.	• No more than three over 15 inches in length. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons, except tidewater areas of Columbia River tributaries downstream from the city of St. Helens are open all year.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye and Yellow Perch	No limit.	• No minimum length. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	
Other Fish: Sturgeon	1 per day, 5 per year.	• Minimum length 42 inches, maximum length 60 inches. • All oversize, undersize, and unwanted legal size <i>sturgeon</i> must be released immediately unharmed into the water. • Oversize <i>sturgeon</i> cannot be removed totally or in part from water. • Angling restricted to artificial flies and lures in streams above tidewater May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

NORTHWEST ZONE

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Other Fish (con't.); Striped Bass	2 per 24 consecutive hours; 2 daily limits in possession.	30-inch minimum length. - Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons, except tidewater areas of Columbia River tributaries downstream from the city of St. Helens are open all year.
Sucker, Northern Pikeminnow, Carp, Chub, Sculpin and other Nongame Fish and Shad	No limit.	Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	
Bullfrogs	No limit.	An angling license is not required.	Open all year.

2. Upstream from the Forest Service bridge located at Dolph	• Closed.
3. Tributaries	• Closed.

BAIL SCHEDULES

Most violations of the wildlife and commercial fishing laws and regulations are Class A Misdemeanors, punishable by a maximum \$5,000 fine and a maximum sentence of confinement to the county jail of one(1) year. There is no scheduled bail, and mandatory court appearance is required if charged as a Class A Misdemeanor.

Violations of the wildlife and commercial fishing laws and regulations charged as violations rather than Class A Misdemeanors due to the absence of culpable mental state, or at the direction of the district attorney, have the following bail schedules:

- \$75** Violations that do not involve “taking” of wildlife, except for violations of the nonresident licensing provisions of ORS 497.102 and 497.121 and provisions of ORS 496.994.
- \$150** Violations for the “taking” of nongame mammals or game birds, and size or quantity limit for fish and shellfish, except salmon, steelhead and sturgeon.
- \$299** Violations for the “taking” of salmon, steelhead, sturgeon, wildlife not otherwise provided and all other wildlife offenses.

NORTHWEST ZONE

Water	Special Regulations
Wilson River (Tillamook Co.): 1. Mainstem upstream to South Fork including tidewater	• Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for fin-clipped <i>spring chinook salmon</i> April 1-July 31. • Open for <i>fall chinook salmon</i> Aug. 1-Dec. 31; except closed for <i>salmon</i> upstream from railroad bridge Aug. 1-Sept. 15. 2 adult <i>chinook salmon</i> per day, 4 in any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams. • Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31 downstream of Hwy 101 bridge. • Use of bait allowed.
2. Little North Fork	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Dec. 1-31.
3. Tributaries not listed	• Closed.
Yachats River up to North Fork including tidewater (Lincoln Co.):	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. • Open for <i>chinook salmon</i> May 22-Dec. 31. • Only 1 <i>chinook salmon</i> per day and 5 per year.
Yaquina River, including Bay, (Lincoln Co.): 1. From ends of jetties upstream to head of tide	• Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for <i>chinook salmon</i> April 1-Dec. 31.
2. From head of tide upstream to first bridge located 2-1/2 miles upstream from Eddyville on Eddyville-Nashville Road	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. • Open for <i>chinook salmon</i> May 22-Dec. 31.
Youngs Bay (Clatsop Co.) from Hwy 101 bridge upstream to markers at confluence of Youngs Bay and Klaskanine Rivers	• Open for adipose fin-clipped <i>steelhead</i> and adipose fin-clipped <i>coho salmon</i> entire year. • Open for fin-clipped <i>spring chinook salmon</i> Jan. 1-July 31. • Open for <i>fall chinook salmon</i> Aug. 1-Dec. 31.
Youngs River including tidewater (Clatsop Co.) 1. From markers at Battle Creek Slough upstream to Youngs River Falls	• Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for fin-clipped <i>spring chinook salmon</i> Jan. 1-July 31. • Open for <i>fall chinook salmon</i> Aug. 1-Dec. 31. • Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31. • Closed from first highway bridge, below Youngs River Falls, upstream to falls. • Use of bait allowed.
2. Upstream from Youngs River Falls	• Restricted to artificial flies and lures

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

OREGON DEPARTMENT OF FISH AND WILDLIFE

— IS A PARTNER IN —

THE OREGON PLAN *for salmon & watersheds*

Catch And Release

When you catch and release fish, you are preserving a valuable resource for other anglers to enjoy in the future. But if you aren't careful, the fish you release may simply die. If you keep fishing, you could kill more fish than a person who catches his or her limit and goes home. Here are some tips to help your released fish survive.

Suggested Tackle

- **Barbless Hooks strongly advised!** Use pliers to pinch barbs down.
- Use strong line to bring your catch in gently but quickly.
- Fish caught with flies or lures survive more often than fish caught with bait.
- Overly large hooks can damage mouth parts and eyes.
- Small hooks may be taken deeply by fish.

Landing Your Catch

- Land your fish as carefully and quickly as possible.
- Avoid removing the fish from the water. If your "trophy" is a photo, have the camera ready and gently cradle the fish at water level while someone else snaps the picture.
- Avoid using a net which can damage the fish's skin. If you must, use soft cotton net, not nylon.
- Don't touch the eyes or gills and don't squeeze the fish.

Removing Your Hook

- Remove the hook quickly and gently, keeping the fish under water.
- Use long-nosed pliers or a hemostat to back the hook out.
- When fish is hooked deeply, cut the line near the hook (hook will dissolve).
- Use steel hooks that will quickly rust out. Avoid using stainless steel hooks.
- Cut your line rather than injure an active fish.

Reviving Your Catch

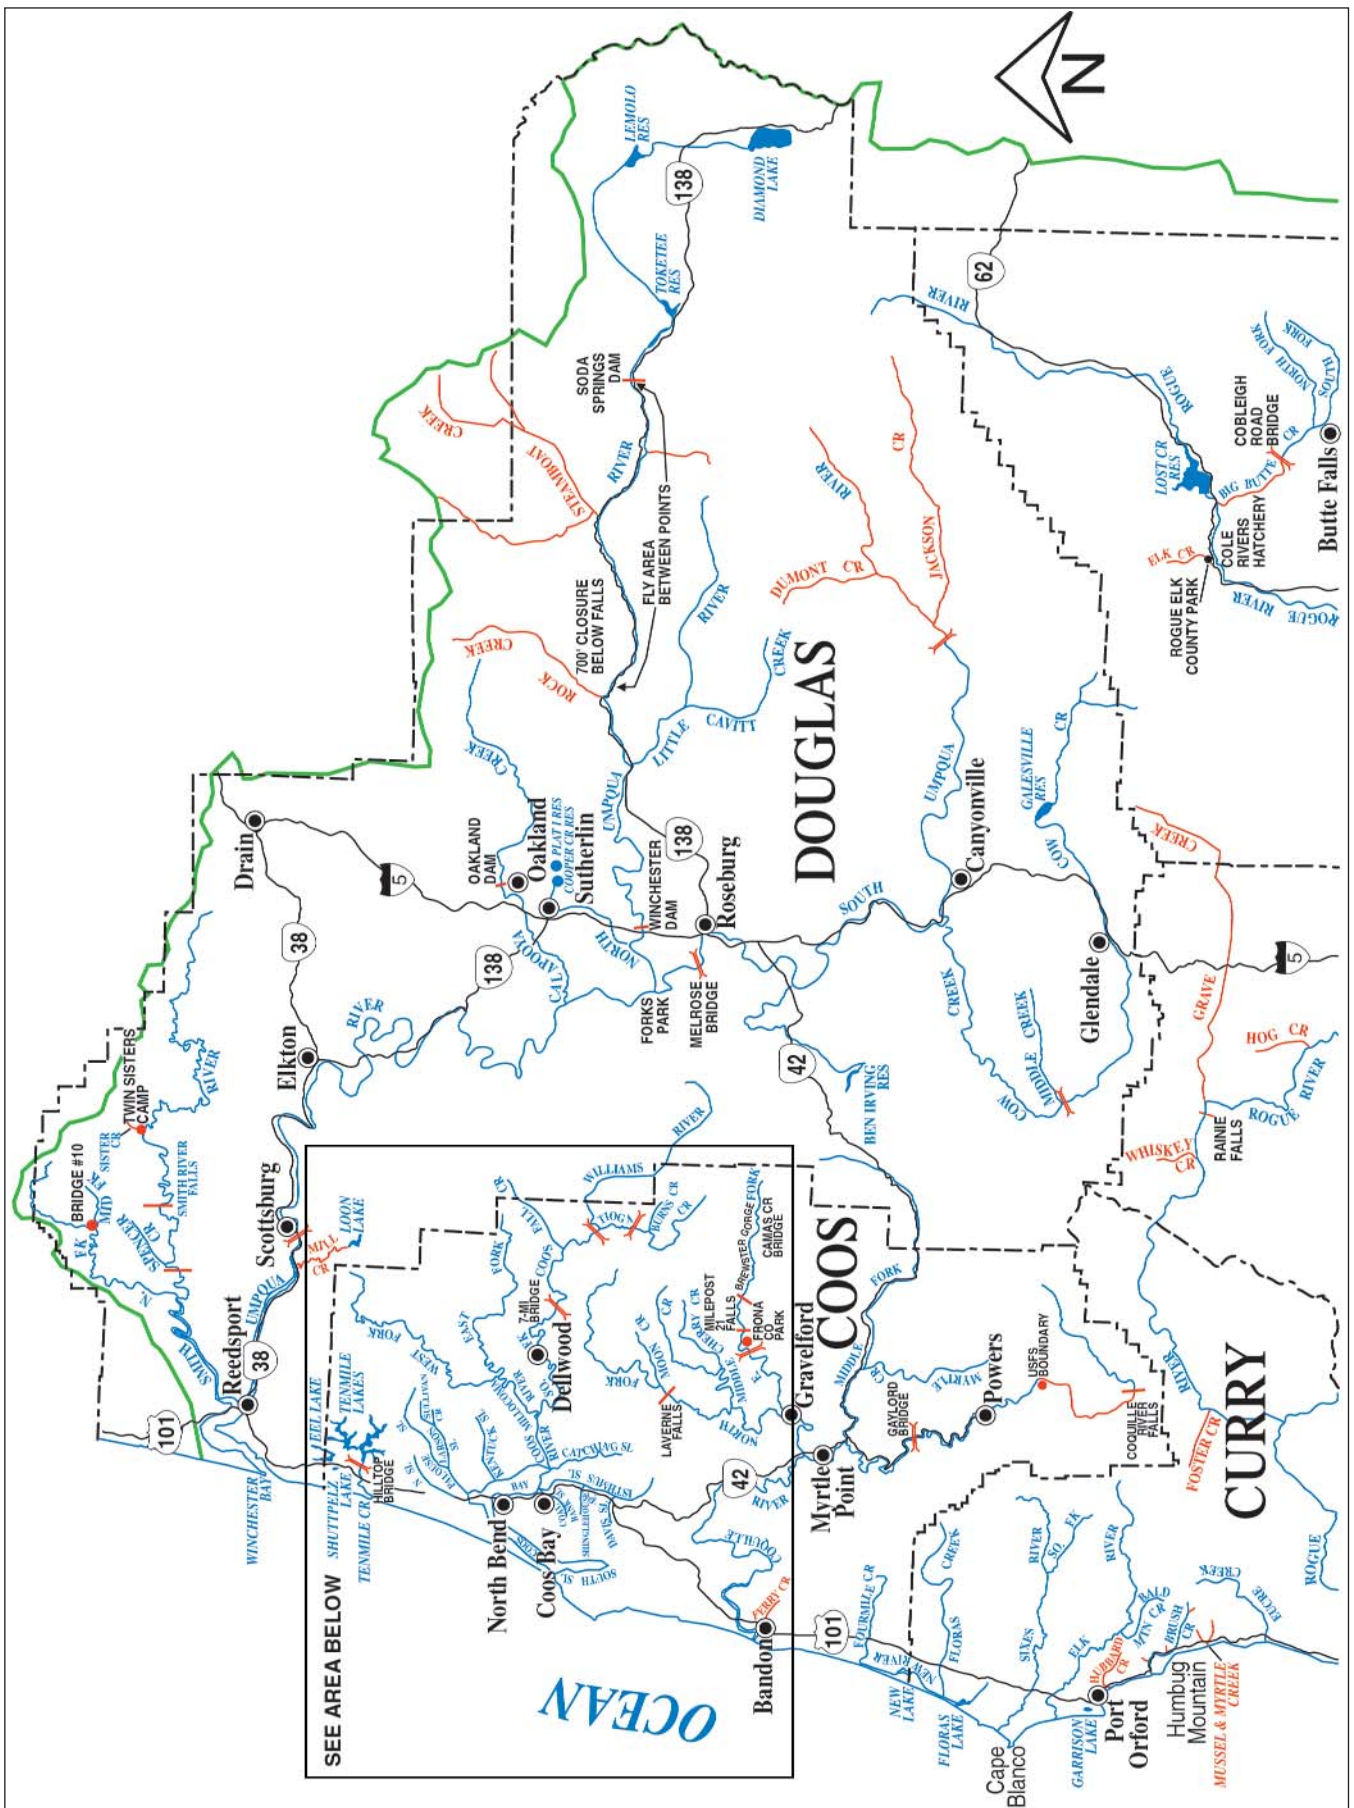

- Point your fish into a slow current or gently move it back and forth until its gills are working and it maintains its balance.
- When the fish recovers and attempts to swim out of your hands, let it go.
- Large fish may take some time to revive.

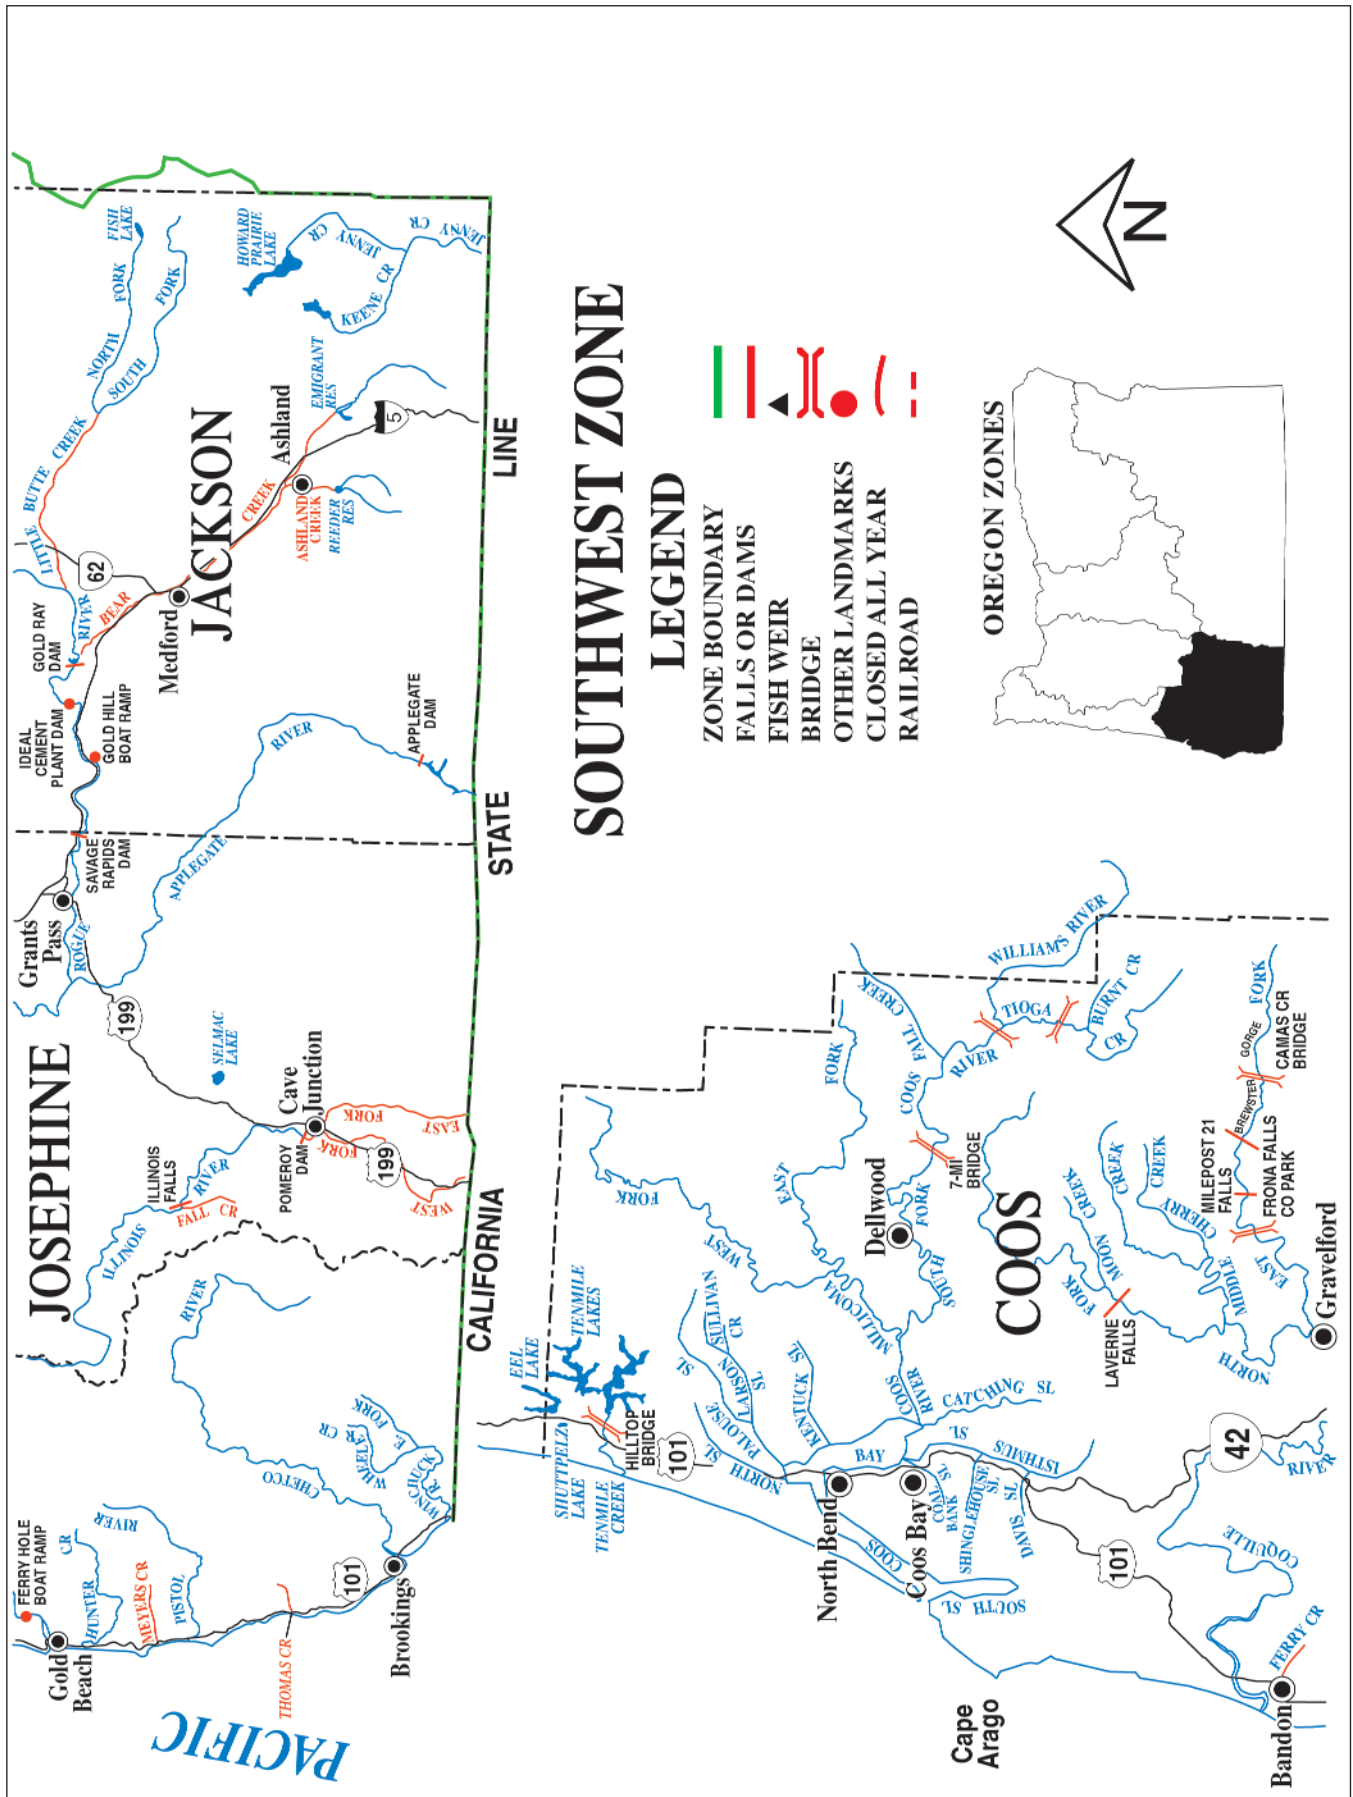

Keeping Your Catch? Here Are a Few Tips

If you choose to keep your fish, follow these suggestions:

- For salmon, steelhead, sturgeon or halibut, record the correct information on your tag immediately.
- Fish flesh deteriorates rapidly if not properly handled. Do not keep the fish on a stringer in the water - if alive, the stressed fish will produce chemicals altering the meat's flavor.
- A sharp blow to the head will kill the fish quickly. Break or cut through the gills allowing the blood to be pumped from the body.
- Clean and ice your fish in the field, removing kidneys and blood from the backbone and rib cage.
- Store fish on ice, preferably so they are not touching each other or resting in water, which may flavor the meat.
- Don't store fish in a plastic bag - the slime produced can ruin your catch.

RESIDENT SPORTS PAC LICENSE

The Sportsman's License (Sports Pac) includes a Combination Angling/Hunting License, black bear tag (general season or controlled 700 series; not leftover bear tags), general cougar tag, one elk and one deer tag (general season or controlled 100 and 200 series hunt; not leftover deer and elk tags), upland game bird validation, Oregon waterfowl validation, one spring turkey tag, and combined angling harvest tag. The fee for the entire package is \$130.00. **It does not include a shellfish license.**

The Combination Angling/Hunting License, general cougar, spring turkey, and angling harvest tags are issued at the time you purchase a Sports Pac. Bear, deer, and elk tags must be requested by the hunter because of the different options available. Upland game bird and Oregon waterfowl validations are available after July 1 each year.

Sports Pac license holders can request and pick up general season deer, elk and/or bear tags from Dec. 1 through the day prior to the earliest opening day of the hunt period for deer and elk and Oct. 1 for general bear, or can apply for controlled buck deer (100 series), controlled elk (200 series), and controlled spring bear (700 series) hunts. General season tags can be requested and picked up at the time you purchase your Sports Pac if you are not applying for controlled hunts in the 100, 200, or 700 series.

Controlled hunt applications (\$4.50 each) must be purchased in addition to the Sports Pac license no later than Feb. 10 for black bear and May 15 for deer and elk. Sports Pac holders are not guaranteed success in the controlled hunt drawings. However, if you are successful in the controlled hunt drawings, controlled hunt tags are available beginning Feb. 20 for bear and June 20 for deer and elk. **Tags must be picked up from a license agent prior to the opening day of the earliest hunt period for which tags are valid, including general seasons.**

If you apply and are unsuccessful in the controlled hunt drawing, and wish to hunt in a general deer, elk, or bear season, you must return to a license agent and pick up your tag prior to the opening day or the earliest hunt period for deer and elk, and Oct. 1 for black bear.

NOTE: All general season and controlled hunt tags must be picked up by the day before the earliest opening day of the hunt period. Some hunts are valid for both controlled and general seasons. Tags must be picked up prior to any hunt beginning. General black bear tags must be picked up by Oct. 1.

Upland game bird and Oregon waterfowl validations are available after July 1. Sports Pac holders should return to any license agent after that date to complete the Harvest Information Program (HIP) questionnaire and request a reprinted license with upland and waterfowl validations at no additional cost.

Only Oregon residents can purchase a Sports Pac. Sports Pac licenses are available at all license agent locations and by mail or fax. Holders of a Pioneer or Disabled War Veteran license may purchase the Sports Pac license at full cost.

Your Sports Pac includes one of each of the following:

- Combination Angling/Hunting License*
 - Combined Angling Harvest Tag*
 - General or Controlled Deer Tag
 - General or Controlled Elk Tag
 - General or Controlled Bear Tag
 - General Cougar Tag*
 - Spring Turkey Tag*
 - HIP Program-Validation for Upland Birds and Waterfowl are available after July 1.
- Deer, elk, and bear tags are not automatically issued at the time Sports Pac license is issued. Hunters must remember to pick up deer, elk, and bear tags by the day before the earliest hunt opens for deer, elk, and controlled bear, and by Oct. 1 for general bear.**

*Issued automatically at time of purchasing Sports Pac License.

General season deer, elk, and black bear tags must be requested by the Sports Pac holder.

Any Questions? Contact ODFW-Licensing, 503-947-6100

SOUTHWEST ZONE

Description:

The Southwest Zone is all waters draining directly to the Pacific Ocean from the Umpqua River south to the Oregon-California border, and including, the Umpqua River drainage; and those portions of Klamath River drainage in Jackson County. Regulations for *marine fish*, *marine shellfish* and *marine invertebrates* are listed under the Marine Zone (pages 91-97).

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for this zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

1. Rogue River tributaries below Lost Creek Dam, Applegate River tributaries below Applegate Dam, all Illinois River tributaries, and the Illinois River above Pomeroy Dam are **closed** to all angling, except as noted under **Special Regulations**.
2. Angling in streams above tidewater for all species during May 22-Aug. 31 is restricted to artificial flies and lures only. See exceptions for use of bait in Rogue, Applegate and Umpqua river basins.
3. Use of bait allowed in bays and tidewaters year round.
4. In all streams open to angling for *steelhead* except for the Rogue and Applegate rivers, anglers may harvest 2 adipose fin-clipped *rainbow trout* (16-20") per day, 2 limits in possession. Anglers must possess a Combined Angling Tag but need not record *trout*.
5. Anglers may not continue to angle for jack *salmon* or *trout* after retaining limit of adult *salmon* or *steelhead*.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	Lakes: 5 per day, 2 daily limits in possession. Streams: (including tidewaters and bays); 2 per day, 2 daily catch limits in possession.	• 8-inch minimum length. • Only 1 <i>trout</i> over 20 inches in length may be kept per day. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> in streams, except in Rogue River and tributaries below Lost Creek and Applegate dams, where <i>rainbow trout</i> over 16 inches are considered <i>steelhead</i>. • <i>Salmon</i> under 15 inches are considered <i>trout</i> except <i>coho salmon</i>, which are always considered <i>salmon</i> regardless of size. • No limit on size or number of <i>brook trout</i> taken from streams. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year unless noted under Special Regulations . Streams (including tidewater and bays): Open May 22-Oct. 31 unless noted under Special Regulations .
Salmon and Steelhead	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year. 5 jack <i>salmon</i> per day, 2 daily jack limits in possession.	• See Special Regulations in SW Zone to determine where harvest of any <i>chinook salmon</i> is allowed. There is no annual limit on adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • Only adipose fin-clipped <i>steelhead</i> may be kept, except as noted under Special Regulations for the mainstem Chetco, Elk, North Umpqua, Pistol, Rogue, Sixes and Winchuck rivers and Hunter and Euchre creeks. • Where allowed, no more than a total of 1 per day and 5 per year nonadipose fin-clipped <i>steelhead</i> may be taken per year statewide. • NOTE: Changes to <i>salmon</i> regulations for the ocean, bays and coastal rivers are printed in May and are available at ODFW offices or from license agents. Check for new regulations before you fish. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Closed in all waters unless noted by species under Special Regulations .
Warmwater Game Fish : Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession unless noted under Special Regulations .	• No more than 3 over 15 inches in length • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye, and Yellow Perch	No limit.	• No minimum length unless noted under Special Regulations. • Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

SOUTHWEST ZONE

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Other Fish: Sturgeon	1 per day, 5 per year.	- Minimum length 42 inches, maximum length 60 inches. - All oversize, undersize, and unwanted legal size <i>sturgeon</i> must be released immediately unharmed into the water. - Oversize <i>sturgeon</i> cannot be removed totally or in part from the water. - Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year unless noted under Special Regulations . Streams: (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons.
Striped Bass	2 per 24 consecutive hours; 2 daily limits in possession.	30-inch minimum length. - See Tenmile Lakes for <i>hybrid bass</i>. - Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year unless noted under Special Regulations . Streams: (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons, unless noted under Special Regulations .
Sucker, Umpqua Pikeminnow, Carp, Chub, Sculpin, other Nongame Fish, and Shad	No limit.	Angling restricted to artificial flies and lures in streams above tidewater, May 22-Aug. 31. See exceptions under Special Regulations where use of bait is allowed.	Streams: (including tidewaters and bays): Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons, unless noted under Special Regulations .
Smelt	First 25 pounds per day.	- An angling license is not required. Open all year. - Separate container for each dipper. 25 pounds per dipper while in dipping area.	All waters open all year.
Crayfish	100 per day, 2 daily limits in possession.	- A <i>shellfish</i> license is not required. - All streams are open to <i>crayfish</i> harvest including streams listed as closed under Special Regulations.	
Bullfrogs	No limit.	An angling license is not required.	
Freshwater Clams	No limit.	- A <i>shellfish</i> license is not required. Note: Unlawful to take or possess <i>Zebra mussels</i> and <i>Asian clams</i>.	Open all year.
Marine Fish and Marine Shellfish	See Marine Zone (pages 91-97).	See Marine Zone (pages 91-97).	See Marine Zone (pages 91-97).

Special Regulations for this zone:

Water	Special Regulations
Applegate Reservoir (Jackson Co.)	- No harvest of <i>bass</i> between 12-15 inches and no more than 1 <i>bass</i> longer than 15 inches may be taken. - All landlocked <i>salmon</i> are considered <i>trout</i>.
Applegate River (Josephine/Jackson Co.): 1. Mainstem upstream to Applegate Dam	- Open for <i>trout</i> Jan. 1-March 31 and May 22-Dec. 31. 2 adipose fin-clipped <i>rainbow trout</i> per day, 8-inch minimum length. <i>Rainbow trout</i> over 16 inches are considered <i>steelhead</i> and must be recorded on tag. - Nonadipose fin-clipped <i>rainbow</i> and <i>cutthroat trout</i> must be released unharmed. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31. - Use of bait allowed. - No angling from a floating device. Closed from USGS cable crossing, located 1/4-mile downstream from Applegate Dam, upstream to the Dam.
2. Tributaries upstream to Applegate Dam	Closed.
3. Mainstem and tributaries upstream from Applegate Dam	- Open April 24-Oct. 31. - Use of bait allowed. <i>Steelhead</i> not present. <i>Rainbow trout</i> are always considered <i>trout</i> regardless of size.
Ashland Creek (Jackson Co.) East and West Forks, including all tributaries upstream from Reeder Dam	- Open April 24-Oct. 31. - Use of bait allowed.
Big Butte Creek (Rogue system, Jackson Co.) and tributaries upstream from Cobleigh Road Bridge	Restricted to artificial flies and lures.

SOUTHWEST ZONE

Water	Special Regulations
Brush Creek (Curry Co.): 1. Mainstem including tidewater 2. Tributaries	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Nov. 1-Dec. 31. Closed to angling April 1-Oct. 31. Closed.
Chetco River (Curry Co.) Mainstem including tidewater	- Open for <i>chinook salmon</i> and <i>steelhead</i> Jan.1-March 31 and May 22-Dec 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit.
Cooper Creek Reservoir	See Health Advisory on page 15.
Coos Bay from the tips of jetties upstream to head of tide including: Kentuck Slough (Creek) upstream to tide gate, Larson Slough (Creek) upstream to Sullivan Creek, North Slough upstream to tide gate, Palouse Slough(Creek) upstream to Elliott State Forest Boundary located about 6 miles upstream from highway, Catching Slough upstream to Sumner Road Bridge, Isthmus Slough including Coal Bank and Davis sloughs upstream to their tidegates, Shinglehouse Slough, and Pony Slough (Creek) upstream to Newmark Avenue in tidewaters (Coos Co.).	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for <i>chinook salmon</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Dec. 31 up to Chandler Bridge. - Catching Slough closed to angling Jan. 1-May 31 and Nov. 1-Dec. 31. - Isthmus Slough upstream to the tidegate is open for adipose fin-clipped <i>coho salmon</i> entire year, excluding Coal Bank and Davis sloughs (see map on page 33).
Coos River (Coos Co.): 1. Mainstem and South Fork up to head of tide located at Dellwood 2. South Fork from head of tide upstream to concrete bridge located near Tioga Creek	- Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> the entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug.1-Dec. 31 up to Chandler Bridge. - South Fork to head of tide closed to <i>striped bass</i> angling April 1-June 30. - Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31, except closed for <i>salmon</i> upstream from Seven-mile Bridge. Closed to <i>striped bass</i>.
Coquille River (Coos Co.): 1. Inland from the tips of the jetties upstream to the South Fork, including tidewater. 2. East Fork up to marker at lower end of Brewster Gorge. 3. Middle Fork 4. North Fork 5. South Fork	- Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> upstream to Lampa Creek at river mile 11.5 Aug. 1-Dec. 31. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Dec. 1- 31. Closed 200 feet upstream from and 200 feet downstream from falls above milepost 21 (above Dora). - Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Oct. 1-Dec. 31. Closed upstream from Myrtle Creek Sept. 16-Nov. 30. - Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Oct. 1-Dec. 31. Closed for <i>salmon</i> upstream from the confluence with East Fork Coquille located at Gravelford. Closed 200 feet upstream from and 200 feet downstream from LaVerne Falls. - Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Oct. 1-Dec. 31. Closed for <i>salmon</i> upstream from Gaylord Bridge. Closed from U.S. Forest Service boundary (milepost 4 Powers-Agness Road) upstream to Coquille River Falls (approx. 12 miles) including tributaries.
Cow Creek (Umpqua Basin)	See Umpqua River Basin.
Diamond Lake (Douglas Co.)	Open April 24-Oct. 31.
Eel Lake (Coos/Douglas Co.)	- Open for adipose fin-clipped <i>steelhead</i> entire year. <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i>.
Elk River(Curry Co.) Mainstem inland from the mouth of the river upstream to Bald Mountain Creek, including tidewater	Open for trout May 22-Oct. 31, 2 per day, 8-inch minimum and open for adipose fin-clipped <i>rainbow trout</i> (half pounders), 2 per day, 8-inch minimum length, Jan. 1-March 31 and Nov.1-Dec. 31. - Open for <i>chinook salmon</i> and <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit.
Emigrant Creek and tributaries upstream from Emigrant Dam (Jackson Co.)	- Open year round. - Use of bait allowed. <i>Steelhead</i> not present. <i>Rainbow trout</i> are always considered <i>trout</i> regardless of size.
Emigrant Reservoir (Jackson Co.)	8-inch minimum length for <i>crappie</i>. - All landlocked <i>salmon</i> are considered <i>trout</i>.

SOUTHWEST ZONE

Water	Special Regulations
Euchre Creek (Curry Co.) Mainstem including tidewater	- Open for <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit.
Ferry Creek (Coquille Basin, Coos Co.)	Closed above Fillmore Street bridge near mouth including tributaries.
Floras Creek & Floras Lake outlet (Curry Co.)	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Open for <i>chinook salmon</i> May 22-Dec. 31.
Floras Lake (Curry Co.)	Open for <i>trout</i>, <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year.
Fourmile Creek including tidewater (Coos Co.)	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31.
Galesville Reservoir (Douglas Co.)	<i>Bass</i> between 12-15 inches must be released and only 1 <i>bass</i> longer than 15 inches may be taken. - All landlocked <i>salmon</i> are considered <i>trout</i>. - See Health Advisory on page 15.
Garrison Lake (Curry Co.)	1 <i>bass</i> per day, 15-inch minimum length.
Howard Prairie Reservoir (Jackson Co.)	Open April 24-Oct. 31.
Hubbard Creek and tributaries (Curry Co.)	Closed.
Hunter Creek (Curry Co.): 1. Mainstem including tidewater	- Open for <i>steelhead</i> Jan. 1-March 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit. - Open for <i>chinook salmon</i> downstream of Mateer Bridge Oct. 1-Dec. 31; 1 adult or jack <i>chinook</i> per day, 5 per year. Closed for <i>trout</i>.
2. Tributaries	Closed.
Hyatt Lake (Jackson Co.)	Open April 24-Oct. 31.
Illinois River Basin (Curry/Josephine Co.) 1. Mainstem up to Pomeroy Dam located near Cave Junction	- Catch and release for <i>steelhead</i> and <i>trout</i> Jan. 1-March 31 and May 22-Dec. 31. Closed for <i>salmon</i>. - Restricted to artificial flies and lures. Closed from mouth of Fall Creek, located downstream from Illinois Falls, to a point 400 feet upstream from Illinois Falls.
2. Mainstem upstream from Pomeroy Dam	Closed.
3. All tributaries	Closed.
Jenny Creek and tributaries (Jackson Co.)	- Open April 24-Oct. 31. - Restricted to artificial flies and lures only. <i>Steelhead</i> not present. <i>Rainbow trout</i> are always considered <i>trout</i> regardless of size.
Lemolo Reservoir (Douglas Co.)	Open April 24-Oct. 31.
Little Butte Creek and tributaries, upstream from the forks (Rogue Basin, Jackson Co.)	<i>Trout</i> catch and release, except no limit on size or number of <i>brook trout</i> taken. - Restricted to artificial flies and lures only.
Lost Creek Reservoir (Jackson Co.)	All landlocked <i>salmon</i> are considered <i>trout</i>.
Middle Creek upstream to Cherry Creek (North Fork Coquille, Coos Co.)	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31.
Mill Creek upstream from Hwy 38 bridge (Umpqua Basin, Douglas Co.)	Closed.
Millicoma River (Coos Co.): 1. Mainstem, including tidewater	- Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. Closed for <i>striped bass</i> April 1 - June 30.
2. East and West forks	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. Closed for <i>striped bass</i>.
Mussel/Myrtle creeks and tributaries (Curry Co.)	Closed.
Myers Creek (Curry Co.)	Closed.
New Lake (Coos/Curry Co.)	- Open for <i>trout</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Open for <i>chinook salmon</i> May 22-Dec. 31.
New River including tidewater (Coos/Curry Co.)	- Open for <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Open for <i>chinook salmon</i> May 22-June 30 and Aug. 16-Dec. 31.
Pacific Ocean	See Marine Zone (pages 91-97).
Pistol River (Curry Co.) Mainstem including tidewater	- Open for <i>trout</i> May 22-Oct. 31, 2 per day, 8-inch minimum and open for adipose fin-clipped <i>rainbow trout</i> (half pounders), 2 per day, 8-inch minimum length, Jan. 1-March 31 and Nov. 1-Dec. 31. - Open for <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit. - Open for <i>chinook salmon</i> downstream of Deep Creek Oct. 1-Dec. 31; 1 adult or jack <i>chinook</i> per day, 5 per year.

Southwest Zone

Water	Special Regulations
Plat I Reservoir (Umpqua Basin, Douglas Co.)	- Catch and release for <i>bass</i> Jan. 1-Feb. 28 and Nov. 1-Dec. 31. - See Health Advisory on page 15.
Rogue River (Curry/Josephine/Jackson Co.): 1. Tidewater upstream to deadline markers located downstream from Cole Rivers Hatchery diversion dam, including reservoirs	- Open for <i>trout</i> Jan. 1-March 31 and May 22-Dec. 31. 5 adipose fin-clipped <i>rainbow trout</i> per day, 8-inch minimum length. - Nonadipose fin-clipped <i>rainbow</i> and <i>cutthroat trout</i> must be released unharmed. <i>Rainbow trout</i> over 16 inches are considered <i>steelhead</i> and must be recorded on Combined Angling Tag or Hatchery Harvest Tag. - Open for <i>adipose fin-clipped coho salmon</i> Aug. 1-Dec. 31. - Open for <i>chinook salmon</i>: - Mouth upstream to Whiskey Creek - Jan. 1-May 31 per zone regulations except that for nonadipose fin-clipped <i>chinook salmon</i>, no more than 1 per day, 3 per year may be retained as part of the <i>salmon/steelhead</i> catch limit. - June 1-Dec. 31 per zone regulations. - Whiskey Creek upstream to Hog Creek boat landing - Jan. 1-July 14 per zone regulations except that for nonadipose fin-clipped <i>chinook salmon</i>, no more than 1 per day, 3 per year may be retained as part of the <i>salmon/steelhead</i> catch limit. - July 15-Dec. 31 per zone regulations. - Hog Creek boat landing upstream to ODFW markers located downstream from Gold Ray Dam. - Jan. 1-July 14 per zone regulations except that for nonadipose fin-clipped <i>chinook salmon</i>, no more than 1 per day, 3 per year may be retained as part of the <i>salmon/steelhead</i> catch limit. - July 15-Sept. 30 per zone regulations. Closed for <i>chinook salmon</i> Oct. 1-Dec. 31. - Gold Ray Dam upstream to ODFW markers located downstream from Cole Rivers Hatchery diversion dam. - Jan. 1-July 31 per zone regulations except that for nonadipose fin-clipped <i>chinook salmon</i>, no more than 1 per day, 3 per year may be retained as part of the <i>salmon/steelhead</i> catch limit. - Nov. 1-Dec. 31 per zone regulations. Closed for <i>chinook salmon</i> Aug. 1-Oct. 31. - Open for adipose fin-clipped <i>steelhead</i> entire year: - Jan. 1-April 30 upstream to Whiskey Creek nonadipose fin-clipped <i>steelhead</i> at least 24 inches in length may be kept; 1 per day, 5 per year, as part of daily or annual <i>salmon/steelhead</i> catch limit. - Feb. 1-April 30 from Whiskey Creek to deadline downstream from Cole Rivers Hatchery diversion dam, nonadipose fin-clipped <i>steelhead</i> at least 24 inches in length may be kept; 1 per day, 5 per year, as part of daily or annual <i>salmon/steelhead</i> catch limit. - Use of bait allowed in mainstem Rogue River and tidewater, except: - Foster Creek upstream to Whiskey Creek, restricted to artificial flies and lures, Sept. 1-Oct. 31. - Gold Ray Reservoir (not including the reservoir) upstream to markers located downstream from Cole Rivers Hatchery diversion dam, restricted to artificial flies (see definition page 11), any type of rod and reel permitted but no metal core lines and no added weights or attachments except a bubble or similar floating device may be used Sept. 1-Oct. 31. - Gold Ray Reservoir (not including the reservoir) upstream to boat ramp at Rogue Elk County Park, restricted to artificial flies and lures, Nov. 1-Dec. 31. - No angling from a floating device from deadline markers located downstream of Cole Rivers Hatchery diversion dam to markers located 1,200 feet downstream. Closed: - Rainie Falls downstream 400 ft. - Gold Ray Dam downstream to markers located downstream from lowest fishway entrance. - Savage Rapids Dam downstream to markers located downstream from lowest fishway entrance. - Cole Rivers Hatchery diversion dam downstream to ODFW markers located downstream from fish ladder entrance at hatchery. - Cole Rivers Hatchery outflow channel to confluence with main river channel. - Ideal Cement Co. Powerhouse diversion dam (including diversion canal) downstream to Gold Hill boat landing. - ODFW markers located downstream from fish ladder entrance at Cole Rivers Hatchery to Hwy 62 bridge at McGregor Park closed to all angling from 7 pm to one hour before sunrise from April 1-July 31.
2 Tributaries (not listed) downstream from the deadline markers located downstream from Cole Rivers Hatchery	Closed, except as noted under Special Regulations for Applegate River, Illinois River, Ashland Creek, Emigrant Creek, and Big Butte and Little Butte creeks.
3. Hatchery diversion dam upstream to Lost Creek Dam	- Open entire year, catch and release only. - Restricted to fly angling only with barbless hooks (see fly angling definition, p. 11)

(Rogue River continued on next page)

SOUTHWEST ZONE

Water	Special Regulations
Rogue River (continued) 4. Mainstem and tributaries above Lost Creek Dam	• Open April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. • No limit on the size or number of <i>brook trout</i> taken in addition to catch limits for other <i>trout</i> species. • Use of bait allowed. • <i>Steelhead</i> not present. <i>Rainbow trout</i> are always considered <i>trout</i> regardless of size.
Selmac Lake (Josephine Co.)	• One <i>bass</i> per day.
Schuttpelz Lake (Coos Co.)	• Catch and release for <i>trout</i>. • Restricted to artificial flies and lures.
Sixes River (Curry Co.) Mainstem upstream to South Fork, including tidewater	• Open for <i>trout</i> May 22 – Oct. 31, 2 per day, 8-inch minimum and open for adipose fin-clipped <i>rainbow trout</i> (half pounders), 2 per day, 8-inch minimum length, Jan. 1-March 31 and Nov. 1-Dec. 31. • Open for <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. • Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit. • Open for <i>chinook salmon</i> May 22-Dec. 31.
Smith River	• See Umpqua River Basin.
Tenmile Creek including tidewater (Coos Co.)	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31.
Tenmile Lakes upstream from Hilltop Bridge (Coos Co.)	• Open for adipose fin-clipped <i>steelhead</i> entire year. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i>. • No limits on size or number of <i>hybrid bass</i> taken.
Thomas Creek and tributaries (Curry Co.)	• Closed.
Tioga Creek up to concrete bridge located 1/2 mile downstream from Burnt Creek (Coos Co.)	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31.
Umpqua River Basin (Douglas Co.): includes Umpqua River, Smith River, North Umpqua River, South Umpqua River and their tributaries	• 10 <i>smallmouth bass</i> per day of any size, 2 daily limits in possession.
1. Umpqua River mainstem, including tidewater, from the tips of the jetties upstream to confluence with North and South Forks (includes Winchester Bay)	• Catch and release for <i>trout</i>, except anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Dec. 31. • Open for <i>chinook salmon</i> entire year. • Use of bait allowed. • 2 fish per 24 consecutive hours limit, 30-inch minimum size for <i>striped bass</i>.
2. Tributaries to mainstem Umpqua River, including tidewater portions, from mouth upstream to conflu- ence with North and South Forks	• Open for <i>trout</i> May 22-Sept. 15. • Angling restricted to artificial flies and lures only for all tributaries, except tidewater areas where bait is allowed. • Open for <i>striped bass</i> entire year in tidewater areas. • Mill Creek below Loon Lake, not including Camp Creek, closed to angling entire year. • 2 fish per 24 consecutive hours limit, 30-inch minimum size for <i>striped bass</i>.
3. Smith River mainstem from mouth upstream to Spencer Creek and North Fork from mouth upstream to Johnson Creek, including tidewater	• Open for <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. • Open May 22-Sept. 15, catch and release for <i>trout</i>, except anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. • Open for <i>striped bass</i> entire year. • Use of bait allowed in tidewater areas. • 2 fish per 24 consecutive hours limit, 30-inch minimum size for <i>striped bass</i>.
4. Smith River mainstem from Spencer Creek upstream to Sisters Creek and North Fork from Johnson Creek upstream to Bridge 10	• Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Nov. 16-Dec. 31. • Open May 22-Sept. 15, catch and release for <i>trout</i>, except anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. • Restricted to artificial flies and lures only May 22- Sept. 15.
5. Smith River tributaries, including tidewater portions, Smith River mainstem upstream from Sisters Creek, and North Fork and tributaries upstream from Bridge 10	• Open for <i>trout</i> May 22-Sept. 15. • Angling restricted to artificial flies and lures only, except tidewater areas where use of bait is allowed. • Open for <i>striped bass</i> entire year in tidewater areas. • 2 fish per 24 consecutive hours limit, 30-inch minimum size for <i>striped bass</i>.

(Umpqua River continued on next page)

Southwest Zone

Water	Special Regulations
6. North Umpqua River from mouth upstream to fly area boundary above Rock Creek	- Catch and release for <i>trout</i> except anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession, when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. - Open for adipose fin-clipped <i>steelhead</i> entire year. - Nonadipose fin-clipped <i>steelhead</i> may be kept Jan. 1-Apr. 30; 1 per day, 5-per year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Dec. 31. - Open for <i>chinook salmon</i> Jan. 1-July 31. Closed between old Hwy 99 bridge and Winchester Dam. - Use of bait allowed. - No angling from a floating device upstream from BLM recreation site located upstream from the Lone Rock Bridge (Hwy 138). Closed from markers located upstream from Rock Creek, upstream 700 feet to the fly area boundary.
7. North Umpqua River from fly area boundary above Rock Creek, upstream to Soda Springs Dam (31 miles)	- Catch and release for <i>trout</i> except anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession, when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. - Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Dec. 31. - The following restrictions apply year round: - Restricted to use of single barbless unweighted artificial fly. For the purposes of this rule, an unweighted artificial fly is defined as: "a conventional hook that is dressed with natural or artificial materials, and to which no molded weight (such as split shot, jig heads or dumbbell eyes), metal wire, metal beads, bead chain eyes, or plastic body are affixed, and to which no added weight, spinning or attractor device, or natural bait is attached." - Any type rod or reel permitted, but no metal core lines and no added weights or attachments to line, leader or fly (including, but not limited to, strike indicators) except nonfly monofilament lines may have a casting bubble or similar floating device. Closed from Soda Springs Dam downstream about 1/2 mile to marker located downstream from power plant enclosure. - No angling from a floating device.
8. North Umpqua River tributaries from mouth upstream to Soda Springs Dam	- Open for <i>trout</i> in tributaries below fly area boundary, except Rock Creek May 22-Sept. 15. - Restricted to artificial flies and lures only. - Rock Creek and all tributaries above fly area boundary are closed to angling.
9. North Umpqua River mainstem and tributaries upstream from Soda Springs Reservoir	- Open for <i>trout</i> April 24-Oct. 31. - No limit on size or number of <i>brook trout</i> taken in addition to catch limits for other <i>trout</i> species. - Use of bait allowed.
10. South Umpqua River from mouth upstream to Jackson Creek Bridge	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Nov. 16-Dec. 31. - Open for <i>trout</i> May 22-Sept. 15. - Anglers may harvest 2 adipose fin-clipped <i>rainbow trout</i> (16"-20") per day, 2 daily limits in possession, when open to angling for <i>steelhead</i>. Anglers must possess a Combined Angling Tag but need not record <i>trout</i>. Closed to all angling Sept. 16 - Nov. 15. - Use of bait allowed.
11. South Umpqua River and tributaries upstream from Jackson Creek Bridge	Closed.
12. South Umpqua River tributaries below Jackson Creek Bridge	- Open for <i>trout</i> May 22-Sept. 15. - Jackson Creek closed to all angling. - Restricted to artificial flies and lures only.
13. Cow Creek mainstem (South Umpqua) from mouth upstream to Middle Creek Bridge	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Nov. 16-Dec. 31. - Open for <i>trout</i> May 22-Sept. 15. - Restricted to artificial flies and lures only, May 22-Sept. 15. - Other than during <i>trout</i> season, use of bait is permitted.
14. Tributaries to Cow Creek and mainstem Cow Creek upstream from Middle Creek Bridge	- Open for <i>trout</i> May 22-Sept. 15. - Restricted to files and lures only.
Winchuck River Mainstem up to Wheeler Creek, including tidewater (Curry Co.):	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and May 22-Dec. 31. - Nonadipose fin-clipped <i>steelhead</i> may be taken; 1 per day, 5 per year as part of daily or annual <i>salmon/steelhead</i> catch limit. - Open for <i>chinook salmon</i> May 22-Dec. 31. - No angling from a floating device.

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

OREGON ZONES

Willamette Zone

Description:

The Willamette Zone is all waters draining to the Columbia River between the city of St. Helens and Bonneville Dam, except for those portions of tributaries east of the Sandy River that are downstream from the Union Pacific Railroad line (see Columbia Zone page 82, for more details). Includes all waters on Sauvie Island except the Columbia River.

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for this zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; hook and weight regulations; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	Lakes: 5 per day, 2 daily limits in possession. Streams: catch and release.	• Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed. • 8-inch minimum length. • Only 1 <i>trout</i> over 20 inches may be kept per day. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> in streams. • <i>Salmon</i> under 15 inches are considered <i>trout</i> except <i>coho salmon</i>, which are always considered <i>salmon</i> regardless of size. • Closed to angling for <i>bull trout</i>. • <i>Kokanee</i> are included in <i>trout</i> limits except as noted under Special Regulations.	Lakes: Open entire year. Streams: Open May 22-Oct. 31. See Special Regulations for this zone and Willamette Zone map on pages 42-43 for streams that are open April 24-Oct. 31.
Salmon and Steelhead	In the aggregate, 2 adult <i>salmon</i> or <i>steelhead</i> per day, 5 jack <i>salmon</i> per day, 2 daily jack <i>salmon</i> limits in possession.	• Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed. • NOTE: Changes to <i>salmon</i> regulations for the Columbia River system including changes to the Willamette River system are printed in May and are available at ODFW offices or from license agents. Check for new regulations before you fish. • Harvest of nonadipose fin-clipped <i>salmon</i> or <i>steelhead</i> is prohibited in the Willamette Zone. There is no annual limit on adipose fin-clipped <i>salmon</i> or <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch.	Closed in all waters unless noted by species under Special Regulations .

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

WILLAMETTE ZONE

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession.	- No more than 3 over 15 inches in length. - Willamette River mainstem above Hwy 20 Bridge at Albany, the Santiam and Calapooia basins: no limit on size or number taken. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: Open during <i>trout</i> , <i>salmon</i> or <i>steelhead</i> seasons, except mainstem Willamette River and sloughs and tidewater areas of Columbia River tributaries downstream from Bonneville Dam are open all year.
Bluegill, Catfish, Crappie, Other Sunfish, and Yellow Perch	No limit.	- No length limit. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Walleye	No limit.	- No length limit. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Other Fish: Sturgeon	1 per day, 5 per year.	- Minimum length 42 inches, maximum length 60 inches. - All oversize, undersize, and unwanted legal size <i>sturgeon</i> must be released immediately unharmed into the water. - Oversize <i>sturgeon</i> cannot be removed totally or in part from the water. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Pacific Lamprey		Refer to General (Statewide) Regulations on page 13 for regulations covering the harvest of <i>Pacific lamprey</i>.	
Striped Bass	2 per 24 consecutive hours; 2 daily limits in possession.	30-inch minimum length. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Open all year. Open all year.
Sucker, Northern Pike-minnow, Carp, Chub, Sculpin, other Nongame Fish and Whitefish and Shad	No limit.	- No length limit. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Smelt	First 25 pounds per day.	- An angling license is not required. - Separate container for each dipper. 25 pounds per dipper while in dipping area.	
Freshwater Clams	No limit.	A shellfish license is not required.	
Crayfish	100 per day, 2 daily limits in possession.	- A shellfish license is not required. - All streams are open to <i>crayfish</i> harvest including streams listed as closed under Special Regulations.	
Bullfrogs	No limit.	An angling license is not required.	

Special Regulations for this zone:

Water	Special Regulations
Airport Pond (Lane Co.)	Closed.
Alton Baker Park Canoe Canal (Eugene)	- Open for <i>trout</i> entire year. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Balch Creek and tributaries (Multnomah Co.)	Closed.
Blue River (McKenzie Basin, Lane Co.): 1. Mainstem and tributaries downstream from Blue River Dam	- Open for adipose fin-clipped <i>steelhead</i> and adipose fin-clipped <i>trout</i> April 24-Oct. 31. 5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
2. Mainstem and tributaries upstream from Blue River Reservoir	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Breitenbush River (Marion Co.)	See Santiam River, item 4 on page 49.
Bull of the Woods Wilderness Area Lakes (Mt. Hood N'tl Forest, Clackamas Co.)	NOTE: Applies to Beth Lake, Big Slide Lake, Lenore Lake, Pansy Lake, Lower Twin Lake and Upper Twin Lake. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Bull Run River up to watershed boundary (Clackamas Co.)	- Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31. Closed between markers 100 feet upstream from and 100 feet downstream from PGE powerhouse. - Use of bait allowed.
Canyon Creek (South Santiam, Linn Co.)	Closed.
Cedar Creek (Sandy Basin, Clackamas Co.)	Closed upstream to hatchery dam.
Clackamas River (Clackamas Co.): 1. From mouth upstream to North Fork Dam	- Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31. - No angling from a floating device between River Mill Dam and hatchery intake structure. - No angling between markers 400 feet upstream and 100 feet downstream from Faraday Powerhouse June 16-Oct. 31 - Use of bait allowed.

(Clackamas River continued on next page)

WILLAMETTE ZONE

Water	Special Regulations
2. River Mill Reservoir up to Hwy 211 bridge (Estacada Lake)	- Open to angling May 22-Oct. 31. - Open for adipose fin-clipped <i>chinook salmon</i>, adipose fin-clipped <i>steelhead</i> and adipose fin-clipped <i>trout</i> May 22-Oct. 31. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31.
3. Mainstem and tributaries not listed upstream from North Fork Dam	- For the length of the Three Lynx Powerhouse (111 feet), no angling from a floating device or from the west shore. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
4. North Fork Reservoir upstream to milepost 32 on Hwy 224	- Open May 22-Oct. 31. - Only adipose fin-clipped <i>trout</i> may be taken.
5. Oak Grove Fork and tributaries between USFS Bridge located on Road 57 and Timothy Lake Dam	2 <i>trout</i> per day, 8-inch minimum length. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Clear Lake (upper McKenzie R., Linn Co.)	No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i> .
Columbia Slough (Multnomah Co.)	See Health Advisory on page 15.
Cottage Grove Reservoir (Lane Co.)	- Only <i>bass</i> less than 15 inches in length may be taken. - See Health Advisory on page 15.
Detroit Reservoir	<i>Trout</i> greater than 24 inches must be released unharmed Aug. 16-Oct. 31.
Dog Creek (McIver Park, Clackamas Co.)	Closed.
Dorena Reservoir (Lane Co.)	- Only <i>bass</i> less than 15 inches in length may be taken. - See Health Advisory on page 15.
E.E. Wilson Pond (Benton Co.)	- Open Feb. 1-Sep. 30. - Angling allowed only by free self-service permit available at E.E. Wilson Pond check station.
Eagle Creek (Clackamas Co.) up to markers 200 feet below hatchery ladder outlet (Clackamas Basin near Estacada)	- Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Nov. 30. Closed from 200 feet upstream to 300 feet downstream from fish ladder located 1/2 mile below Eagle Fern Park. - Use of bait allowed.
Erma Bell Lakes (Lane Co.) and tributaries	- Open May 22-Oct. 31. 2 <i>rainbow trout</i> per day, 8-inch minimum length. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Fall Creek (Middle Fork Willamette, Lane Co.) 1. Mainstem downstream from Fall Creek Dam	- Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. - Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. - Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
2. Mainstem and tributaries upstream from Fall Creek Reservoir	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Faraday Lake (Clackamas R., Clackamas Co.)	- All <i>salmon</i> are considered <i>trout</i>. - Only adipose fin-clipped <i>trout</i> may be taken.
Fish Creek (Clackamas R., Clackamas Co.)	Closed.
Fish Lake (Linn Co.)	Open Jan. 1-May 31.
Foster Reservoir (South Santiam, Linn Co.)	No limits on size or number of <i>bass</i> .
Frazier Creek (Benton Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Gold Lake (Lane Co.)	- Open to angling May 22-Oct. 31. - Catch and release only for <i>rainbow trout</i>. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. - Restricted to fly angling only with barbless hooks (see fly angling definition, p. 11). Closed to angling from Gold Lake boat ramp down Salt Creek 100 yards to markers Jan. 1-June 30 and Nov. 1-Dec. 31.
Green Peter Reservoir (Linn Co.)	25 <i>kokanee</i> per day (no size limits) may be taken in addition to other <i>trout</i> species catch limits.
Haldeman Pond (Sauvie Island, Columbia Co.)	Closed Jan. 1-April 15 and Oct. 1-Dec. 31.
Henry Hagg Lake (Washington Co.)	Closed Jan. 1-Feb. 27 and Nov. 22-Dec. 31. - One <i>bass</i> per day.
Hills Creek Reservoir (Lane Co.)	5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length.
Hills Creek and tributaries upstream from Hills Creek Reservoir (Lane Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Leaburg Canal and tributaries (Lane Co.) (Leaburg Dam to Leaburg Powerhouse)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Leaburg Lake (Lane Co.)	See McKenzie River section 2.

WILLAMETTE ZONE

Water	Special Regulations
Little Fall Creek (Lane Co.)	• Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year in the mainstem from mouth upstream to concrete fish ladder (12 miles). • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
Long Tom River (Benton/Lane Co.):	• Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
1. Mainstem upstream to Fern Ridge Reservoir	
2. All tributaries above and below Fern Ridge Reservoir, and mainstem above Fern Ridge Reservoir	• Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Angling restricted to artificial flies and lures Jan. 1 - Apr. 23 and Nov. 1 - Dec. 31. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed April 24 - Oct. 31.
Lookout Creek and tributaries (Lane Co.)	• Closed, U.S. Forest Service Research Area.
Lost Creek and tributaries (Middle Fork Willamette, Lane Co.)	• Open for <i>trout</i> April 24-Oct. 31. • 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
Lost Lake (Santiam Pass, Linn Co.)	• Catch and release for <i>trout</i>. • Restricted to artificial flies and lures.
Marion Lake (Linn Co.)	• Outlet closed between markers and bridge.
Marys River and tributaries (Benton Co.)	• Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Angling restricted to artificial flies and lures Jan. 1 - Apr. 23 and Nov. 1-Dec. 31. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed April 24-Oct. 31.
McKenzie River (Lane/Linn Co.):	• Open for <i>trout</i> and adipose fin-clipped <i>steelhead</i> entire year. • Open for adipose fin-clipped <i>chinook salmon</i> Jan. 1-Aug. 15.
1. Mouth upstream to Hayden Bridge	
2. Hayden Bridge upstream to Forest Glen boat ramp near Blue River, including Walterville Canal	• Open for adipose fin-clipped <i>steelhead</i> entire year. • Open Jan. 1-April 23, catch and release for <i>trout</i>. • Open April 24-Dec. 31, 5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length. • Angling restricted to artificial flies and lures Jan. 1-Apr. 23. • Use of bait allowed April 24 - Dec. 31. • Open for adipose fin-clipped <i>chinook salmon</i> Jan 1-Aug. 15 from Hayden Bridge to the ODFW markers, approximately 200 feet below the fishways at Leaburg Dam. • Closed within: a. the Leaburg powerhouse tailrace, b. Walterville canal downstream from the <i>salmon</i> weir, and c. the bypass canal from Walterville <i>salmon</i> weir upstream to McKenzie River.
3. Tributaries not listed upstream to Clear Lake	• Open for <i>trout</i> April 24-Oct. 31.
4. Forest Glen boat ramp near Blue River upstream to Trail Bridge Dam	• Open for adipose fin-clipped <i>steelhead</i> April 24-Oct. 31. • Open for <i>trout</i> April 24-Oct. 31.
5. South Fork McKenzie	• Open for adipose fin-clipped <i>steelhead</i> April 24-Oct. 31. • Open for <i>trout</i> April 24-Oct. 31.
6. Carmen Reservoir to Clear Lake	• Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed. • No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Mill Creek (Mohawk River System, Lane Co.)	• Open for <i>trout</i> April 24-Oct. 31. • 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
Mohawk River (Lane Co.)	• Open for <i>trout</i> April 24-Oct. 31. • 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
Molalla River upstream to Horse Creek Bridge (Clackamas Co.)	• Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. • Use of bait allowed.
Mosby Creek (Lane Co.)	• See Row River page 49.
Moose Creek upstream to Moose Lake (South Santiam Basin, Linn Co.)	• Closed.
Muddy Creek and tributaries (Linn Co.)	• Open for <i>trout</i> April 24-Oct. 31. • Use of bait allowed. • 5 <i>trout</i> per day, 8-inch minimum length.
North Fork Reservoir (Clackamas Co.)	• See Clackamas River page 47.
Quartzville Creek (Linn Co.)	• See Santiam River, item 6 on page 49.
Rainbow Lake (Charles Metzger Co. Park, Yamhill River)	• 5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length.
Round Lake (Collawash River, Marion Co.)	• 2 <i>trout</i> per day, 8-inch minimum length. • Restricted to artificial flies and lures.

Willamette Zone

Water	Special Regulations
Row River and tributaries, including Sharps Creek, Brice Creek, Layng Creek, Mosby Creek, Rat Creek and Teeter Creek (Lane Co.)	- Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. - Restricted to artificial flies and lures only Jan. 1-April 23 and Nov. 1-Dec. 31. - Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed April 24-Oct. 31. - Open the entire year for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> in the mainstem from the mouth upstream to Dorena Dam (tributaries are closed to angling for <i>salmon</i> and <i>steelhead</i>).
St. Louis Ponds (Marion Co.)	- One <i>bass</i> per day. - Closed from 1 hour after sunset until 1 hour before sunrise.
Salmon Creek and tributaries (Lane Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Salt Creek and tributaries (Lane Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. - Closed to angling from Gold Lake boat ramp down Salt Creek 100 yards to markers Jan. 1-June 30 and Nov. 1-Dec. 31.
Sandy River (Multnomah/Clackamas Co.): 1. Mainstem upstream to Marmot Dam	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>chinook salmon</i> Feb. 1-Oct. 31. - Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31. - Closed to angling from yellow painted rock or cable upstream approximately 200 feet to Marmot Dam. - Closed within 200 feet of <i>chinook salmon</i> spawning areas located in Oxbow Park where posted by ODFW markers Sept. 16-Nov. 15. - No angling from a floating device upstream from powerline crossing located 1 mile downstream from Oxbow Park. - Use of bait allowed.
2. Mainstem and tributaries upstream from Marmot Dam	No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>.
Santiam River (Marion Co.): 1. Mainstem	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>chinook salmon</i> Jan. 1-Aug. 15 and Nov. 1-Dec. 31. - Use of bait allowed.
2. Little North Fork	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Use of bait allowed.
3. North Fork up to Big Cliff Dam	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>chinook salmon</i> Jan. 1-Aug. 15 and Nov. 1-Dec. 31. - Closed: a. from the railroad bridge upstream to the falls located upstream from the highway bridge in Mill City, b. from the markers at Packsaddle Park upstream to 400 feet upstream from the dam and fish trap which is located near Niagara, and c. within Stayton Power Canal. - Use of bait allowed.
4. North Fork and tributaries upstream of Big Cliff Reservoir, including Breitenbush River	- Open April 24-Oct. 31; 5 <i>trout</i> per day, 8-inch minimum length. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. - Big Cliff Reservoir is the area between Big Cliff Dam and Detroit Dam. - Use of bait allowed.
5. South Fork up to Foster Dam	- Open for adipose fin-clipped <i>steelhead</i> entire year. - Open for adipose fin-clipped <i>chinook salmon</i> Jan. 1-Aug. 15 and Nov. 1-Dec. 31. - Closed from Foster Dam downstream about 1/4 mile to ODFW markers. - Use of bait allowed.
6. Middle Fork and tributaries upstream of Green Peter Reservoir, including Quartzville Creek	- Open April 24-Oct. 31; 5 <i>trout</i> per day, 8-inch minimum length. - No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. - Use of bait allowed.
Sauvie Island Wildlife Area (Columbia/Multnomah Co.)	- Closed from 10:00 p.m. until 4:00 a.m. daily. - Closed all areas Jan. 1-April 15 and Oct. 1-Dec. 31, except Columbia River beaches, the Gilbert River boat ramp, and the Disabled Person fishing pier that are open all year.
Shotgun Creek (Mohawk River System, Linn Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Smith and Bybee Lakes and Canals (Multnomah Co.)	No more than 1 <i>bass</i> over 15 inches in length.
Smith River and tributaries above Smith Reservoir (Linn Co.)	- Open for <i>trout</i> April 24-Oct. 31. 5 <i>trout</i> per day, 8-inch minimum length. - Use of bait allowed.
Spring Creek Pond (Eugene)	Closed.

WILLAMETTE ZONE

Water	Special Regulations
Tanner Creek (Columbia River) upstream from the mainline railroad bridge	• Open for adipose fin-clipped <i>steelhead</i> Jan.1-March 31 and Dec.1-31.
Three Sisters Wilderness, all streams and lakes in the Willamette National Forest portion. (Lane Co.)	• Open for trout in streams April 24-Oct. 31. • No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. • Use of bait allowed.
Timothy Lake (Clackamas Co.)	• 25 <i>kokanee</i> per day (no size limits) may be taken in addition to other <i>trout</i> species catch limits.
Trail Bridge Reservoir (Linn Co.)	• Only adipose fin-clipped <i>rainbow trout</i> may be taken. • Angling restricted to artificial flies and lures.
Tualatin River up to Hwy 210 bridge at Scholls (Clackamas/Washington Co.)	• Use of bait allowed May 22-Oct. 31.
Willamette River:	• See Health Advisory on page 15. • Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31. • Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. • Below Willamette Falls - 10 <i>walleye</i> per day. No more than 5 per day over 18 inches and only one may be over 24 inches, 2 daily limits in possession. • Use of bait allowed. • Closed from 200 feet upstream from the fishway at Oregon City Falls to an imaginary line downstream from fishway described as follows: a. Beginning 54 feet below the southwesterly corner of the electric plant on Black Point; then b. To the northeasterly corner of Mill A grinder room on the west side of the river; then c. Straight downstream 20 feet below the grinder room arches; then d. West to the bank of the river. e. No angling from a boat while any part of the boat is inside this closed area. • Closed in the tailrace of the West Linn Paper Company and described as follows: a. Beginning at the mouth of the tailrace on the south bank; then b. Extending across the tailrace following the line established by the bridge across the tailrace to the north bank; then c. In a westerly, southerly and easterly direction around the bank of the tailrace to the place of beginning. d. No angling from a boat while any part of the boat is inside this closed area. • Refer to General (Statewide) Regulations on page 13 for regulations covering the harvest of Pacific lamprey.
1. Mouth upstream to Hwy 20 bridge located at Albany (including Multnomah Channel/Willamette Slough)	• See Health Advisory on page 15. • Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year in the mainstem. Tributaries are closed to angling for salmon and steelhead. • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Jan. 1-Apr. 23 and Nov. 1-Dec. 31 bait allowed on single point hooks 3/4" or larger when angling for <i>sturgeon</i> in the mainstem Willamette River. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed April 24-Oct. 31.
2. Hwy 20 bridge located at Albany upstream to Hwy 99 bridge located at Harrisburg and tributaries except see listings for the Calapooia, Marys and Long Tom systems	• See Health Advisory on page 15. • Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Jan. 1-Apr. 23 and Nov. 1-Dec. 31 bait allowed on single point hooks 3/4" or larger when angling for <i>sturgeon</i> in the mainstem Willamette River. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed April 24-Oct. 31.
3. Hwy 99 bridge located at Harrisburg upstream to McKenzie River mouth and tributaries	• See Health Advisory on page 15. • Open for <i>trout</i>, adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year.
4. Mouth of McKenzie River upstream to Coast Fork and tributaries except see listing for Alton Baker Canoe Canal	• See Health Advisory on page 15. • Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
5. Coast Fork and tributaries	• See Health Advisory on page 15. • Open entire year for adipose fin-clipped chinook salmon and adipose fin-clipped steelhead in the mainstem from the mouth upstream to Cottage Grove Dam. Tributaries are closed to angling for salmon and steelhead, except Row River up to Dorena Dam. • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Restricted to artificial flies and lures Jan. 1-Apr. 23 and Nov. 1-Dec. 31 • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed April 24-Oct. 31.
6. Middle Fork upstream to Dexter Dam	• Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> entire year. • Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Open April 24-Oct. 31, 5 <i>trout</i> per day, 8-inch minimum length. • From Dexter Dam downstream 400 feet to markers: a. only 1 single-point hook 5/8-inch gap or smaller may be used and b. no angling from the north shore, from a floating device, or while wading. • Use of bait allowed.
7. Middle Fork from Lookout Point Reservoir to Hills Creek Dam	• Open for <i>trout</i> entire year.
8. North Fork of Middle Fork and tributaries	• Open Jan. 1-April 23 and Nov. 1-Dec. 31, catch and release for <i>trout</i>. • Open April 24-Oct. 31, 2 <i>trout</i> per day. • Restricted to fly angling only with barbless hooks (see fly angling definition, p. 11). • No limits on the size or number of <i>brook trout</i> taken. Catch limits for other <i>trout</i> species do not apply to <i>brook trout</i>.

(continued on next page)

WILLAMETTE ZONE

Water	Special Regulations
9. Middle Fork upstream from Hills Creek Reservoir	• Open for <i>trout</i> April 24-Oct. 31. • 5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length.
10. Tributaries of the Middle fork upstream from Hills Creek Reservoir	• Open for <i>trout</i> April 24-Oct. 31.
Winberry Creek and tributaries (Lane Co.)	• 5 <i>trout</i> per day, 8-inch minimum length. • Use of bait allowed.
Woodburn Pond (Marion Co.)	• Closed from 1 hour after sunset until 1 hour before sunrise.
Yamhill River up to North and South Forks (Yamhill Co.)	• Use of bait allowed May 22-Oct. 31.
 All <i>trout</i> , <i>salmon</i> and <i>steelhead</i> that are released must be unharmed and should not be removed from the water.	

NEW FOR 2004 "KEEP OREGON'S RIVERS CLEAN"

Keep Oregon's Rivers Clean

is a pilot program for the collection, recycling and proper disposal of fishing tackle (monofilament line, fluorocarbon leaders, lines, lead weights and lures).

Look for signs and collection points located at or near established fishing areas and boat ramps on six of Oregon's rivers, as we develop this program cooperatively with the Oregon Parks and Recreation Department for 2004.

For more information on this program, call 503-947-6001.

PLEASE DON'T LITTER

**It spoils the scenery,
hurts wildlife, and
results in the posting
of private land.**

Oregon Wildlife

HERITAGE FOUNDATION

A Non-Profit Organization to Initiate, Organize and Support Projects
through Public and Private Partnerships that Benefit Oregon's
Fish and Wildlife.

TO THE MANY CONTRIBUTORS WHO HAVE HELPED
TO SUPPORT THE OREGON WILDLIFE HERITAGE FOUNDATION WE

Thank you.

BY SUPPORTING THE FOUNDATION YOU HAVE HELPED US TO
SUPPORT OREGON'S FISH AND WILDLIFE.

Recent projects include:

Angler Access
Broodstock Development
Hatchery Improvements
Riparian Fencing
Big Horn Sheep
Wildlife Viewing
Wildlife Preservation

Handicap Fishing Access
Fish Ladders
Salmon Habitat Restoration
Wetland Restoration
Mountain Goats
Wildlife Interpretive Centers
Youth Fishing Opportunities

Please contact us for a complete project brochure or visit our website
www.owhf.org
for a list of the most current projects.

Our fund-raising activities for 2004 will be the Willamette Salmon Quest fishing event being held April 3rd and
our 6th annual Salmon Quest Golf Classic event on September 9th.

-  CLOSED ALL YEAR
-  RAILROAD

OREGON ZONES

TRIBAL PERMIT REQUIRED FOR ANGLING ON WEST BANK OF DESCHUTES RIVER FROM JEFFERSON COUNTY LINE UPSTREAM TO DRY CREEK. REMAINDER OF RESERVATION CLOSED TO NON-TRIBAL MEMBERS.

CENTRAL ZONE

Description:

The Central Zone is all waters draining into the Columbia River from Bonneville Dam up to and including the Deschutes River.

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific reference to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for this zone**.
3. Always read the **General Regulations** pages, 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

Angling for all species is restricted to artificial flies and lures in streams. See exceptions under **Special Regulations** where use of bait is allowed.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	Lakes: 5 per day Streams: 2 per day, 2 daily limits in possession.	• 8-inch minimum length • Only 1 <i>trout</i> over 20 inches may be taken per day. • No limit on size or number of <i>brook trout</i> from streams. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> in streams except in the Crooked and Deschutes Rivers above Lake Billy Chinook. • <i>Salmon</i> under 15 inches are considered <i>trout</i>, except <i>coho salmon</i>, which are always considered <i>salmon</i> regardless of size. • Closed to angling for <i>bull trout</i> except as noted under Special Regulations for Lake Billy Chinook and upstream to Benham Falls. • <i>Kokanee</i> are included in <i>trout</i> limits except as noted under Special Regulations. • Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: Open May 22-Oct. 31.
Salmon and Steelhead	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year. 5 jacks per day, 2 daily jack limits in possession, with the exception that 1 additional adipose fin-clipped <i>steelhead</i> may be retained per day for a total aggregate of 3 adult fish.	• Closed for <i>coho salmon</i>, except as listed under Eagle Creek, Herman Creek and Hood River. • Only adipose fin-clipped <i>steelhead</i> may be taken. • See Special Regulations in Central Zone under Deschutes or Hood River basins to determine where harvest of any <i>chinook</i> and <i>coho salmon</i> is allowed. Harvest of nonadipose fin-clipped <i>steelhead</i> is not permitted in the Central Zone. There is no annual limit on adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> so long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • Angling is restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed. • NOTE: Changes to <i>salmon</i> regulations for the Columbia River system (page 82) are printed in May and are available at ODFW offices or from license agents. Check for new regulations before you fish.	Closed in all waters unless noted by species under Special Regulations .
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession.	• No more than 3 over 15 inches in length. • Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Lakes: Open all year. Streams: Open during <i>trout</i> , <i>salmon</i> , or <i>steelhead</i> season only, except portions of Columbia River tributaries flooded by Bonneville and The Dalles dams are open all year.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye and Yellow Perch	No limit.	• Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Other Fish: Whitefish, Sucker, Northern Pikeminnow, Carp, Chub, Sculpin and other Nongame Fish	No limit.	• Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Bullfrogs	No limit.	• An angling license is not required.	Open all year.
Crayfish	100 per day, 2 daily limits in possession.	• A <i>shellfish</i> license is not required. • All streams are open to <i>crayfish</i> harvest including streams listed as closed under Special Regulations.	
Freshwater Clams	No limit.	• A <i>shellfish</i> license is not required. • Note: Unlawful to take or possess <i>Zebra mussels</i> and <i>Asian clams</i>.	Open all year.

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

CENTRAL ZONE

Special Regulations for this zone:

Water	Special Regulations
Bakeoven Creek and tributaries (Deschutes Basin, Wasco Co.)	• Closed.
Baker Pond (Wasco Co.)	• Open April 24-Oct. 31.
Billy Chinook, Lake (Round Butte) (Jefferson Co.):	• Open March 1-Oct. 31. Tribal angling permit required, see Special Regulations for Warm Springs Reservation at end of this zone. • 1 <i>bull trout</i> per day and 1 <i>bull trout</i> in possession; 24-inch minimum length. • Closed to all angling from the cable car crossing on the Metolius River to a signed point approximately 350 yards downstream. • <i>Bull trout</i> must be released immediately unharmed unless kept in the daily catch limit. • Unlawful to continue angling for any species once a <i>bull trout</i> has been harvested. • 25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limits. • Closed for <i>crayfish</i> (except tribal fishery) in Metolius Arm (tribal water).
1. Metolius Arm (tribal water) from Round Butte Dam upstream to cable car crossing	
2. Balance of reservoir	• Open entire year. • 1 <i>bull trout</i> per day and 1 <i>bull trout</i> in possession; 24-inch minimum length. • <i>Bull trout</i> must be released immediately unharmed unless kept in the daily catch limit. • Unlawful to continue angling for any species once a <i>bull trout</i> has been harvested. • 25 <i>Kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limits.
Browns Creek (Wickiup Reservoir tributary, Deschutes Co.)	• Closed.
Buck Hollow Creek and tributaries (Deschutes Basin, Wasco Co.)	• Closed.
Candle Creek (Jefferson Co.)	• Closed.
Canyon Creek and tributaries (Jefferson Co.)	• Closed.
Chenoweth Creek and tributaries (Wasco Co.)	• Catch and release for <i>trout</i>.
Crane Prairie Reservoir (Deschutes Co.)	• Open April 24-Oct. 31. • Closed from 1 hour after sunset until 1 hour before sunrise.
Crescent Lake (Klamath Co.)	• <i>Trout</i> daily catch limit may include only 1 <i>lake trout</i>, 30-inch minimum length.
Crooked River mainstem (Jefferson/Crook Co.)	• Open entire year. • Use of bait allowed May 22-Oct. 31. • Closed for 150 feet downstream from Bowman Dam.
Crystal Creek (Odell Lake, Klamath Co.)	• Closed.
Cultus Lake (Deschutes Co.)	• <i>Trout</i> daily catch limit may include only 1 <i>lake trout</i> which must be at least 24-inch minimum length.
Davis Lake and Odell Creek Channel up to boat ramp at West Davis Lake campground (Klamath Co.)	• 2 <i>trout</i> per day, 10-inch minimum length and 13-inch maximum length. • No limit on size or number of warmwater game fish. • Restricted to fly angling only with barbless hooks (see fly angling definition, p. 11). • Closed from 1 hour after sunset until 1 hour before sunrise.
1. Mouth (I-84 bridge) upstream to the northern boundary of the Warm Springs Reservation (including White River upstream to first falls) (Wasco Co.)	NOTE: Chinook salmon angling closed entire river. • Open for <i>trout</i> entire year. • 2 <i>rainbow trout</i> per day, 10-inch minimum and 13-inch maximum length. • Open for adipose fin-clipped <i>steelhead</i> entire year. • Restricted to artificial flies and lures, except that bait may be used from Sherar Falls downstream to upper trestle (about 3 miles). • No angling from a floating device. • Sherars Falls downstream to Buck Hollow Creek (about 1 mile) closed to angling April 1-July 31.
2. Northern boundary of the Warm Springs Reservation upstream to Pelton Regulating Dam (Wasco/Jefferson Co.)	• See Special Regulations for Warm Springs Reservation at end of this zone. • Open to <i>trout</i> April 24-Oct. 31, 2 <i>rainbow trout</i> per day, 10-inch minimum and 13-inch maximum length. • Open for adipose fin-clipped <i>steelhead</i> April 24-Dec. 31. • No angling from a floating device. • Restricted to artificial flies and lures. • Closed from Pelton Regulating Dam downstream about 600 feet to ODFW markers.
3a. Lake Billy Chinook upstream to Benham Falls (Jefferson/Deschutes Co.)	• Open for <i>trout</i> entire year. • 2 <i>trout</i> per day, which may include 1 <i>bull trout</i>, 24-inch minimum length. • Restricted to artificial flies and lures.
3b. Mirror Pond (Deschutes River in Bend) from North Canal Dam to Colorado Street Bridge	• Open entire year. • 2 <i>trout</i> per day. • Use of bait allowed.
4. Benham Falls upstream to Wickiup Reservoir (Deschutes Co.)	• Open for <i>trout</i> May 22-Oct. 31. • 5 <i>trout</i> per day, which may include 2 nonfin-clipped <i>rainbow trout</i>. • Use of bait allowed.
5. Wickiup Reservoir upstream to Crane Prairie Dam (Deschutes Co.)	• Open May 22-Aug. 31.
6. Crane Prairie Reservoir upstream to Little Lava Lake (Deschutes Co.)	• Open May 22-Sept. 30. • 2 <i>trout</i> per day (includes <i>brook trout</i>).

CENTRAL ZONE

Water	Special Regulations
Eagle Creek upstream from the mainline railroad bridge (Columbia River near Bonneville Dam, Hood River Co.)	- Catch and release only for <i>trout</i> May 22-Oct. 31. - Open for <i>chinook</i> and <i>coho salmon</i> May 22-Aug. 15. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1 - March 31, May 22 - Aug. 15, and Dec. 1-31. - Use of bait allowed. - See Columbia River Zone (page 87) for regulations concerning the area down stream from the main line railroad bridge.
East Lake (Deschutes Co.)	- Open April 24-Oct. 31. - See Health Advisory on page 15.
Elk Lake(Deschutes Co.)	25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit.
Fall River (Deschutes Co.): 1. Downstream from the falls 2. Upstream from the falls	- Open May 22-Sept. 30. - Restricted to fly angling only with barbless hooks (see fly angling definition, p.11). - Open entire year. - Restricted to fly angling only with barbless hooks (see fly angling definition, p.11).
Fifteenmile Creek and tributaries (Wasco Co.)	- Catch and release for <i>trout</i> May 22-Oct. 31. Closed from head of slackwater located at the mouth to 200 feet upstream from fishway located at Seufert Falls.
Herman Creek upstream from the main line railroad bridge (Hood River Co.)	- Catch and release for <i>trout</i> May 22-Aug. 15. - Open for <i>chinook</i> and <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> Jan 1 - March 31, May 22-Aug 15 and Dec. 1-31. - Use of bait is allowed. Closed downstream from hatchery dam Aug.16-Nov. 30. - See Columbia River Zone (page 87) for the area downstream from main line railroad bridge.
Hood River Basin (Hood River Co.): 1. Mainstem and tributaries not listed	- Open for <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> entire year, mouth to Powerdale Dam (Rivermile 4). - Open for <i>chinook salmon</i>, Aug. 1-Dec. 31, from the mouth upstream to Powerdale Dam. - West Fork Hood River and tributaries closed to angling. - Catch and release only for <i>trout</i>, May 22-Oct. 31. - Restricted to artificial flies and lures when angling for <i>trout</i> in all tributaries and in mainstem Hood River upstream from Powerdale Dam (Rivermile 4). - Use of bait allowed in mainstem Hood River mouth to Powerdale Dam (Rivermile 4). Closed from wall of the PP&L plant located at Powerdale downstream 200 feet.
2. Clear Branch	Closed.
3. Pinnacle Creek	Closed.
Hosmer Lake (Deschutes Co.)	- Catch and release only for <i>Atlantic salmon</i>. - Restricted to fly angling only with barbless hooks (see fly angling definition, p. 11). - No angling from motor-propelled craft while motor is operating.
Jack Creek (Jefferson Co.)	Closed.
Jefferson Creek (Jefferson Co.)	Closed.
Laurence Lake (Hood River Co.)	- Open April 24-Oct. 31. - Only fin-clipped <i>trout</i> may be kept. - Restricted to artificial flies and lures.
Lava Lake, Big (Deschutes Co.)	Open April 24-Oct. 31.
Link Creek (tributary to Suttle Lake, Jefferson Co.)	Closed.
Little Deschutes River including Gilchrist Mill Pond (Klamath/Deschutes Co.)	Use of bait allowed.
Metolius River (Jefferson Co.): 1. Mainstem, including Spring Creek	- Open entire year. - Catch and release for all fish, including <i>bull trout</i>. - All <i>bull trout</i> must be released unharmed. - Restricted to artificial flies and lures downstream from Bridge 99. - Restricted to fly angling only with barbless hooks upstream from Bridge 99 (see fly angling definition, p. 11). Closed in mainstem upstream from Allingham Bridge and also in Spring Creek Jan.1-May 21 and Nov.1-Dec. 31. Closed within 100 feet of Camp Sherman Bridge. - No angling from a floating device.
2. Tributaries, except Lake and Spring creeks	Closed.
Mill Creek and tributaries (Wasco Co.)	Catch and release for <i>trout</i>.

Central Zone

Water	Special Regulations
Ochoco Creek upstream to Ochoco Dam (Crook Co.)	- Open entire year. 5 <i>trout</i> per day. - Use of bait allowed.
Odell Creek from boat ramp located at West Davis Lake campground up to Odell Lake (Klamath Co.)	- Open May 22-Oct. 31. - Catch and release for <i>trout</i>.
Odell Lake (Klamath Co.)	- Open April 24-Oct. 31. 25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit. <i>Trout</i> daily catch limit may include only 1 <i>lake trout</i>, 30-inch minimum length. Closed within 200 feet of the mouth of Trapper Creek. Closed to angling for <i>bull trout</i>. Any incidentally caught <i>bull trout</i> must be immediately released unharmed.
Odell Lake tributaries (Klamath Co.)	Closed.
Paulina Lake (Deschutes Co.)	Open April 24-Oct. 31.
Pelton Regulating Reservoir (Jefferson Co.)	Closed.
Prineville Reservoir (Crook Co.)	<i>Largemouth and smallmouth bass</i>, 12-inch minimum length.
Shevlin Pond (Deschutes Co.)	2 <i>trout</i> per day, 8-inch minimum length. - Restricted to juvenile anglers 17 years old and younger.
Simtustus, Lake (Pelton, Jefferson Co.)	- Open April 24-Oct. 31. <i>Trout</i> daily catch limit may include only one <i>bull trout</i>, 24-inch minimum length. <i>Bull trout</i> must be released immediately unharmed unless kept in the daily catch limit. - Tribal angling permit required, see Special Regulations for Warm Springs Reservation at end of this zone.
Sparks Lake and tributaries upstream to Cascade Lake Hwy (Deschutes Co.)	Restricted to fly angling only with barbless hooks (see fly angling definition, p.11).
Spring River (Deschutes Co.)	Open May 22-Sept. 30.
Squaw Creek and tributaries (Jefferson/Deschutes Co.)	Open entire year.
Suttle Lake (Jefferson Co.)	25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit.
Trapper Creek (Odell Lake tributary, Klamath Co.)	Closed.
Trout Creek and tributaries (Deschutes Basin, Jefferson Co.)	Catch and release for <i>trout</i>.
Tumalo Creek and tributaries (Deschutes Co.)	Open entire year.
Twin Lake, South (Deschutes Co.)	Open April 24-Oct. 31.
White River mainstem and tributaries upstream from first falls (Wasco Co.)	- Open for <i>trout</i> entire year. - See Deschutes River, section 1 for regulations downstream from first falls.
Wickiup Reservoir (Deschutes Co.)	- Open April 24-Oct. 31. Closed upstream of ODFW marker Sept. 1-Oct. 31 located near West South Twin Campground. 25 <i>kokanee</i> (no size limits) in addition to other <i>trout</i> species catch limit. Closed from 1 hour after sunset until 1 hour before sunrise. - No limit on size or number of <i>warmwater game fish</i>.
Willow Creek (Jefferson Co.)	Catch and release for <i>trout</i> and restricted to artificial flies and lures within National Grasslands.
Warm Springs Indian Reservation: telephone number (541) 553-2002	- Tribal permits are required on the Metolius Arm of Lake Billy Chinook, Lake Simtustus and Reservation portions of Deschutes River. - The Reservation borders the Deschutes River for approximately 31 miles from Two Springs Ranch (4 miles downstream from the North Junction railroad bridge) upstream to Pelton Regulating Dam. Anglers are restricted to the eastern half of the river where it borders the Reservation. For exceptions, call the Reservation at (541) 553-2002. - Taking <i>crayfish</i> from Reservation waters is prohibited, except for Tribal use.

Please don't litter.
It spoils the scenery, hurts wildlife,
and results in the posting of private land.

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

Attention Anglers!

Bull trout, one of Oregon's native species, is listed as Threatened under the Endangered Species Act. Harvest of bull trout is severely restricted in Oregon as part of conservation efforts to recover this species and rebuild the fishery. Please refer to regulations for the Willamette, Central, Northeast, and Southeast Zones regarding bull trout.

Research has shown that most anglers, experienced as well as inexperienced, have difficulty distinguishing between bull trout and brook trout, an introduced species in Oregon. This Fish Identification Aid is provided to help you distinguish between native bull trout and introduced brook trout.

Please help recover bull trout and restore the fishery by taking the time to learn the characteristics. Your help is essential!

Native Bull Trout

No dark marks on dorsal fin

No red on paired fins

Brook trout and bull trout both have light spots on a dark grey or olive-green background. In general, bull trout have a clear dorsal fin, although in some fish light marks may be seen on the dorsal fin. Bull trout lack the worm-like markings on their backs and the red on their paired fins that characterize brook trout.

Introduced Brook Trout

Dark marks on dorsal fin

Worm-like markings on back

Red on paired fins

Brook trout may be identified by light colored worm-like markings on their back, dark wavy lines on the dorsal fin, and red on the paired fins.

COLUMBIA AND SNAKE RIVERS NOT INCLUDED IN THIS ZONE.

TRIBAL PERMIT REQUIRED FOR
ANGLING ON THE RESERVATION
PORTION OF THE UMATILLA RIVER.
FOR INFORMATION CALL THE
UMATILLA INDIAN RESERVATION
AT 541-276-4109

NORTHEAST ZONE

Description:

The Northeast Zone is all waters draining into the Columbia River east of the Deschutes River and all waters draining into the Snake River system up to Hells Canyon Dam. This zone does not include any portion of the mainstem Columbia and Snake rivers. Regulations for the Columbia River can be found in the Columbia River Zone (pages 82-90), and regulations for the Snake River can be found in the Snake River Zone (pages 78-81).

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for the zone**.
3. Always read the **General Regulations** pages, 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	5 per day, 2 daily limits in possession.	• 8-inch minimum length. • Only 1 <i>trout</i> over 20 inches may be taken. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> in streams. • Closed to angling for <i>bull trout</i>. See exceptions for catch and release angling under Special Regulations for Imnaha and Wenaha rivers. • No limit on the size or number of <i>brook trout</i> taken from lakes, except in Magone Lake, Morgan Lake and Bull Prairie Reservoir. • <i>Kokanee</i> are included in the <i>trout</i> catch limit unless noted differently under Special Regulations.	Lakes: Open all year. Streams: Open May 22-Oct. 31.
Salmon	• See Umatilla River listed alphabetically under Special Regulations. • There is no annual limit on adipose or otherwise fin-clipped <i>salmon</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch.		Closed in all waters unless noted by species under Special Regulations .
Steelhead	3 per day.	• Only adipose fin-clipped <i>steelhead</i> may be taken. Unmarked <i>steelhead</i> must be released unharmed. • There is no annual limit on adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch.	
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession.	• No more than 3 over 15 inches in length.	Lakes: Open all year. Streams: Open during <i>trout</i> , <i>salmon</i> , or <i>steelhead</i> seasons only, except portions of Columbia River tributaries flooded by John Day and McNary dams are open all year.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye and Yellow Perch	No limit.		
Other Fish: Sturgeon	Catch and release.	• Any <i>sturgeon</i> caught may not be removed from the water and must be released immediately unharmed.	
Sucker, Carp, Northern Pike, Minnow, Chub, Sculpin, other Nongame Fish and Whitefish and Shad	No limit.		
Crayfish	100 per day, 2 daily limits in possession.	• A <i>shellfish</i> license is not required. • All streams are open to <i>crayfish</i> harvest including streams listed as closed under Special Regulations.	Open all year.
Bullfrogs	No limit.	• An angling license is not required.	
Freshwater Clams	No limit.	• A <i>shellfish</i> license is not required. • Note: Unlawful to take or possess Zebra mussels or Asian clams.	Open all year.
Protected Fish: Margined Sculpin (Umatilla and Walla Walla river systems)		• It is unlawful to angle for or possess all or any part of these fish because they are listed on the state's sensitive species list for conservation purposes.	

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

NORTHEAST ZONE

Special Regulations for this zone:

Water	Special Regulations
Aldrich Ponds (Grant Co.)	- Open May 22-Oct. 31. 2 <i>trout</i> per day.
Bear Creek and tributaries (Wallowa Co.)	Restricted to artificial flies and lures.
Bull Prairie Reservoir (Grant Co.)	- No more than 5 <i>brook trout</i> per day as part of the general <i>trout</i> catch limits. - No size limit on <i>brook trout</i>.
Butter Creek and tributaries (Umatilla/Morrow Co.)	Open April 24-Oct. 31.
Catherine Creek up to Hwy 203 Bridge located upstream from Catherine Creek State Park (Union Co.)	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31.
Cold Springs Reservoir (Umatilla Co.)	Portions of refuge are closed to angling and use of motors at times. For information on federal refuge regulations call 509-545-8588.
Deer Creek (Wallowa Co.)	Closed from the mouth upstream to the marker 380 feet upstream from the water intake structure (0.2 mile).
Grande Ronde River (Wallowa/Union Co.):	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31. - Only adipose fin-clipped <i>trout</i> may be kept.
1. Stateline upstream to Rondowa	
2. Rondowa upstream to Meadow Creek	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31.
Hurricane Creek from forest boundary upstream to Slick Rock Creek (Wallowa Co.)	Restricted to artificial flies and lures.
Imnaha River (Wallowa Co.):	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31. - Only adipose fin-clipped <i>trout</i> may be kept. - Catch and release for <i>bull trout</i>.
1. Upstream to Big Sheep Creek	
2. Upstream from Big Sheep Creek	Closed between 200 feet downstream from the fish weir and the water intake located 1/2 mile downstream from Gumboot Creek (0.3 mile). - Catch and release for <i>bull trout</i>.
John Day River (Gilliam/Wheeler/Grant Co.):	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and June 16-Dec. 31. - Open for <i>Warmwater Game Fish</i> entire year except as noted below. Closed from ODFW marker 1/4-mile downstream from Tumwater Falls to 200 feet above the falls, which are located near the head of John Day Arm, except open for species other than <i>salmon</i> and <i>steelhead</i> April 1-Aug. 31.
1. John Day Arm and River from main line railroad bridge near mouth upstream to Tumwater Falls	
2. Mainstem from Tumwater Falls:	
a. Upstream past Cottonwood Bridge (river mile 39.5) to North Fork	<i>Smallmouth bass</i>, 5 per day, no more than 1 over 16 inches. <i>Smallmouth bass</i> between 12 and 16 inches must be released unharmed. - Open for adipose fin-clipped <i>steelhead</i> the entire year. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31.
b. From North Fork upstream to Indian Creek	
3. Middle Fork:	
a. Upstream to Hwy 395 bridge	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31.
b. Hwy 395 bridge upstream to Hwy 7	- Restricted to artificial flies and bait with a single-point hook no larger than 1/4 inch - Lures prohibited.
c. Hwy 7 upstream to Summit Creek	Closed.
4. North Fork:	
a. Upstream to Hwy 395 bridge	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31.
b. Hwy 395 bridge upstream to bridge located at USFS North Fork Campground	- Restricted to artificial flies and bait with a single-point hook no larger than 1/4 inch. - Lures prohibited.
c. Granite Creek and tributaries	Closed.
Kinney Reservoir (Wallowa Co.)	- Open May 22-Oct. 31. - No angling from a floating device.
LaGrande Reservoir and tributaries upstream from LaGrande Reservoir (Beaver Creek, Union Co.)	- Open May 22-Oct. 31. 2 <i>rainbow trout</i> per day. No limit on size or number of <i>brook trout</i>. - Restricted to artificial flies and lures.
Little Sheep Creek (Wallowa Co.)	Closed between the fence located 440 feet downstream from the fish weir and the fence located 240 feet upstream from the water intake (0.1 mile).
Lookingglass Creek and tributaries (Union Co.)	- Lookingglass Creek closed between 300 feet downstream from Jarboe Creek and 200 feet upstream from the hatchery water intake (0.4 mile). - Lookingglass Creek and Little Lookingglass Creek restricted to artificial flies and lures, with hooks no larger than 1/4-inch gap.
Lostine River, mouth to the forks (Wallowa Co.)	Restricted to artificial flies and lures.

NORTHEAST ZONE

Water	Special Regulations
Magone Lake (Grant Co.)	- No more than 5 <i>brook trout</i> per day as part of the general <i>trout</i> catch limits. - No size limit on <i>brook trout</i>.
McKay Creek and tributaries upstream from McKay Reservoir (Umatilla Co.)	- Open April 24-Oct. 31. - Open entire year upstream from Spring Creek Road to the upper Umatilla Indian Reservation Boundary. - Nov. 1-April 24 restricted to catch and release, artificial flies and lures only.
McKay Reservoir (Umatilla Co.)	- Open March 1-Sept. 30. 3 <i>bass</i> per day, 15 inch minimum length.
Meacham Creek (Umatilla Co.)	Restricted to artificial flies and lures.
Meadow Creek (Grande Ronde River, Union Co.) from forest boundary upstream to Smith Creek road crossing	Closed, U.S Forest Service Research Area.
Mill Creek (Walla Walla Basin, Umatilla Co.)	Restricted to artificial flies and lures.
Minam River and tributaries (Wallowa Co.)	Minam River, Little Minam River and Elk Creek restricted to artificial flies and lures.
Morgan Lake (Union Co.)	- Open April 24-Oct. 31. - No more than 5 <i>brook trout</i> per day as part of the general <i>trout</i> catch limits. - No size limit on <i>brook trout</i>.
Snake River	See the Snake River Zone (pages 78-81).
Spring Creek (Wallowa Hatchery) including pond (Wallowa Co.)	Closed from 200 feet downstream from the lower fishway upstream to the upper Hatchery Road crossing.
Umatilla River (Umatilla Co.): 1. From Hwy 730 bridge upstream to reservation boundary located upstream from Hwy 11 bridge at Pendleton	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31. - Open to angling for <i>spring chinook salmon</i> April 16-June 30, 2 per day, including both adults and jacks, and 10 adult <i>spring chinook salmon</i> per year. - Open for <i>coho salmon</i> and jack <i>fall chinook salmon</i> Sept. 1-Nov. 30. - Daily bag limit 2 <i>coho</i> adults and a total of 5 <i>coho</i> or <i>fall chinook</i> jacks in the aggregate. - Daily bag limit of adult <i>salmon</i> and adipose fin-clipped <i>steelhead</i> not to exceed 2 fish in the aggregate with exception that 1 additional adipose fin-clipped <i>steelhead</i> may be retained for a total aggregate of 3 fish. - Open for <i>warmwater fish</i> angling all year downstream from the footbridge in the City of Umatilla. Closed to angling for <i>warmwater fish</i> upstream from the footbridge in the City of Umatilla April 16-May 21.
2. Umatilla Indian Reservation	Tribal permits are required on Reservation portions of the Umatilla River. For information, call the Umatilla Indian Reservation at (541) 276-4109.
3. Mainstem and tributaries upstream from confluence of Ryan Creek (near eastern boundary of Umatilla Indian Reservation)	- Catch and release for <i>trout</i>. - Restricted to artificial flies and lures.
Walla Walla River and tributaries (Umatilla Co.)	- Restricted to artificial flies and lures. - Open for adipose fin-clipped <i>steelhead</i> in the mainstem Walla Walla River from the Oregon/Washington border upstream to the confluence of the North and South forks, Dec.1-31 and Jan.1-April 15.
Wallowa Lake (Wallowa Co.)	5 <i>trout</i> per day, including <i>kokanee</i> and <i>lake trout</i>, with no size limits. - All <i>bull trout</i> must be released unharmed.
Wallowa River (Wallowa Co.): 1. Mouth upstream to Rock Creek	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31. - Only adipose fin-clipped <i>trout</i> may be kept.
2. Rock Creek upstream to Trout Creek	Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31
3. Upstream from Wallowa Lake to falls on West Fork and PPL intake on East Fork	- Open May 22-Aug. 31. - Restricted to artificial flies and lures.
Wenaha River upstream to Crooked Creek (Wallowa Co.)	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 15 and Sept. 1-Dec. 31. - Catch and release for <i>bull trout</i>.
Willow Creek System (Morrow Co.): 1. Slackwater at wildlife area	Open entire year.
2. Upstream from the wildlife area at the mouth	Open April 24-Oct. 31.

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

SOUTHEAST CORNER OF SOUTHEAST ZONE

Southeast Zone

Description:

The Southeast Zone is all tributaries (including their impoundments) of the Snake River system above Hells Canyon Dam; the Silvies River drainage in Grant County; all waters in Malheur and Lake counties; all waters in Harney County except South Fork John Day drainage; and all waters of the Klamath Basin in Klamath and Lake counties. This zone does not include any portion of the mainstem Snake River. Klamath River Basin is where all streams and their tributaries drain toward Upper Klamath Lake or Klamath River. Regulations for the Snake River can be found in the Snake River Zone (page 78-81).

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for the zone**.
3. Always read the **General Regulations** pages, 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.
5. All waters of Malheur National Wildlife Refuge are **closed** to angling unless listed under **Special Regulations**.

Regulations for this zone:

1. Angling restricted to artificial flies and lures in streams. See exceptions under **Special Regulations** where use of bait is allowed.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	5 per day, in lakes and reservoirs, 2 per day in streams, 2 daily limits in possession.	8-inch minimum length. - Only 1 <i>trout</i> over 20 inches may be taken. - No limit on size or number of <i>brook trout</i> from lakes and streams, except lakes in the Winema National Forest and streams in the Pine Creek and Powder River systems where the limit is 5 <i>trout</i> per day. Closed to angling for <i>bull trout</i>. <i>Kokanee</i> are included under <i>trout</i> limits and seasons unless noted under Special Regulations. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Open all year, except Klamath River Basin streams not listed are open April 24-Oct. 31.
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in possession, except no limits in Klamath Basin, Lost River, Warner Basin Lakes, Abert Lake Basin (includes Summer Lake and Chewaucan basins) and Thompson Valley Reservoir.	- No more than 3 over 15 inches in length, except no length limit in Klamath Basin, Lost River, Warner Basin Lakes, Abert Lake Basin (includes Summer Lake and Chewaucan Basins), and Thompson Valley Reservoir. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Lakes and Reservoirs: Open all year. Streams: Open during <i>trout</i> season.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye and Yellow Perch	No limit.	Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Other Fish: Whitefish, Sucker, Northern Pikeminnow, Carp, Chub, Sculpin, and other Nongame Fish	No limit.	Closed for <i>suckers</i> and <i>mullet</i> in Klamath County and Warner Basin. Closed to take and possession of Protected Fish (listed under #18 in General Regulations on page 12). - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	Lakes and Reservoirs: Open all year. Streams: Open during <i>trout</i> season.
Hybrid Bass	No limit.	See Ana and Thompson Valley reservoirs under Special Regulations.	
Sturgeon	Catch and release only.	<i>Sturgeon</i> may not be removed from the water and must be released immediately unharmed. - Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed.	
Crayfish	100 per day, 2 daily limits in possession.	- A <i>shellfish</i> license is not required. - All streams are open to <i>crayfish</i> harvest including streams listed as closed under Special Regulations.	Open all year.
Freshwater Clams	No limit.	A <i>shellfish</i> license is not required.	Open all year.
Bullfrogs	No limit.	An angling license is not required.	Open all year.

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

SOUTHEAST ZONE

Water	Special Regulations
Agency and Klamath Lakes (Klamath Co.)	• 1 <i>trout</i> per day.
Ana Reservoir (Lake Co.)	• 1 <i>hybrid bass</i> in 24 hours, 16-inch minimum length. • No minimum length or catch limit on <i>largemouth bass</i> .
Ana River (Lake Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Antelope Creek (Coyote Lake Basin, Malheur Co.)	• Closed .
Antelope Creek (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Antelope Reservoir (Owyhee Basin, Malheur Co.)	• See Health Advisory on page 15.
Balm Creek Reservoir (Baker Co.)	• See Marine Board regulations which restrict to electric motors only. See page 7.
Big Alvord Creek (Alvord Basin, Harney Co.)	• Closed .
Big Creek and tributaries (Malheur River Basin, Grant Co.)	• 5 <i>trout</i> per day.
Blitzen River Basin (Malheur Lakes Basin, Harney Co.): 1. Malheur Refuge waters downstream from Bridge Creek	• Closed .
2. Mainstem, East Canal, and tributaries upstream and including Bridge Creek, except Little Blitzen River	• Open May 22 - Oct. 31, 2 <i>trout</i> per day. • Open Nov. 1 - May 21, catch and release for <i>trout</i> .
3. Little Blitzen River	• Catch and release for <i>trout</i> .
Burnt River and tributaries upstream from Huntington-Richland Road Bridge (Baker Co.)	• Open April 24-Oct. 31. • 5 <i>trout</i> per day, use of bait allowed.
Chewaucan River and tributaries below Hwy 31 at Paisley (Lake Abert Basin, Lake Co.)	• Open May 22-Oct. 31, 2 <i>trout</i> per day, use of bait allowed.
Cogswell Creek (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Cottonwood Creek and tributaries (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Cottonwood Creek (Alvord Basin, Harney Co.)	• Closed .
Cottonwood Reservoir (Goose Lake Basin, Lake Co.)	• Open entire year. • 2 <i>trout</i> per day.
Crater Lake National Park (Klamath Co.)	• Angling in Crater Lake National Park is regulated by the National Park Service. • For additional information call (541) 594-2211.
Crane Creek (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Crooked Creek (Lake Abert Basin, Lake Co.)	• Open May 22-Oct. 31.
Crooked Creek (Wood River Basin, Klamath Co.)	• Open April 24-Oct. 31. • Catch and release for <i>trout</i> . • Closed from the springs located at Klamath Hatchery downstream 1,000 ft. to a posted fence crossing.
Crystal Creek (Klamath Co.)	• Open April 24-Oct. 31. • 1 <i>trout</i> per day. • Use of bait allowed.
Deming Creek including Campbell Reservoir diversion (Sprague Basin, Klamath Co.)	• Open May 22-Oct. 31.
Denio Creek (Alvord Basin, Harney Co.)	• Closed .
Dog Lake (Goose Lake Basin, Lake Co.)	• Closed for <i>trout</i> . • 3 <i>bass</i> per day, 15-inch minimum length.
Drews Creek and tributaries (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Drews Reservoir (Goose Lake Basin, Lake Co.)	• 2 <i>trout</i> per day.
Dry Creek and tributaries (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Eagle Creek and tributaries (Powder River Basin, Baker/Union Co.)	• Open April 24-Oct. 31. • 5 <i>trout</i> per day, use of bait allowed.
Fort Creek (Wood River Basin, Klamath Co.)	• Open April 24-Oct. 31. • Catch and release for <i>trout</i> .
Fourmile Creek (Agency Lake Basin, Klamath Co.)	• Open entire year. • 1 <i>trout</i> per day. • Use of bait allowed.
Fourmile Lake (Klamath Co.)	• 25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit.
Goose Lake (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31. • 2 <i>trout</i> per day, artificial flies and lures only.
Harriman Creek (Klamath Co.)	• Open entire year. • 1 <i>trout</i> per day. • Use of bait allowed.

SOUTHEAST ZONE

Water	Special Regulations
Higgins Reservoir (Baker Co.)	- Open April 24-Oct. 31. 2 <i>trout</i> per day, artificial flies and lures only. - See Marine Board regulations which restrict to electric motors only. See page 7.
Indian Creek (Quinn Basin, Malheur Co.)	Closed.
Jordan Creek (Owyhee Basin, Malheur Co.)	- See Health Advisory on page 15. 5 <i>trout</i> per day, use of bait allowed.
Kelley Creek (Goose Lake Basin, Lake Co.)	Open May 22-Oct. 31.
Kiger Creek and tributaries (Malheur Lakes Basin, Harney Co.)	5 <i>trout</i> per day, use of bait allowed.
Klamath Lake and Agency Lake (Klamath Co.)	1 <i>trout</i> per day.
Klamath River (Klamath Co.):	- Open entire year. 1 <i>trout</i> per day. - Use of bait allowed.
1. Lake Ewauna downstream to Keno Dam	
2. Keno Dam downstream to JC Boyle Reservoir	- Open Jan. 1-June 15 and Oct. 1-Dec. 31. 1 <i>trout</i> per day.
3. Boyle Dam downstream to Oregon/California border	- Open entire year. 1 <i>trout</i> per day. - Catch and release for <i>trout</i> June 16-Sept. 30. Closed from Boyle Dam to downstream side of bridge at flume crossing. 5 <i>trout</i> per day, use of bait allowed.
Krumbo Creek (Malheur Lakes Basin Harney Co.),	
1. Above Krumbo Reservoir	
2. Below Krumbo Reservoir	Closed
Krumbo Reservoir (Harney Co.)	Open April 24-Oct. 31.
Lake Creek and tributaries (Malheur River Basin, Grant Co.)	5 <i>trout</i> per day.
Lake of the Woods (Klamath Co.)	25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit. - No more than 1 <i>bass</i> over 15 inches, as part of daily limit. - Angling allowed 24 hours per day.
Larkin Creek (Klamath Co.)	Open to angling May 22-Oct. 31.
Link River (Klamath Co.)	- Open entire year. 1 <i>trout</i> per day. - Use of bait allowed.
Little Alvord Creek (Alvord Basin, Harney Co.)	Closed.
Lost River and tributaries (Klamath Co.)	- Open entire year. - Use of bait allowed.
Malheur River (Harney/Grant/Malheur Co.)	5 <i>trout</i> per day.
1. Mouth of Bluebucket Creek to Big Creek.	
2. Remainder of basin.	5 <i>trout</i> per day, use of bait allowed.
Malheur River, North Fork (Malheur/Harney/Grant/Baker Co.)	5 <i>trout</i> per day.
1. Mainstem and tributaries upstream of Beulah Reservoir.	
2. Mainstem downstream of Beulah Reservoir.	5 <i>trout</i> per day, use of bait allowed.
Mann Lake (Harney Co.)	2 <i>trout</i> per day, 16-inch minimum length. - Restricted to artificial flies and lures.
Mann Lake tributaries (Harney Co.)	Closed.
McCoy Creek, Little (Alvord Basin, Harney Co.)	Closed.
Miller Creek (Outlet of Miller Lake, Klamath Co.)	5 <i>trout</i> per day, use of bait allowed.
Miller Creek (tributary to Lost River)	- Open entire year. - Use of bait allowed.
Miller Lake (Klamath Co.)	25 <i>kokanee</i> per day (no size limits) in addition to other <i>trout</i> species catch limit. - Angling allowed 24 hours per day.
Mosquito Creek (Alvord Basin, Harney Co.)	Closed.
Murray Reservoir (Baker Co.)	No angling from a floating device.
Odessa Creek (Klamath Co.)	- Open entire year. 1 <i>trout</i> per day. - Use of bait allowed.
Owyhee Reservoir and tributaries (Malheur Co.)	- See Health Advisory on page 15. 5 <i>trout</i> per day, use of bait allowed.
Owyhee River from the mouth upstream to Owyhee Dam (Malheur Co.)	5 <i>trout</i> per day, use of bait allowed. - Catch and release for <i>brown trout</i>.

SOUTHEAST ZONE

Water	Special Regulations
Pike Creek (Alvord Basin, Harney Co.)	• Closed.
Pine Creek (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Pine Creek and tributaries upstream from Oxbow Bridge (Baker Co.)	• Open April 24-Oct. 31. • <i>Brook trout</i> are part of the standard 5 <i>trout</i> per day over 8-inch bag limit. • 5 <i>trout</i> per day, use of bait allowed.
Poison Creek Reservoir (Silvies Basin, Grant Co.)	• 2 <i>trout</i> per day, 8-inch minimum. • Restricted to artificial flies and lures.
Powder River (Baker/Union Co.)	• Open April 24-Oct. 31. • 5 <i>trout</i> per day, use of bait allowed. • <i>Brook trout</i> are part of the standard 5 <i>trout</i> per day over 8-inch bag limit.
1. Mainstem and tributaries upstream from Huntington-Richland Road Bridge	• Open Nov. 1-April 24, catch and release for <i>trout</i> , restricted to artificial flies and lures.
2. Upstream from Hughes Lane Bridge near Baker City to Phillips Reservoir	• Open April 24-Oct. 31, 5 <i>trout</i> per day, use of bait allowed.
Rattlesnake Creek and tributaries (Malheur Lakes Basin, Harney Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Recreation Creek (Klamath Co.)	• Open entire year. • 1 <i>trout</i> per day. • Use of bait allowed.
Riddle Creek and tributaries (Malheur Lakes Basin, Harney Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Sage Creek (Quinn Basin, Malheur Co.)	• Closed.
Sand Creek (Klamath Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Scott Creek (Klamath Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Sevenmile Creek downstream from Nicholson Road (Klamath Co.)	• Open April 24-Oct. 31. • Catch and release for <i>trout</i> .
Short Creek (Klamath Co.)	• Open entire year. • 1 <i>trout</i> per day. • Use of bait allowed.
Silvies River and tributaries (Malheur Lakes Basin, Grant/Harney Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Silver Creek and tributaries (Malheur Lakes Basin, Crook/Harney Co.)	• 5 <i>trout</i> per day, use of bait allowed.
Skull Creek (Catlow Basin, Harney Co.)	• Closed.
Snake River and impoundments	• See Snake River Zone (pages 78-81).
Spencer Creek (Klamath Co.)	• Open May 22-Oct. 31.
Sprague River and tributaries (Klamath Co.):	• Open May 22-Oct. 31. • 1 <i>trout</i> per day.
1. Downstream from Chiloquin Dam	• Open April 24-Oct. 31. • Use of bait allowed.
2. Saddle Mountain Pitt Road Bridge (USFS Road 5850) upstream to Godowa Springs Road Bridge.	• Open May 22-Oct. 31. • 5 <i>trout</i> per day, use of bait allowed.
Spring Creek (Klamath Co.)	• Open May 22-Oct. 31. • 5 <i>trout</i> per day, use of bait allowed.
Tandy Creek (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Thomas Creek and tributaries (Goose Lake Basin, Lake Co.)	• Open May 22-Oct. 31.
Thomason Creek (Klamath Co.)	• Open entire year. • 1 <i>trout</i> per day. • Use of bait allowed.
Thompson Valley Reservoir (Lake Co.)	• 1 <i>hybrid bass</i> in 24 hours, 16-inch minimum length. • No length or bag limit on <i>largemouth bass</i> .
Threemile Creek (Catlow Basin, Harney Co.)	• Closed.
Threemile Creek (Klamath Co.)	• Closed upstream of Westside Road.
Unity Reservoir (Baker Co.)	• Closed within 200 feet of Dam Jan. 1-March 31 and Dec. 1-31.
Van Horn Creek (Alvord Basin, Harney Co.)	• Closed.
Whitehorse Creek Drainage (Coyote Lake Basin, Harney/Malheur Co.)	• Catch and release angling for <i>Lahontan cutthroat trout</i> .
Williamson River (Klamath Co.):	• Open May 22-Oct. 31. • 1 <i>trout</i> per day.
1. Mouth upstream to the Modoc Point Road Bridge	• Open May 22-Oct. 31. • 1 <i>trout</i> per day May 22-July 31. • Catch and release for <i>trout</i> Aug. 1-Oct. 31. • No angling from motor-propelled craft while motor is operating.
2. Modoc Point Road Bridge upstream to Chiloquin Bridge	

(Williamson River continued on next page)

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

Water	Special Regulations
Williamson River (continued) 3. Chiloquin Bridge to Kirk Bridge	• Open May 22-Oct. 31. • 1 trout per day May 22-July 31. • Catch and release for trout Aug. 1-Oct. 31. • No angling from a floating device.
4. Kirk Bridge upstream to headwaters	• Open April 24-Oct. 31. • 2 trout per day, except no limit on size or number of brook trout. • No angling from a floating device.
Willow Creek (Alvord Basin, Harney Co.)	• Closed.
Willow Creek Drainage (Coyote Lakes Basin, Harney/Malheur Co.)	• Catch and release angling for Lahontan cutthroat trout.
Wood River from mouth (mouth of Wood River extends through the Wood River Delta to emergent vegetation line in Agency Lake) upstream including tributaries, except Annie Creek (Klamath Co.)	• Open April 24-Oct. 31. • Catch and release for trout.

COME JOIN US IN THE GREAT OUTDOORS

Protect Oregon's waters from invasive plants and animals

HYDRILLA

- Native to Southwest Asia
- Destroys fish habitat
- Reduces water movement
- Interferes with recreation

What you can do –

- Clean plants, animals and mud off your boat before leaving the ramp
- Drain all water from your boat and rinse off your gear
- Dispose of live bait on land

MITTEN CRAB

- Native to Yellow Sea
- Eats fish eggs and juveniles
- Found in fresh and saltwater
- Identified by "hairy" claws, shell width 3-5"

To report a sighting or
for more information call
1-866-INVADER

**OREGON
INVASIVE SPECIES
HOTLINE**

ZEBRA MUSSEL

- Native to Caspian Sea
- Degrades fish habitat
- Damages boat engines and dock pilings
- Attaches to underwater surfaces in colonies

SNAKE RIVER ZONE

LEGEND

- ZONE BOUNDARY
- FALLS OR DAMS
- FISH WEIR
- BRIDGE
- OTHER LANDMARKS
- CLOSED ALL YEAR
- RAILROAD

The Snake River Zone is all the waters of the Snake River from the Oregon-Washington border upstream to the Oregon-Idaho border. The boundary between the Snake River and its tributaries is defined as a straight line across the mouths of all rivers. The Snake River Zone includes the portions of the Burnt and Powder rivers downstream of the Huntington-Richland Road near their mouths and includes the portion of Pine Creek downstream of the Oxbow Bridge.

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If Specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, the zone regulations apply.
2. Read the following **Regulations for the zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

- Where the Snake River forms the boundary between Oregon and Idaho, the following rules apply:
 - a. License of either state is valid in the Snake River when angling from a floating device. However, when fishing tributaries, sloughs or from lands within either state, the angler must be licensed by the state where the waters (or land) are located.
 - b. Anglers must follow the rules of the licensing state.
 - c. Anglers are restricted to one daily catch limit, even if licensed by both states.
 - d. Anglers may launch and take out their boats from either state, regardless of licensing state.
- See Health Advisory on page 15.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	6 per day, 2 daily limits in possession.	• No minimum length limit. • Only 1 <i>trout</i> over 20 inches may be taken per day, upstream of Hells Canyon Dam. • Closed to angling for <i>bull trout</i>. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i> downstream of Hells Canyon Dam.	Open all year.
Salmon		• Closed.	Closed.
Steelhead	3 per day.	• See Snake River entry from Oregon-Washington border upstream to Hells Canyon Dam. • Only adipose fin-clipped <i>steelhead</i> may be kept. • Restricted to barbless hooks for adipose fin-clipped <i>steelhead</i>. • No annual limit on adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • No more than 3 <i>bass</i> over 15 inches in length.	Closed in all waters unless noted by species under Special Regulations .
Warmwater Game Fish: Largemouth and Smallmouth Bass	6 per day, 2 daily limits in possession.		Open all year.
Bluegill, Catfish, Crappie, Other Sunfish, Walleye and Yellow Perch	No limit.		
Other Fish: Sucker, Northern Pikeminnow, Carp, Sculpin, other Nongame Fish and Whitefish and Shad	No limit.		Open all year.
Sturgeon	Catch and release only.	• Restricted to single-point barbless hooks for <i>sturgeon</i>. • <i>Sturgeon</i> may not be removed from the water and must be released immediately unharmed.	
Crayfish	100 per day, 2 daily limits in possession.	• A <i>shellfish</i> license is not required.	Open all year.
Freshwater Clams	No limit.	• A <i>shellfish</i> license is not required. • Note: Unlawful to take or possess <i>Zebra mussels</i> or <i>Asian clams</i>.	Open all year.
Bullfrogs	No limit.	• An angling license is not required.	

All *trout*, *salmon* and *steelhead* that are released must be unharmed and should not be removed from the water.

Special Regulations for this zone:

Water	Special Regulations
Snake River from Oregon-Washington border upstream to Hells Canyon Dam	- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-April 30 and Sept. 1-Dec. 31. <i>Bass</i>, no length limit. Closed from Hells Canyon Dam downstream 400 feet to cable crossing. - See Health Advisory on page 15.
Hells Canyon Reservoir (Wallowa Co.)	<i>Bass</i>, 12-inch minimum length.
Oxbow Reservoir (Baker Co.)	- Catch and release only for <i>bass</i> Jan. 1-June 30. 2 <i>bass</i> per day. <i>Bass</i> between 12 and 16 inches must be released.
Brownlee Reservoir including Snake River upstream to Oregon-Idaho border (Baker Co.)	- Powder River Arm from mouth upstream to Huntington-Richland Road Bridge requires an Oregon angling license. <i>Bass</i>, 12-inch minimum length. - See Health Advisory on page 15.

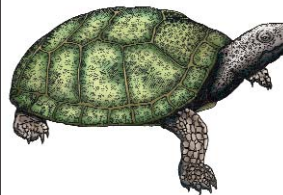

All trout, salmon and *steelhead* that are released must be unharmed and should not be removed from the water.

Federal and state laws require ODFW to collect the social security number (SSN) of applicants for hunting and fishing licenses. These laws were enacted as part of a nation-wide effort to improve child support compliance.

Social security numbers will not be displayed on licenses or disclosed except as required by state or federal law. Instead, a Hunter/Angler ID number is printed on all licenses, tags, permits, etc. This is your permanent identification number and the primary number for identifying you in our system and maintaining your license history.

Bring any 2003 License or tag to any POS license agent when applying for 2004 licenses and tags. You will be quickly identified within the system and avoid delays.

If you find a turtle, leave it alone. It is unlawful to intentionally harm a native turtle or to keep it in captivity. Oregon's native turtles (the Western pond turtle and the painted turtle) have declined in numbers. Causes of this decline include loss of both aquatic and terrestrial habitat as well as loss to non-native predators.

You can help turtles:

- Use artificial lures rather than bait where turtles occur when angling.
- If you hook a turtle, carefully remove the hook and release the turtle immediately. If you cannot unhook the turtle, call ODFW.
- Avoid angling near areas that turtles use for sunning, especially during April, May, and June. Sunning is important in spring for turtles to reproduce successfully.

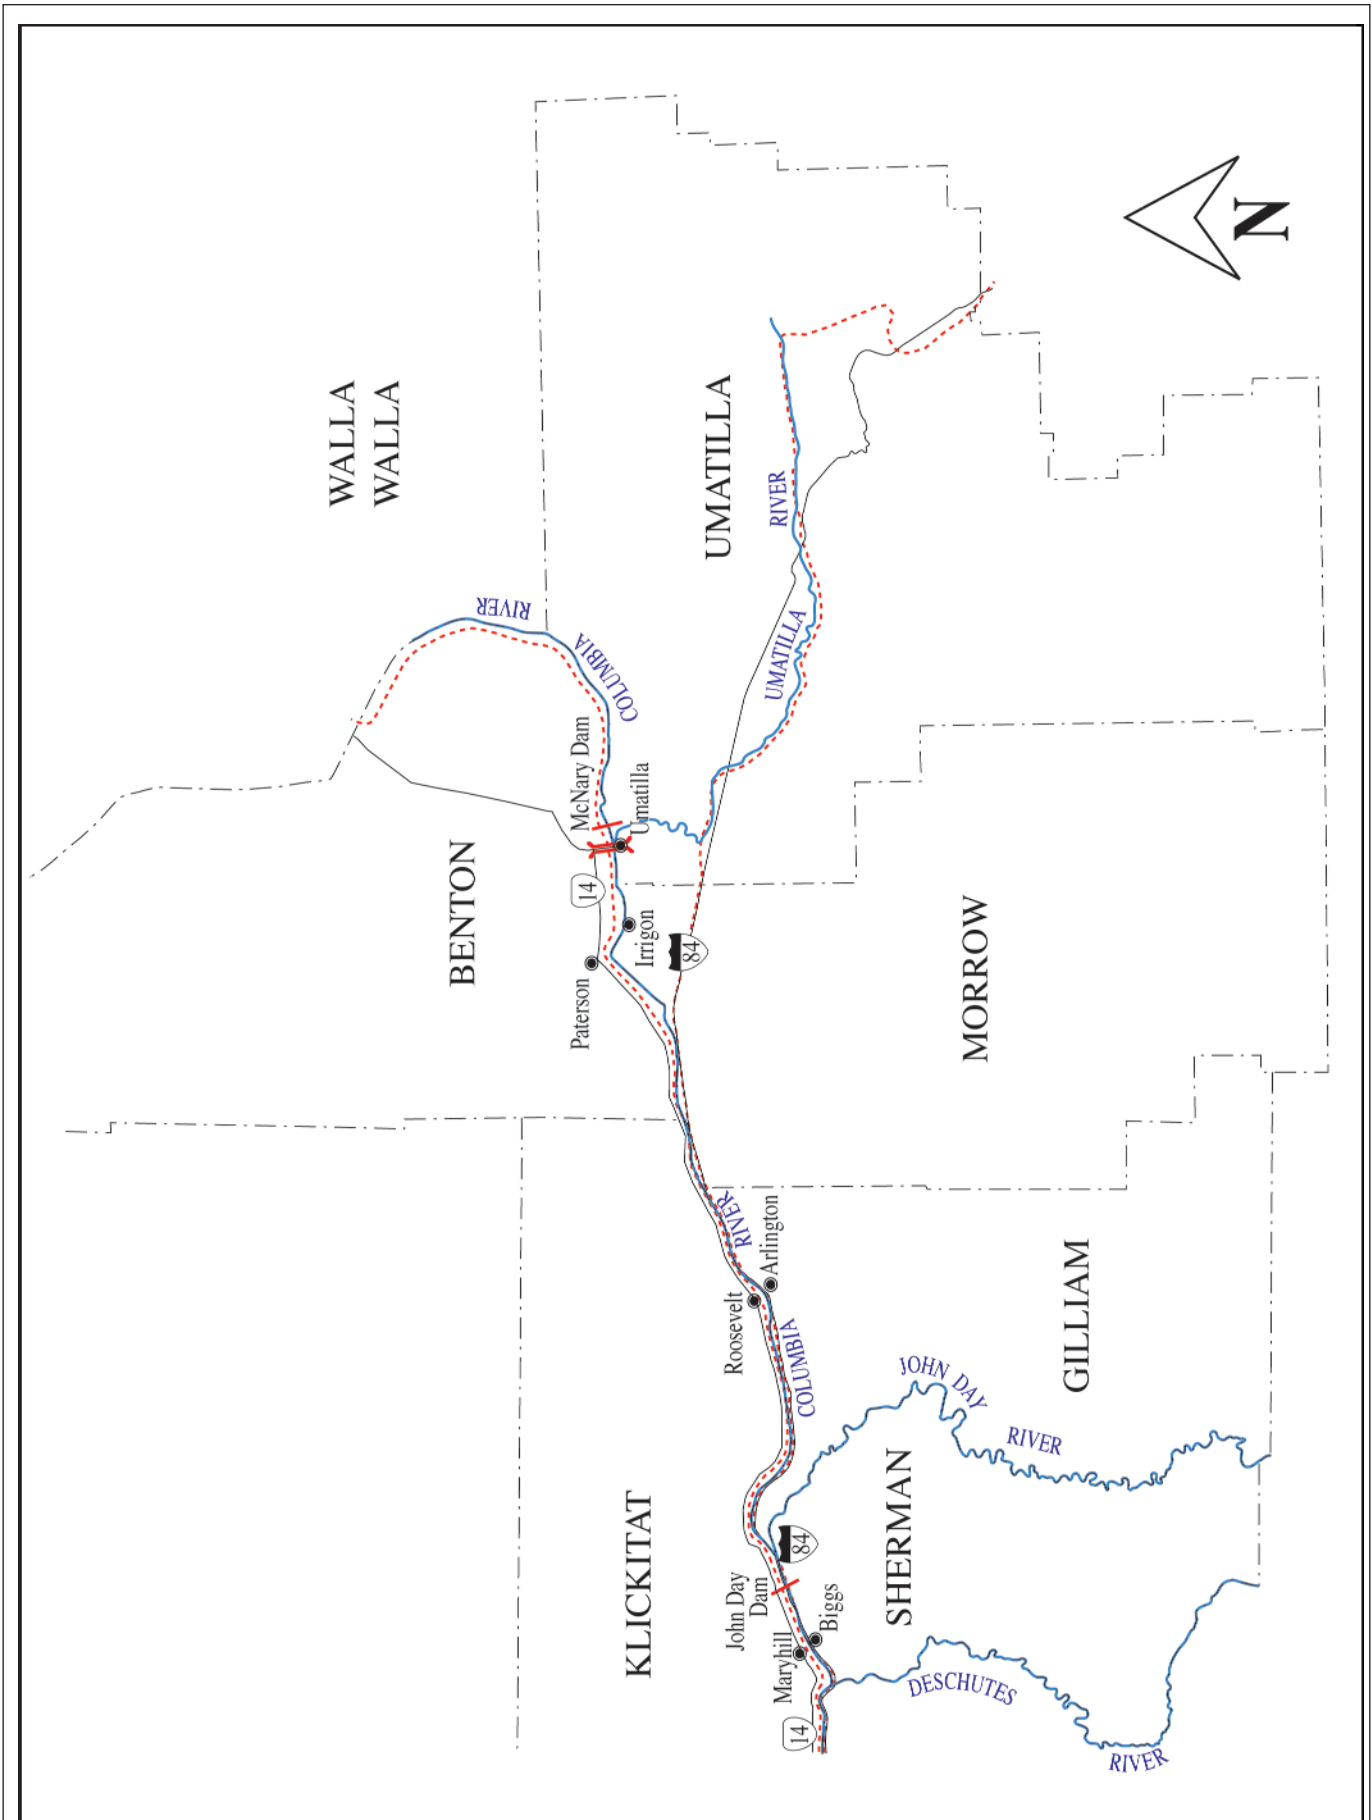

FOR MORE INFORMATION, CONTACT YOUR LOCAL ODFW OFFICE

Please don't litter.
 It spoils the scenery, hurts wildlife, and
 results in the posting of private land.

contact your local fish district or
visit the ODFW website at
www.dfw.state.or.us.

COLUMBIA RIVER ZONE

Description:

The Columbia River Zone is all waters of the Columbia River upstream from a north-south line through Buoy 10 at the river mouth and includes those portions of tributaries (including lakes) downstream from the main line railroad bridges near the tributaries' mouths except for the Willamette (including Multnomah Channel), Sandy, Hood, Deschutes and Umatilla river systems. The Columbia River Zone includes downstream from Hwy 730 on the Umatilla River and from Interstate 84 on the Deschutes River. The boundary is a straight line across the mouths of the Willamette (including Multnomah Channel), Sandy and Hood rivers.

Oregon and Washington state waters are defined by the state line which lies within the waters of the Columbia River. In the area from the mouth upstream to Altoona, WA (river mile 24), the state line is near the Washington shore. In the area from Altoona, WA upstream to above McNary Dam (except near mainstem dams) the state line is in the middle of the ship channel.

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for the zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

1. In the Columbia River where it forms the state boundary line, not including tributaries, sloughs and lands, the following rules apply:
 - a. License and tags of either state are valid except when the other state's season is **closed**;
 - b. Anglers must follow the rules of the state in which they are fishing;
 - c. Anglers are restricted to one daily catch and one annual *sturgeon* catch limit from the Columbia River, even if licensed in Oregon and Washington;
 - d. Anglers that are residents of either Oregon or Washington may launch or take out their boats from either shore, regardless of which state license they hold;
 - e. Anglers that are not a resident of either Oregon or Washington must possess a nonresident license for the state in which they are landing.
2. When fishing on tributaries, sloughs or from the land of a state, the angler must be licensed by that state and obey all angling regulations of that state.
3. **NOTE:** Mainstem Columbia River fisheries for *salmon*, *steelhead* and *sturgeon* are co-managed by the Oregon and Washington Departments of Fish and Wildlife and the four Treaty Tribes, represented by the Columbia River Inter-Tribal Fish Commission. Based on discussions among the co-management agencies, Oregon may adopt in-season changes to sport fishery regulations in the Columbia River. Regulation changes can occur on short notice and will be made available to ODFW field offices, the news media and license agents. Anglers should check the status of regulations prior to fishing the Columbia River.

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Trout	2 per day, 2 daily limits in possession.	• 12-inch minimum length. • <i>Rainbow trout</i> over 20 inches are considered <i>steelhead</i>. • Only fin-clipped <i>cutthroat trout</i> may be kept. • Closed to angling for <i>bull trout</i>.	Open Jan. 1- March 31 and May 22-Dec. 31.
Salmon and Steelhead	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year. 5 jacks per day, 2 daily jack limits in possession.	• Only adipose fin-clipped <i>steelhead</i> may be kept. • Closed for <i>sockeye</i> and <i>chum salmon</i>. • See Special Regulations in Columbia River Zone to determine where harvest of any <i>chinook</i> or <i>coho salmon</i> is allowed. Harvest of nonadipose fin-clipped <i>steelhead</i> is not allowed in the Columbia River Zone. • There is no annual limit for adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • NOTE: Changes to <i>salmon</i> regulations for the Columbia River system are printed in May and are available at ODFW offices or from license agents. Check for new regulations before you fish.	Closed in all waters unless noted by species under Special Regulations .
Warmwater Game Fish: Largemouth and Smallmouth Bass	5 per day, 2 daily limits in in possession.	• No more than 3 <i>bass</i> over 15 inches in length.	Open all year.
Striped Bass	2 per 24 hours; 2 daily limits in possession.	• 30-inch minimum length.	Open all year.

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

COLUMBIA RIVER ZONE

Species Name	Catch Limits	Length Limits and Other Specifications	Season
Warmwater Game Fish (con't) Bluegill, Catfish, Crappie, other Sunfish and Yellow Perch	No limit.		Open all year.
Walleye	10 per day, 2 daily limits in possession	No more than 5 per day over 18 inches and only one may be over 24 inches.	
Other Fish: Sturgeon	1 per day, 5 per year.	- See page 88 for tag return information. 42-inch minimum and 60-inch maximum length from river mouth upstream to The Dalles Dam. 48-inch minimum and 60-inch maximum length from The Dalles Dam upstream to Oregon-Washington border. - All oversize, undersize, and unwanted legal size <i>sturgeon</i> must be released immediately unharmed into the water. - Oversize <i>sturgeon</i> cannot be removed totally or in part from the water. - Restricted to single-point barbless hooks for <i>sturgeon</i>. - Catch and release of <i>sturgeon</i> may continue after taking the daily or annual limit or when quota is reached.	Open all year, except as noted under Special Regulations . NOTE: <i>Sturgeon</i> fisheries are managed on a quota basis. Anglers should check the status of regulations prior to fishing.
Northern Pikeminnow, Carp, Sucker, Chub, Sculpin, other Nongame Fish and Whitefish and Shad	No limit.	<i>Shad</i> angling closed from Buoy 10 line upstream to Bonneville Dam April 1-May 15.	
Smelt	First 25 pounds per day.	- An angling license is not required. - Separate container for each dipper. 25 pounds per dipper while in dipping area.	Open all year.
Crayfish	100 per day, 2 daily limits in possession.	A <i>shellfish</i> license is not required.	
Freshwater Clams	No limit.	- A <i>shellfish</i> license is not required. Note: Unlawful to take or possess <i>Zebra mussels</i> or <i>Asian clams</i>.	Open all year.
Bullfrogs	No limit.	An angling license is not required.	
Marine Fish and Marine Shellfish	See Marine Zone pages 91-97.		See Marine Zone. pages 91-97.
Special Regulations for this zone:			
Water		Special Regulations	
Columbia River:		Closed for <i>trout</i>. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and Aug. 1-Dec. 31. - Open for adipose fin-clipped <i>chinook salmon</i> and adipose fin-clipped <i>coho salmon</i> Jan. 1-March 31. - Open for <i>chinook salmon</i> and adipose fin-clipped <i>coho</i> Aug. 1-Dec. 31, except only adult <i>chinook salmon</i> and adult adipose fin-clipped <i>coho salmon</i> may be kept Aug. 1-Sept. 30. - Minimum sizes for adult <i>salmon</i> are 24 inches for <i>chinook salmon</i> and 16 inches for <i>coho salmon</i>. - The Columbia River South Jetty is open to <i>salmon</i> fishing seven days a week when the <i>fall</i> Buoy 10 or adjacent ocean <i>salmon</i> fishery is open. Before Aug. 1 barbless hooks are required. - In the waters of the Pacific Ocean and in the Columbia River upstream to a line projected from Rocky Point on the Washington bank through red buoy 44 to the navigation light at Tongue Point on the Oregon bank, each angler aboard a vessel may continue to use angling gear until the daily limit of fish for all legally licensed and juvenile anglers aboard has been achieved. However, no individual angler may exceed any personal daily bag limit. - See Health Advisory on page 15.	
1. Buoy 10 line upstream to a line projected from Rocky Point on the Washington bank through red buoy 44 to the navigation light at Tongue Point on the Oregon bank.		- Open for adipose fin-clipped <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31. - Open for adipose fin-clipped jack <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> May 16-July 31. - Open for <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> Aug. 1-Dec. 31. - Angling from Big Creek railroad trestle bridge near mouth closed Sept. 1-30. - See Health Advisory on page 15.	
2. A line projected from Rocky Point on the Washington bank through red buoy 44 to the navigation light at Tongue Point on the Oregon bank upstream to I-5 Bridge.		- Open for adipose fin-clipped <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> Jan. 1-March 31. - Open for adipose fin-clipped jack <i>chinook salmon</i> and adipose fin-clipped <i>steelhead</i> May 16-July 31. - Open for <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> Aug. 1-Dec. 31. - Angling from Big Creek railroad trestle bridge near mouth closed Sept. 1-30. - See Health Advisory on page 15.	
3. I-5 Bridge upstream to Bonneville Dam.		- Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and June 16-Dec. 31. - Open for adipose fin-clipped jack <i>chinook salmon</i> June 16-July 31. - Open for <i>chinook</i> and adipose fin-clipped <i>coho salmon</i> Aug. 1-Dec. 31. Closed: - Between markers located 150 feet upstream and 450 feet downstream from the mouth of Tanner Creek out to center of the Columbia River Aug. 16-Oct. 15; - Inside the south navigation lock at Bonneville Dam from a marker on the westernmost point of Robins Island to a marker on the Oregon mainland shore.

Water	Special Regulations
Columbia River 3. I-5 Bridge upstream to Bonneville Dam (continued)	- Bank angling prohibited: - From Bradford Island below Bonneville Dam from south shore between the dam and a line perpendicular to the shoreline marker at west end of riprap and from north shore between fishway entrance and a line perpendicular to the shoreline marker 850 feet downstream; - From Robins Island below Bonneville Dam downstream to a line perpendicular to the shoreline marker on mooring cell. - Angling from a floating device or using a floating device to set lines is prohibited in the area between Bonneville Dam and a line crossing the river downstream from the dam marked by a sign on the Oregon shore at the western-most tip of Robins Island to a sign approximately 50 feet upstream of the Hamilton Island boat ramp on the Washington shore (USACE Boat Restricted Zone). - Angling for <i>sturgeon</i> from a floating device is prohibited from Beacon Rock upstream to Bonneville Dam May 1-July 15. - Angling for <i>salmon</i> from a floating device is prohibited from Beacon Rock upstream to Bonneville Dam Nov. 1-Dec. 31.
4. Bonneville Dam upstream to Oregon/Washington border located upstream of McNary Dam	- See Health Advisory on page 15. Closed for <i>trout</i>. - Open for adipose fin-clipped <i>steelhead</i> Jan. 1-March 31 and June 16-Dec. 31. - Open for adipose fin-clipped jack <i>chinook salmon</i> June 16-July 31. - Open for <i>chinook</i> and <i>coho salmon</i> Aug. 1-Dec. 31. - Open for <i>sturgeon</i> retention Jan. 1-until quota reached, catch and release may continue after quota reached. - When angling for <i>salmon</i> and adipose fin-clipped <i>steelhead</i>, a single-point hook is required for all nonbuoyant lures. Nonbuoyant lures sink in freshwater. Closed - Bonneville Dam upstream to a line across the river 1,000 feet from the dam as indicated by USACE signs; - Interstate Hwy 197 bridge at The Dalles upstream to the upper line of The Dalles Dam, except bank angling is permitted upstream from the highway bridge for 1,100 feet to the cyclone fence; - John Day Dam downstream about 3,000 feet except that bank angling is permitted up to 600 feet below the fishway entrance; - From a floating device in USACE designated hazard zones above and below McNary Dam.
Benson Lake (Multnomah Co.)	- Open for <i>trout</i>, <i>warmwater game</i> and other <i>fish</i> the entire year. - Only adipose fin-clipped <i>trout</i> may be kept. 5 <i>trout</i> per day, 8-inch minimum length.
Eagle Creek upstream to main line railroad bridge (Hood River Co.)	- Open for <i>chinook</i> and <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> consistent with regulations for the Columbia River from Bonneville Dam upstream to Oregon/Washington border. - See Central Zone (page 58) for the area upstream from the main line railroad bridge.
Hartman Pond (formerly Wahkeena Pond) (Multnomah Co.)	- Open for <i>trout</i>, <i>warmwater game fish</i> and other <i>fish</i> the entire year. 5 <i>trout</i> per day, 8-inch minimum length.
Herman Creek upstream to main line railroad bridge (Hood River Co.)	- Open for <i>chinook</i> and <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> consistent with regulations for the Columbia River from Bonneville Dam upstream to Oregon/Washington border; except Closed Aug. 16-Nov. 30; except that area west of the peninsula up to the Lower Herman Creek Pond structure open through Dec. 31. - An Oregon license and tag are required when angling in an area defined by a line running from the northwest corner of the jetty due south to a marker on the south shore and east into the lagoon. - See Central Zone (page 58) for the area upstream from the main line railroad bridge.
Multnomah Creek from Benson Lake downstream to the culvert under Hwy 84	- Open for <i>trout</i>, <i>warmwater game</i> and other <i>fish</i> the entire year. 5 adipose fin-clipped <i>trout</i> per day, 8-inch minimum length.
Plympton Creek upstream to main line railroad bridge (Clatsop Co.)	- Open for <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i> and adipose fin-clipped <i>steelhead</i> consistent with regulations for the Columbia River from the Rocky Point-Tongue Point line upstream to I-5 Bridge, except Closed Sept. 1-30. - See Northwest Zone (page 28) for the area upstream from the main line railroad bridge.

(continued on next page)

Water	Special Regulations
Bridal Veil, Wahkeena, Multnomah, Horsetail, Oneonta and Tanner creeks upstream to the main line railroad bridge (Multnomah Co.)	- Open for <i>chinook salmon</i>, adipose fin-clipped <i>coho salmon</i>, and adipose fin-clipped <i>steelhead</i> consistent with regulations for the Columbia River from I-5 Bridge upstream to Bonneville Dam except Closed Aug. 16-Nov. 30. - See Willamette Zone (page 45) for the areas upstream from the main line railroad bridge.
Wahkeena Pond (See Hartman Pond)	
Youngs Bay Select Area (Clatsop Co.) (see map on page 90)	- Open for adipose fin-clipped <i>steelhead</i> and adipose fin-clipped <i>coho salmon</i> entire year. - Open for fin-clipped <i>spring chinook salmon</i> Jan. 1-July 31. - Open for <i>fall chinook salmon</i> Aug. 1-Dec. 31.
Blind Slough/Knapka Slough Select Area (Clatsop Co.) (see map on page 90) Including Gnat Creek from railroad bridge up to Aldrich Pt. Road Bridge	- Open for adipose fin-clipped <i>steelhead</i> and adipose fin-clipped <i>coho salmon</i> entire year. - Open for fin-clipped <i>spring chinook salmon</i> Jan. 1-July 31. - Open for <i>fall chinook salmon</i> Aug. 1-Dec. 31.

Do not remove tags from fish not being retained, but record:

- Tag number and color
- Date and location of catch
- Fish length
- Your name and address

Asian Clam

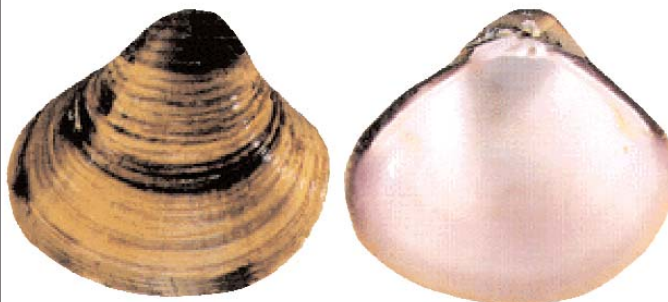

Small clam, up to 2 inches.

Yellow to brown shell with elevated ridges.

Larger individuals will have worn white area around hinge.

Found in mud and sand substrate in the Columbia River and tributaries.

Unlawful to take or possess

Put a salmon on your plate

The Oregon Plan for Salmon and Watersheds

is about **PEOPLE**, and how their lifestyles and actions affect watersheds and salmon populations - at work, at home, at play, or traveling between. It depends on all Oregonians being involved in creating an Oregon that is good for both people and salmon. It is about people taking action because it is the right thing to do, not because it is required by law or mandate.

Putting a salmon on your plate is an easy way to help. When you pay an additional \$30 for your two-year auto, truck, or recreational vehicle license plates, \$15 goes directly to the Oregon Watershed

Enhancement Board for projects that address road-related impacts to salmon and trout streams. Examples include replacing culverts under roads to make them passable by migrating fish, and resurfacing and reshaping roads to reduce erosion and silt that can smother stream spawning gravel.

Individuals, watershed councils, local governments and others are eligible to use the funds. The remaining \$15 goes to Oregon State Parks and Recreation Department to keep our parks beautiful.

When you buy a new or used vehicle, tell the salesman you want a salmon license plate. When you renew your plates, indicate you want the salmon license on the DMV form.

Other ways you can help include:

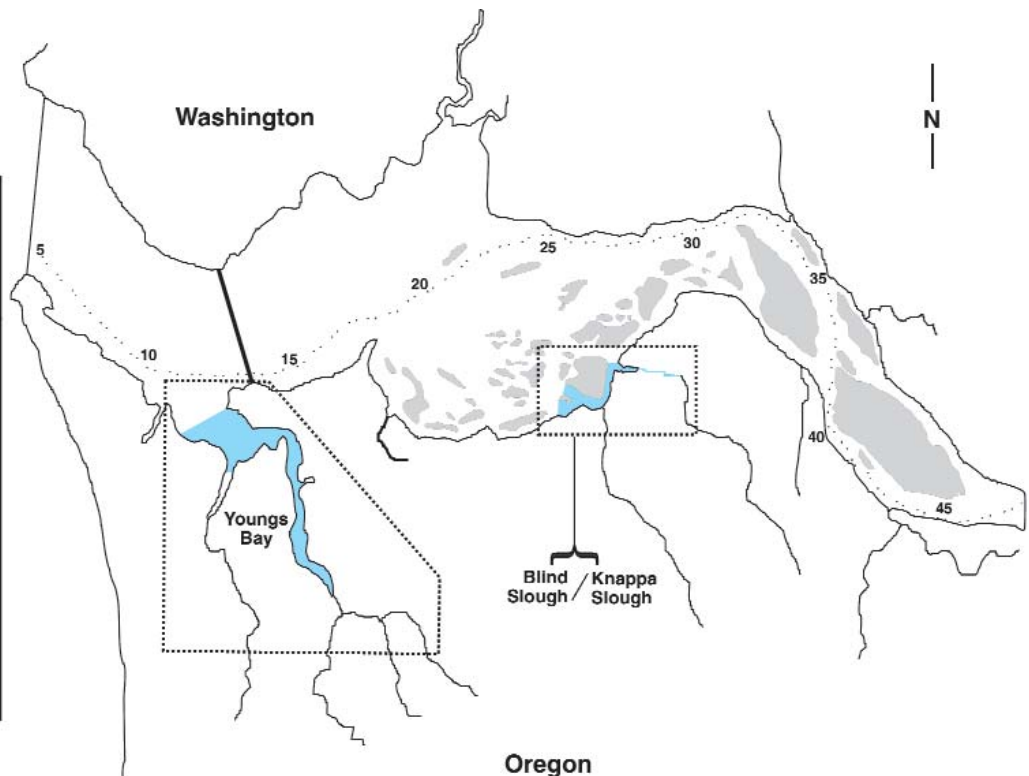

- Use less water.
- Plant water-efficient native plants.
- Mulch.
- Keep storm drains free of anything but clean water.
- Compost.
- Fix vehicle oil leaks.
- Use less (or no) pesticides and fertilizers.
- Maintain natural streamside vegetation.
- Use less energy.
- Carpool.

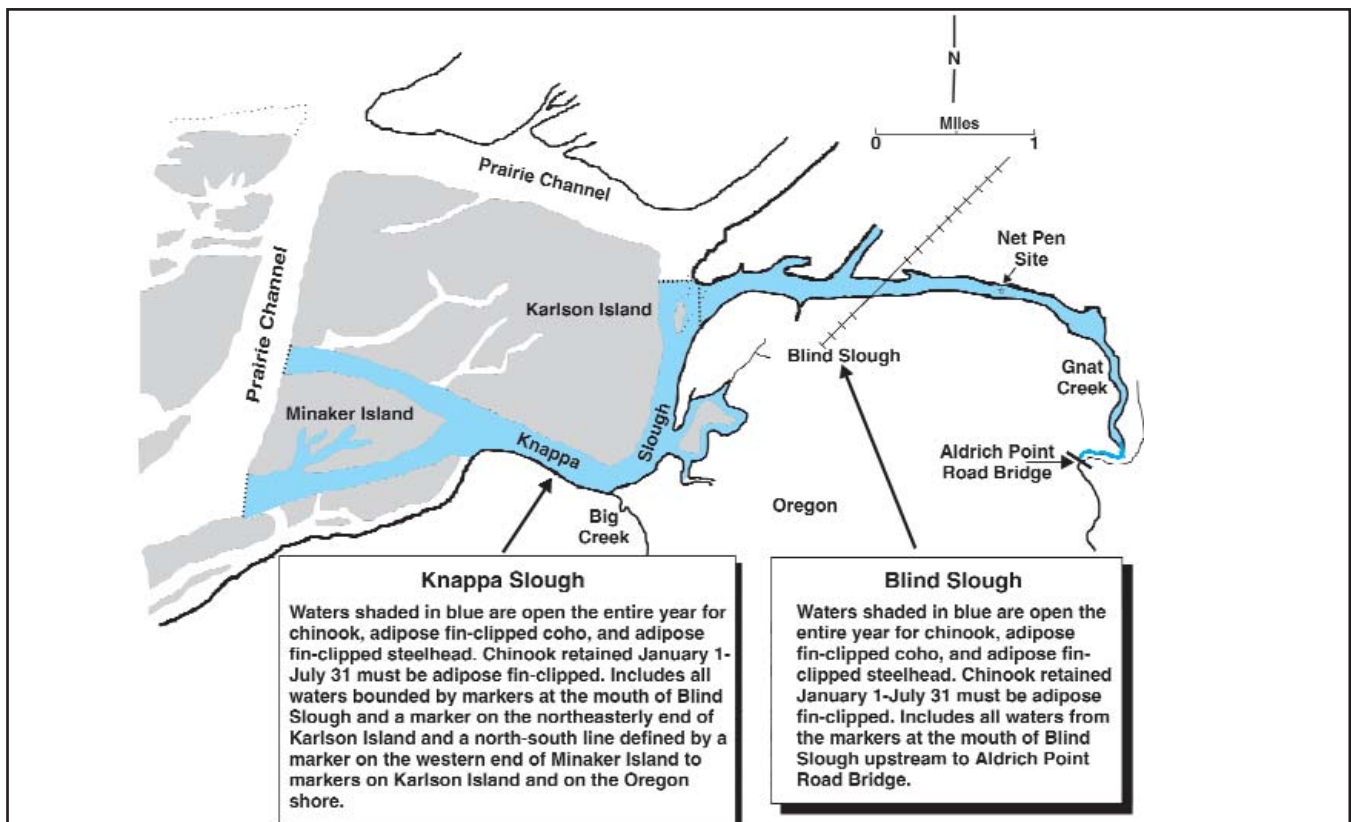

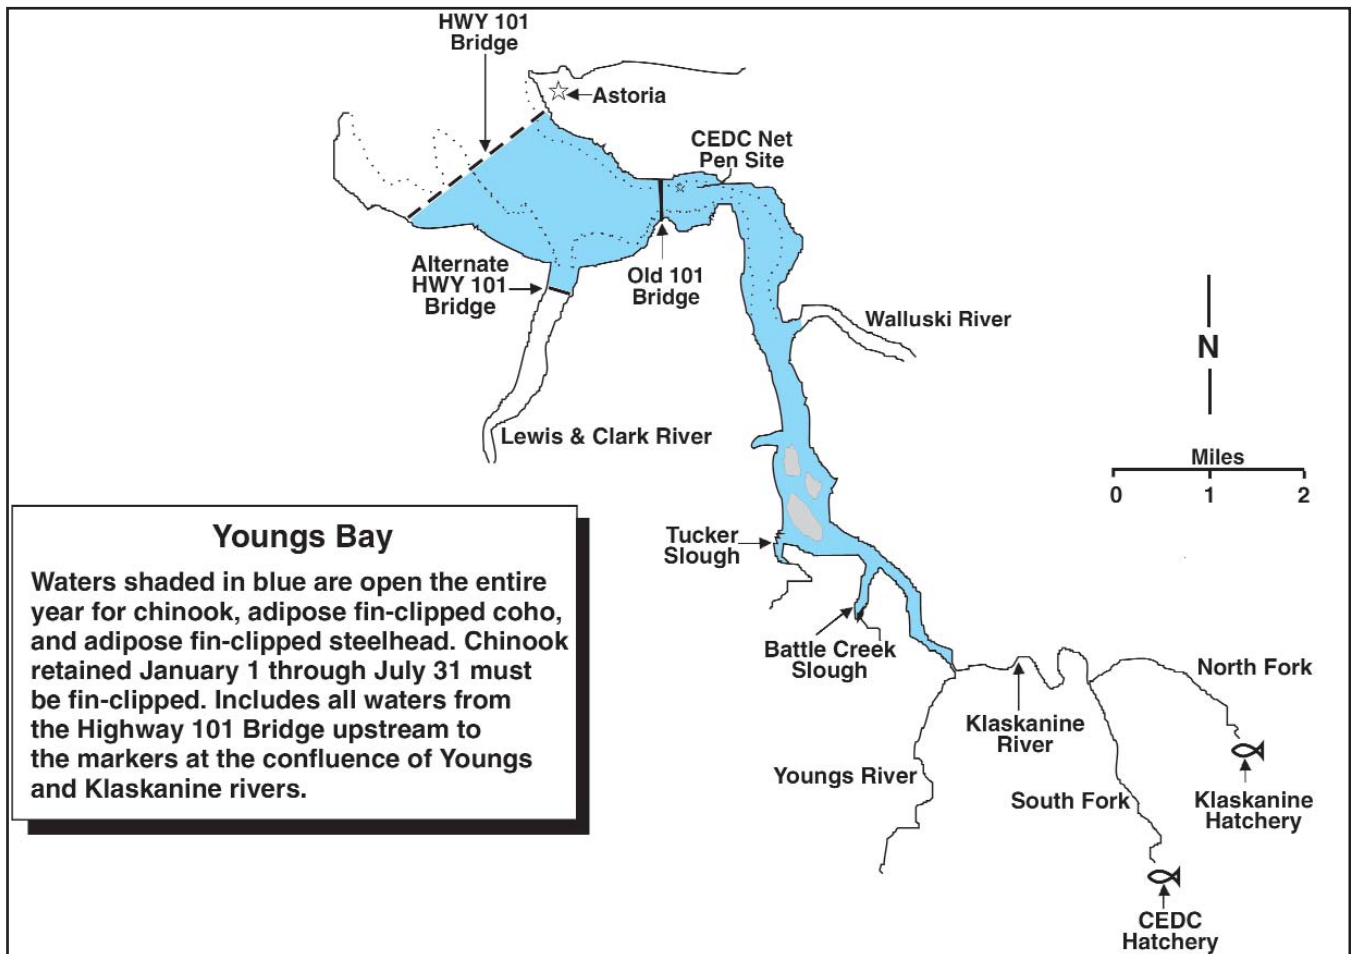

With a little effort, each person can make a big difference in Oregon's effort to restore watersheds and enhance salmon and trout populations. Remember - it's about our quality of life in Oregon.

To learn more, visit the Oregon Plan Web site at www.oregon-plan.org

Columbia River Select Areas
Chinook and coho returning to these areas are locally released netpen fish that are intended to provide maximum local harvest opportunity. Previous fisheries have shown only minimal interception of non-local stocks. Blue shaded areas are open for chinook, coho, and steelhead. See the following select area maps for specific sites, seasons, and regulations.

MARINE ZONE

Description:

The Marine Zone consists of the Pacific Ocean, coastal bays, and beaches.

Instructions:

1. Read the **Special Regulations** for this zone. **Special Regulations** apply to specific bodies of water or portions of water within a zone. If specific references to a body of water, species, catch limits, length limits, seasons, or other specifications are not made in the **Special Regulations** for this zone, then zone regulations apply.
2. Read the following **Regulations for the zone**.
3. Always read the **General Regulations**, pages 9-14, which apply to all zones, for information about licenses; tags and permits; definitions; catch and possession limits; gear and bait restrictions; hook and weight regulations; and harvest methods and hours, before going fishing.
4. Emergency or permanent rules adopted since January 1 may supersede these regulations. Anglers may call ODFW headquarters or regional offices at the numbers on page 5 of these regulations, or check the ODFW web site, www.dfw.state.or.us for these rules.

Regulations for this zone:

1. The ocean is separated from rivers and bays by:
 - a. Normal high tide lines along coastal beaches, where there are no jetties;
 - b. The ends of the jetties, where they exist, except for the Columbia River;
 - c. A north-south line running through Buoy 10 in the Columbia River.
2. License requirements for this zone are:
 - a. An Oregon angling license is required to angle for or land *marine fish* except smelt;
 - b. A license is required to harvest *shellfish*, for those 14 years or older. Permits are required as listed under *abalone*, *clams*, *mud and ghost shrimp*, and intertidal invertebrates in the following table. Contact ODFW Newport 541-867-4741, Charleston 541-888-5515, or Astoria 503-325-2462 for information.
3. Persons coming ashore in Oregon with ocean caught fish or *shellfish* are subject to all Oregon sport fishing and licensing regulations.
4. All areas are open except those areas listed under **Special Regulations** or **closed** by a Public Health Advisory.
5. Oregon Dept. of Agriculture Public Health Advisory for *shellfish*:
 - a. Any estuary or beach with a health advisory will be **closed** immediately until the advisory is removed;
 - b. For current information concerning *shellfish* health advisories, call 503-986-4728.
6. Barbed hooks are allowed when angling for *marine fish* except as noted for *salmon* and *steelhead*.
7. In the waters of the Pacific Ocean and in the Columbia River upstream to a line projected from Rocky Point on the Washington bank through red buoy 44 to the navigation light at Tongue Point on the Oregon bank, each angler aboard a vessel may continue to use angling gear until the daily limit of fish for all legally licensed and juvenile anglers aboard has been achieved. However, no individual angler may exceed any personal daily bag limit.

Species Name	Daily Catch Limits	Harvest Methods and Other Specifications	Season
Marine Fish: Lingcod (including green colored lingcod)	2 fish.	• 24-inch minimum length for <i>lingcod</i>. • 16-inch minimum length for <i>cabezon</i>. • 10-inch minimum length for <i>greenling</i>.	Waters are open all year, 24 hours per day except ocean closed June 1 through Sept. 30 outside of the 40-fathom curve (defined by latitude and longitude) for these species. <i>Pacific halibut</i> open at all depths during authorized seasons. See also Special Regulations .
Rockfish ("sea bass," "snapper"), Greenling ("sea trout"), Flounder, Sole, Cabezon and other marine species not listed.	10 fish in aggregate (total), including only 1 <i>Pacific halibut</i> during authorized seasons (see section on <i>Pacific halibut</i> below). Retention of yelloweye <i>rockfish</i> and <i>canary rockfish</i> prohibited.	• May be taken by angling, hand, bow and arrow, spear, gaff hook, snag hook and herring jigs. • Unlawful to mutilate so the size or species cannot be determined prior to landing, or to transport mutilated fish across state waters.	
Sanddab	25 fish.		
Surfperch (includes all marine perch species)	15 fish in aggregate (total).		
Herring, Anchovy, Smelt and Sardine	25 pounds in aggregate (total)	• May be taken by dip net, cast net, angling and herring jigs. • Herring jigs may have any number of hooks.	Waters are open all year, 24 hours per day except as noted under Special Regulations .
Striped Bass and/or Hybrid Bass	2 fish in 24 consecutive hours.	• May be taken by angling. • 30-inch minimum length for <i>striped/hybrid bass</i>.	
Offshore Pelagic species (see definition Page 11)	25 fish in aggregate (total) White sharks and basking sharks are prohibited and must be immediately released unharmed.	Methods as described below are only allowed when fishing outside of three miles from shore for offshore pelagic species. Only offshore pelagic species may be in possession, and any other species caught must be immediately released while using these methods. • Use of <i>chum</i> is allowed. <i>Chum</i> may be live, dead, or cut up <i>squid</i>, <i>herring</i>, <i>sardine</i>, <i>anchovy</i>, <i>smelt</i> or <i>Pacific mackerel</i>. • No restrictions on the number of rods or lines fished per angler.	Waters are open all year, 24 hours per day except as noted under Other Specifications (this table).
Sturgeon	1 per day, 5 per year.	• Minimum length 42 inches, maximum length 60 inches	Open all year

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

MARINE ZONE

Species Name	Daily Catch Limits	Harvest Methods and Other Specifications	Season
Salmon and Steelhead		- Ocean <i>salmon</i> and <i>steelhead</i> seasons and restrictions are set each April by the Pacific Fishery Management Council (PFMC). Regulations are published each May and are available from license agents. - See Northwest Zone, Tillamook Bay for description of control zone off Tillamook Bay. - Single-point, barbless hooks required, except in coastal bays, or as noted in <i>Special Regulations</i>. NOTE: Regulations may change on short notice during the season. Changes are available from license agents and news media.	
Pacific Halibut	1 fish. The first fish taken 32 inches or longer.	- Catch limits and seasons are set in March by the National Marine Fisheries Service. Regulations are published in May and are available at license agents. - May be taken by angling with single line, no more than 2 hooks; and by spear.	
Marine Shellfish and Marine Invertebrates: Abalone:	1 abalone per day, 5 abalone per year.	8-inch minimum length. - May be taken by <i>abalone</i> iron only. - Special permit required, see <i>Regulations for this zone</i>, item 2. For permit renewals, previous year's catch record must be submitted to ODFW before next year's permit will be issued. <i>Abalone</i> brought ashore shall be whole and in such a condition that the size can be determined. <i>Abalone</i> must not be removed from their shell in the field, except when being prepared for immediate consumption. - Every person while taking <i>abalone</i> shall carry a caliper-measuring gauge with fixed opposing arms capable of accurately measuring eight inches by placing the gauge over the shell.	Waters are open all year, 24 hours per day except as noted under Other Specifications (this table) or Special Regulations .
Clams:			
Razor Clams	First 15 taken.	- May be taken by hand or hand-powered tools. - Clatsop County beaches north of Tillamook head are Closed to razor clams July 15-Sept. 30. - Unlawful to remove <i>clams</i> from the shell before leaving the clamming area. - Each digger must have own container, dig own <i>clams</i>, and may not possess more than one limit of <i>clams</i> while in clamming area except under a Disabled Clam Digging Permit. See Licenses, Tags and Permits, pg. 10. - Unbroken <i>butter</i>, <i>cockle</i>, or <i>littleneck</i> <i>clams</i> may be returned only in immediate digging area. All other <i>clams</i> must be retained regardless of size or condition.	
Bay Clams: Butter, Littleneck, Cockle and Gaper	20 <i>clams</i> , of which 12 may be <i>gaper</i> <i>clams</i> .		
Softshell and Others	First 36 taken.	May be taken by hand or hand-powered tools.	
Mussels	72 <i>mussels</i> .		
Scallops	24 <i>scallops</i> .		
Piddocks (Rock Oysters)	First 36 taken.	First 36 <i>piddocks</i> taken regardless of size or condition.	
Shrimp (edible)	20 lb. in the shell.	May be taken by traps, pots or rings.	
Sand Crabs, Mole Crabs, Kelp Worms, Mud and Ghost Shrimp (Bait)	No limit.	- May be taken by hand or hand-powered tools. - Permit required to harvest <i>mud</i> and <i>ghost shrimp</i> by mechanical methods. See Regulations for this zone, item 2.	
Crabs:			
Dungeness Crab	12 male <i>crabs</i> , minimum size is 5-3/4 inches.	- May be taken using crab rings, pots, or baited lines, (limited to 3 rings, pots or lines per person); by hand; dip net; or rake. Pots may be left overnight. - Female <i>Dungeness</i> <i>crabs</i> may not be kept. - Size is measured in a straight line across the back (caliper measurement) immediately in front of, but not including the points. See drawing on next page. - Undersize and female <i>Dungeness</i> <i>crabs</i> and unwanted <i>red rock</i> <i>crabs</i> must be immediately released unharmed. - No holding pots, <i>holding devices</i>, or live boxes in ocean. <i>Holding pots</i>, <i>holding devices</i> or <i>live boxes</i> in bays and estuaries cannot retain more than 24 <i>Dungeness</i> or 48 <i>red rock</i> <i>crab</i> per holding container. - No more than 1 daily catch limit per day. No more than 2 daily catch limits in possession. <i>Crabs</i> may not be mutilated so that sex, size or species cannot be determined prior to landing. Mutilated <i>crabs</i> may not be transported across state waters.	Bays, estuaries, beaches, tide pools, piers and jetties are open all year, except as noted under Special Regulations . Ocean is closed for <i>Dungeness</i> <i>crab</i> Aug. 15-Nov. 30.
Red Rock Crab	24 <i>crabs</i> , any size or sex.		
Oysters	No take allowed.	- Harvest of native <i>oysters</i> prohibited. - All cultured <i>oysters</i> are private property and may not be taken without owner's permission.	Closed to the take of <i>oysters</i> .
Starfish, Urchins, Snails, Shore Crabs, and all Other Marine Invertebrates	10 in aggregate.	- May be taken by hand or hand-powered tools. - Unwanted <i>marine invertebrates</i> must be released alive.	Waters are open all year, 24 hours per day except as noted under Special Regulations .

ODFW will randomly call a small number of fishing license holders this year to ask some questions about saltwater sport fishing. If ODFW calls you, please take a few minutes to answer the questions. Your information will be very important in estimating how much salt water sport fishing effort takes place in Oregon. Thank you!

MARINE ZONE

Special Regulations for this zone:

Area	Special Regulations
Marine Gardens: - Haystack Rock (Cannon Beach) - Cape Kiwanda - Otter Rock - Yaquina Head - Yachats - Cape Perpetua - Harris Beach	Closed to take of <i>shellfish</i> and <i>marine invertebrates</i>, except: - Single <i>mussels</i> may be taken for bait; - Razor <i>clams</i> may be taken at Cape Perpetua. - See maps on pages 94-96.
Subtidal Research Reserves - Pirate Cove (Depoe Bay) - Gregory Point	Closed to take of <i>shellfish</i> and <i>marine invertebrates</i>. - Scientific take permits may be issued for scientific and educational purposes. - See maps on pages 94-96.
Intertidal Research Reserves - Boiler Bay - Neptune State Park - Cape Arago (Area B) - Brookings	Closed to take of <i>shellfish</i> and <i>marine invertebrates</i>, except <i>abalone</i>, <i>clams</i>, <i>Dungeness crab</i>, <i>red rock crab</i>, <i>mussels</i>, <i>piddocks</i>, <i>scallops</i> and shrimp (edible or bait) may be taken. - Scientific take permits may be issued for scientific and educational purposes. - See maps on pages 94-96.
Intertidal Research Reserves Cape Arago (Areas A and C)	Closed to take of all <i>shellfish</i> and <i>marine invertebrates</i>. - Scientific take permits may be issued for scientific and educational purposes. - See maps on pages 94-96.
Habitat Refuges Whale Cove (Lincoln Co.)	Closed to take of <i>marine fish</i>, <i>shellfish</i> and invertebrates. - See map on page 95.
Shellfish Preserves - Netarts Bay - Yaquina Bay	Closed to take of <i>clams</i> in posted <i>shellfish</i> preserves. - Scientific take permits may be issued for scientific and educational purposes.
Other Closures - Pyramid Rock (Rogue Reef) - Three Arch Rocks (Oceanside)	Closed to take of <i>marine fish</i>, <i>shellfish</i>, and <i>marine invertebrates</i> from 1000 feet around and including Pyramid Rock May 1-August 31. Closed to boats 500 feet around the main rocks May 1-Sept. 15 by authority of the Oregon State Marine Board. See map on page 94.

All trout, salmon and steelhead that are released must be unharmed and should not be removed from the water.

CLAM AND CRAB IDENTIFICATION

A.

B.

C.

D.

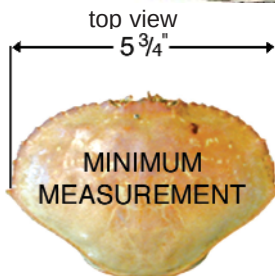

E.

F.

FEMALE CRAB

MINIMUM MEASUREMENT

bottom view

MALE CRAB

A. COCKLE

Shell - prominent, evenly spaced ridges (ribs)

B. LITTLENECK CLAM

Shell - radiating ribs, lack deep scalloped edge of Cockle

C. BUTTER CLAM

Shell - fine concentric lines of growth

D. GAPER CLAM

(Blue, Empire)
Large gape where neck protrudes

E. RAZOR CLAM

Thin, oval shell has a smooth, lacquer-like, light brown coating that distinguishes it from any of the bay clams.

F. DUNGENESS CRAB

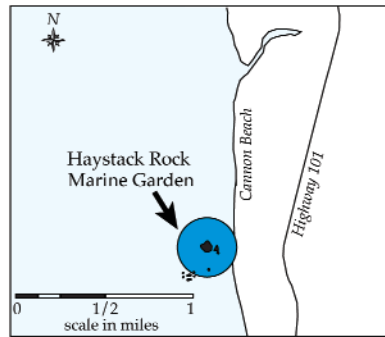

Females crabs have a rounded flap on their underside. Male crabs have an elongated flap. Minimum measurement does not include points.

Text highlighted in blue is new or changed from 2003

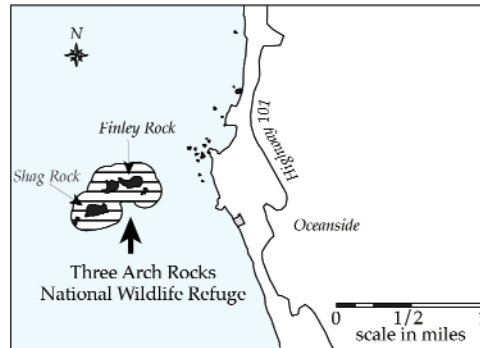

MANAGEMENT DESIGNATIONS FOR MARINE AREAS

-  Marine Garden
-  Intertidal Research Reserve
-  Subtidal Research Reserve
-  Wildlife or Habitat Refuge

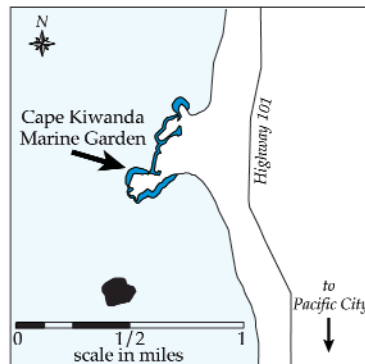

Haystack Rock Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying within a 300 yard radius of the base of Haystack Rock, located at Cannon Beach, Clatsop County.

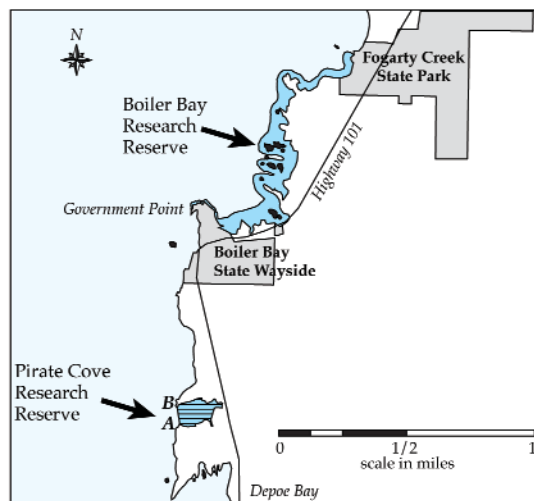

Three Arch Rocks National Wildlife Refuge: Boating is prohibited within a 500 foot radius of Finley Rock, Middle Rock, Shag Rock, and Seal Rock during the period from May 1 to September 15.

Cape Kiwanda Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the sand beach on the north and the sand beach on the south of Cape Kiwanda. Includes rocky areas abutting the sand beaches on the north and south sides of the headland.

Boiler Bay Research Reserve: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between a line projected due west from the mouth of Fogarty Creek, on the north, and a line projected due west from the westernmost tip of Government Point at Boiler Bay State Wayside on the south.

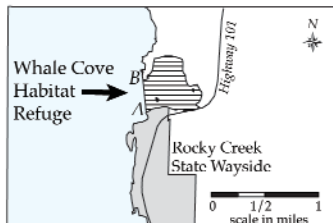

Pirate Cove Research Reserve: All areas in Pirate Cove below extreme high tide east of a line drawn across the mouth of the cove, as defined by points at 44°49'05.0" N. Latitude, 124°04'02.1" W. Longitude (point A) and 44°49'08.8" N. Latitude, 124°04'03.6" W. Longitude (point B).

Refer to Special Regulations for Marine Zone

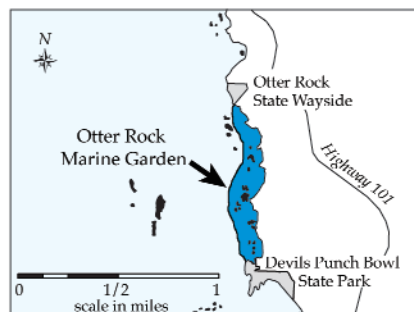

0 5 10 20
scale in miles

MANAGEMENT DESIGNATIONS FOR MARINE AREAS

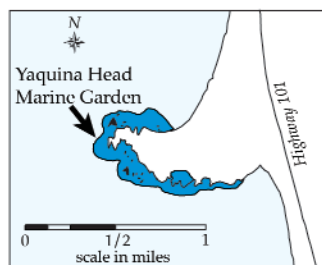

Whale Cove Habitat Refuge: All areas in Whale Cove below extreme high tide east of a line drawn across the mouth of the cove, as defined by points at 44°47'14.2" N. Latitude, 124°40'17.9" W. Longitude (point A) and 44°47'22.0" N. Latitude, 124°40'19.2" W. Longitude (point B).

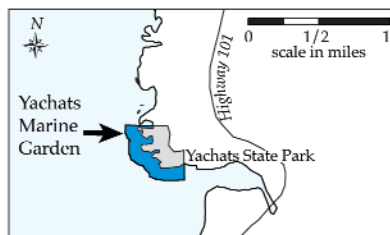

Otter Rock Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between a line projected due west from the highest point of Cape Foulweather visible from the shore (Otter Crest State Wayside) on the north, to a line projected due west from the Devil's Punchbowl on the south.

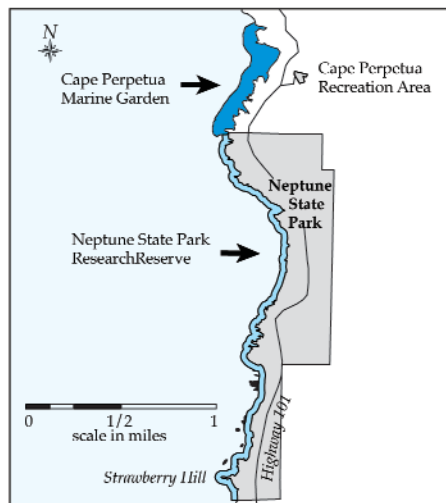

Yaquina Head Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the sand beach on the north, and the sand beach on the south of Yaquina Head. Includes rocky areas abutting the sand beaches on the north and south sides of the headland.

Yachats Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the north and south boundaries of Yachats State Park.

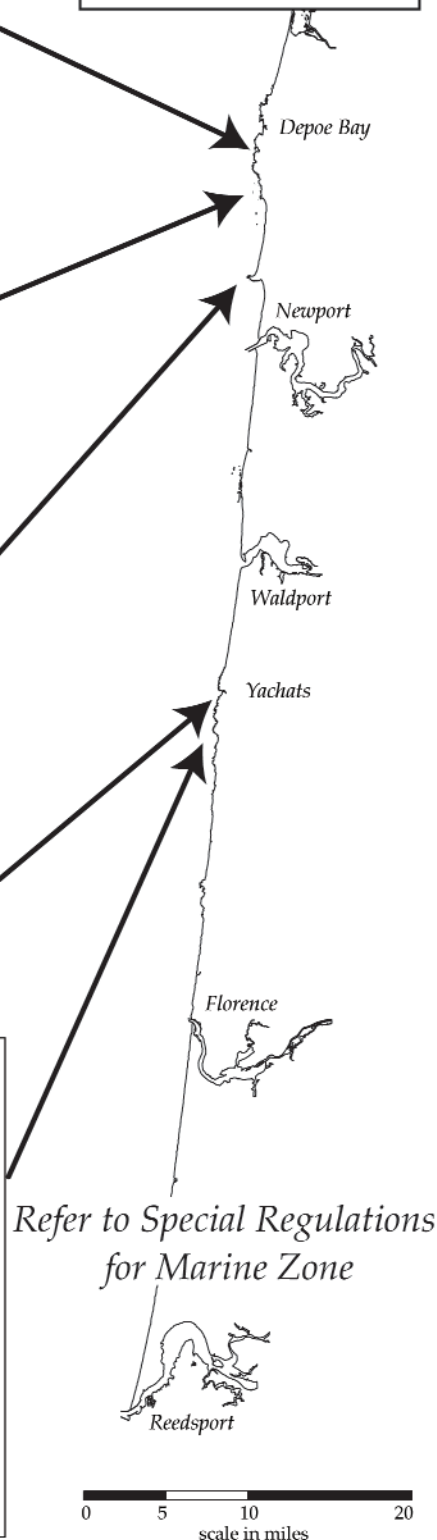

Cape Perpetua Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the north side of Devil's Churn on the north and the northerly boundary of Neptune State Park on the south.

Neptune State Park Research Reserve: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the northerly and southerly boundaries of the northern parcel of Neptune State Park.

- Marine Garden
- Intertidal Research Reserve
- Subtidal Research Reserve
- Wildlife or Habitat Refuge

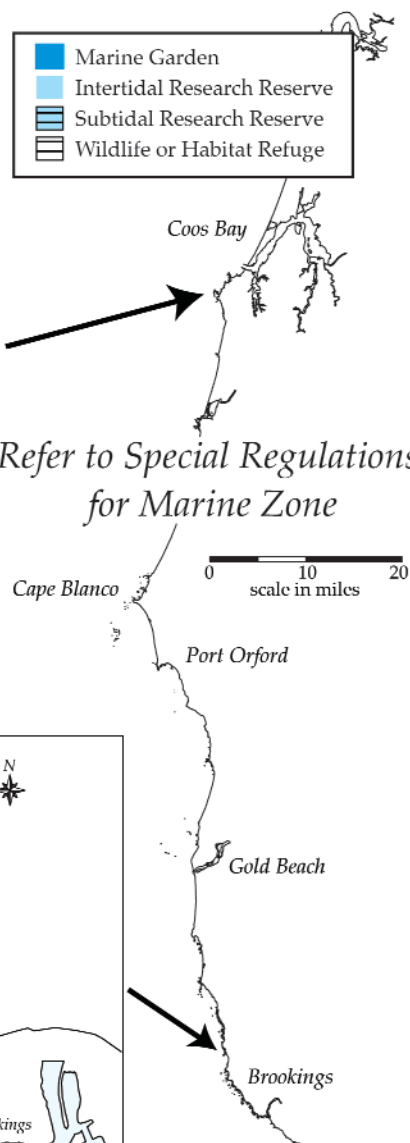

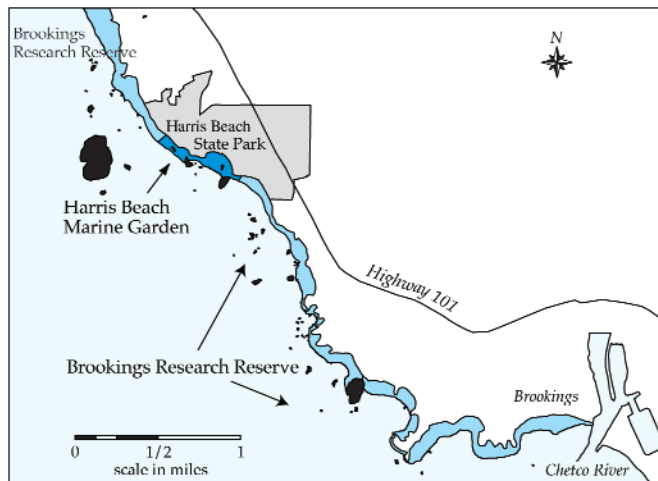

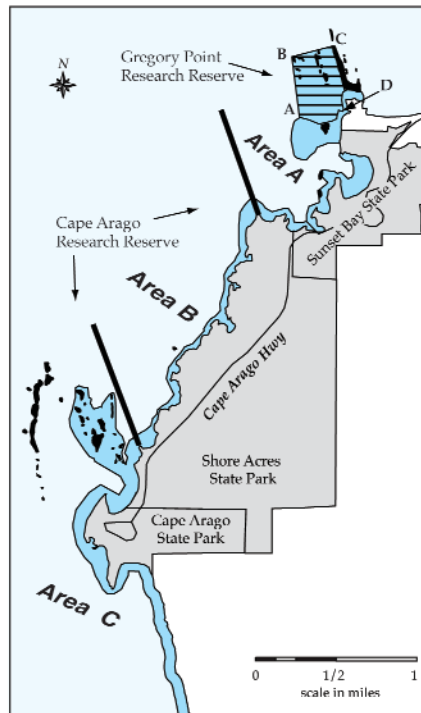

MANAGEMENT DESIGNATIONS FOR MARINE AREAS

Gregory Point Research Reserve: All areas seaward of extreme low tide in the area defined by the points making lines from 43°20'18.7" N. Lat., 124°22'50.3" W. Long. (point A) to 43°20'35.9" N. Lat., 124°22'53.7" W. Long. (point B), and seaward of extreme low tide from 43°20'24.1" N. Lat., 124°22'32.7" W. Long. (point D) to 43°20'39.0" N. Lat., 124°22'38.2" W. Long. (point C).

Cape Arago Research Reserve:
Area A: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between a line projected due west from the Cape Arago lighthouse and the southern tip of Norton Gulch. **Area B:** All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between the southern tip of Norton Gulch and Simpson Reef overlook. **Area C:** All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between Simpson Reef overlook and a point 3/4 of a mile south of Cape Arago State Park.

Harris Beach Marine Garden: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between a line projecting perpendicular to shore from the Harris Beach State Park beach access parking area on the north, and a line projecting perpendicular to shore from the road entrance to Harris Beach State Park off of Highway 101 on the south.

Brookings Research Reserve: All rocky areas, tide pools, and sand beaches situated between extreme high tide and extreme low tide lying between a point 1/2 mile north of Harris Beach State Park on the north, and the mouth of the Chetco River on the south (except that portion of the area within the Harris Beach Marine Garden).

Tidepool Etiquette

Intertidal areas are unique and fragile environments. They can be easily damaged and take a long time to recover. Animals living in this environment are extremely sensitive to human disturbance. Please follow these common sense etiquette tips to help minimize your impact while you are enjoying these special places.

- * Resist picking up animals. This can be stressful and harmful to them. Instead, view them where you find them.
- * If you do pick up an animal, place it back in its original location.
- * Step lightly. Avoid walking on animals. Walk on bare rock or sand when possible.
- * If you uncover an animal, carefully re-cover it so it is protected from weather and predators.
- * Do not pry animals off rocks. This will likely kill them.
- * Know the regulations for the area you are in. If collection is allowed, take only what you will use.
- * Do not handle or take animals in Management Designation areas without a permit. Note: refer to *Special Regulations* for allowable take of some foodfish species in these areas.
- * Some seabirds nest on cliffs or bare rock and feed in the intertidal. Avoid disturbing them and do not climb on cliffs and seastacks.
- * Seals and sea lions rest on beaches and rocks. Pups are often left while the mother is off feeding. Do not disturb or attempt to rescue these animals.

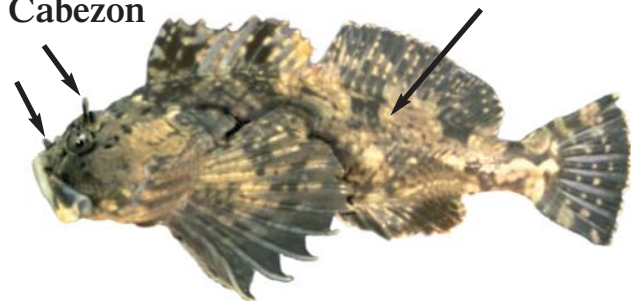

MARINE SPECIES (NON-SALMONID)

Lingcod ("ling")

Look for: Large mouth with large, sharp teeth. Upper jaw extends past middle of eye. Body may be brownish, bluish, or greenish with mottling. Green-colored "ling" are often confused with greenlings. To 60 inches.

Cabezon

Look for: Smooth skin, no scales. Small flap of skin on snout and above each eye (lies flat out of water). Body may be brownish, reddish or greenish. To 39 inches.

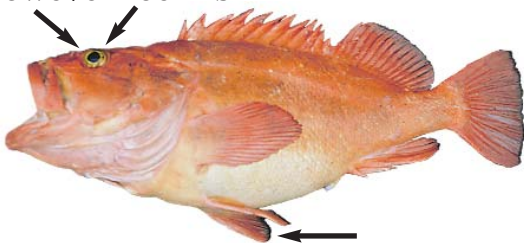

The following rockfish species, sometimes referred to as "red snapper," are easily confused:

Canary Rockfish

Look for: Gray or dusky mottling on sides. Narrow, light gray zone along lateral line. Tail indented with two distinct tips. Fins bright orange. To 30 inches.

Yelloweye Rockfish

Look for: Color fading to light orange or yellow on belly. Rough pair of ridges above eyes. Eyes bright yellow. Tail not indented. Fins pinkish, commonly with black edges. Smaller fish may have one or two white lines on sides (not shown). To 36 inches.

Kelp Greenling ("sea trout")

Look for: Small mouth with small teeth. Upper jaw does not extend past middle of eye. Males with blue spots around head (shown). Females light gray or brown with orange spots and yellow fins. To 24 inches.

WATCH OUT!

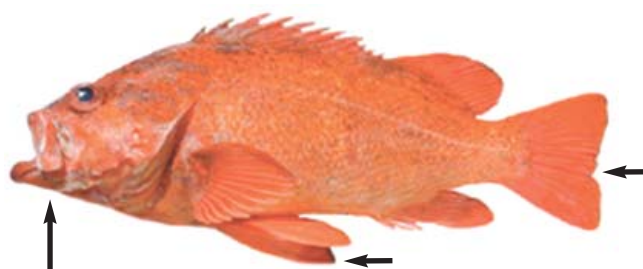

Young salmon are present in estuaries primarily April-June (Coho and Steelhead) and June - September (Chinook). To help **protect our salmon**, please limit your jigging to times and places where young salmon are not caught as they swim with herring, smelt and similar small fishes. Delicate young salmon do not respond well to catch and release, and they cannot be retained.

Copper Rockfish

Look for: Broad, light zone along lateral line. Tail not indented. Fins coppery. To 23 inches.

Vermilion Rockfish

Look for: Red fins (may be dark-edged in smaller fish). Lower jaw with scales. Tail slightly indented. To 30 inches.

- ☐ I am at least 65% disabled as certified by the last official certification of record by the U.S. Dept. of Veterans Affairs or any branch of the Armed Forces of the United States.

Attention all Anglers!!!!

DO YOU REMEMBER CATCHING YOUR FIRST FISH?

[Of course you do!]

Would you like to “give something back” to your community through volunteer service and in a sport that you love?

Would you like to teach youngsters and adults how to fish? Are you “hooked” on this concept yet?

If you are, then come join our Aquatic and Angler Education Instructor Team.

WHO: Aquatic and Angler Education Instructors are people over the age of 21 who love to fish! You need not be an “expert” fisherman to teach this course; a strong interest to introduce kids and adults to angling is all that is required.

WHAT: The program is a certified training program that teaches basic angling skills to youngsters. The course is a 6-8 hour training session, which covers:

- Basic angling Skills
- Aquatic Stewardship and Resources
- Responsible and Ethical Conduct
- Water Safety
- Regulations

WHERE: Volunteers deliver the Aquatic and Angler Education Program throughout Oregon. The Aquatic and Angler Program is

implemented through a variety of different groups such as: schools, Boys and Girls Clubs, 4-H programs, Police Athletic Leagues, Scouts and Campfire park and recreation departments, senior centers, retail stores and others.

WHEN: All year! The program may be delivered whenever you or your “partnering” organization is interested in doing the program.

WHY: Because Fishing is Fun! Introducing kids and adults to the sport of angling offers a healthy and fun recreational activity that can be shared for a lifetime with family and friends.

The Aquatic and Angler Education Program provides participants with a “hands on” fishing experience while learning more about aquatic resources.

As a trained instructor, you join a team of volunteers committed to teaching youngsters the joy of fishing. Upon certification, you will receive program assistance from ODFW in the following ways:

- Instructional Curriculum and Teaching Materials
- Student Manuals
- Loaner Equipment
- Teaching Aids
- Training
- Communications and Program Information
- Support Resources
- Uniform
- Awards Program

If you would like to become an Aquatic and Angler Educator Instructor or see this program offered in your local community organization or school, please complete and send the form below.
